## JUDICIAL COUNCIL OF CALIFORNIA

TRIAL COURT BUDGET
ADVISORY COMMITTEE

## Trial Court Budget Advisory Committee

Materials for May 18, 2015 Meeting*<br>Table of Contents

Draft Minutes from March 23 Meeting ..... 1
Action and Discussion Items
Item 2 - Children’s Waiting Room Distributions (Action Item) ..... 10
Item 3 - Amendments to the Statute Requiring a 2 Percent Reserve Held in the TCTF (Action Item) ..... 17
Item 7 - 2015-2016 Allocations for the V3 Case Management System and Intermediate Case Management Systems Programs from the State Trial Court Improvement and Modernization Fund (Action Item) ..... 22
Item 8 - Allocation of Reductions Due to Revenue Shortfalls in the Trial Court Trust Fund (Action Item) ..... 31
Item 8 - Attachment 8C2 (additional attachment related to Item 8) ..... 36
Item 10 - Judicial Branch Workers’ Compensation Program (Discussion Item) ..... 38
Item 2 - Attachment 2D2 (additional attachment related to Item 2) ..... 41
Item 6 - Budget Change Proposals for 2016-2017 (Action Item) ..... 44
Item 9 - 2015-2016 Workload-Based Allocation and Funding Methodology (Discussion Item) ..... 73
Item 12 - Proposed Amendments to California Rules of Court 10.63 (Discussion Item) ..... 101
Item 4 - Allocation of Proposed Restored Funding for Retirement Cost Changes (Action Item) ..... 106

[^0]Trial Court Budget Advisory Committee

## Minutes of Open Meeting

March 23, 2015
10:00 p.m. to 3:00 p.m.
Administrative Office of the Courts, 2860 Gateway Oaks Drive, Suite 400, Sacramento

[^1]
## OPEN MEETING

## Call to Order and Roll Call

The meeting was called to order at 10:05 a.m. and roll was taken.

## Approval of Minutes

The advisory body reviewed and approved the minutes of the January 15, 2015, Trial Court Budget Advisory Committee (TCBAC) meeting.

## Public Comment

Judge Earl announced that written comments were received for items on this meeting's agenda, by the following individuals and organizations:

## Item 3 - Court-Appointed Dependency Counsel Allocation

- Candi M. Mayes, Dependency Legal Group of San Diego*
- David M. Meyers, Dependency Legal Services*
- Roger Chan, East Bay Children’s Law Offices**
- Hon. Joyce Hinrichs and Kerri Kennan, Superior Court of California, County of Humboldt
- Jennifer Kelleher, Legal Advocates for Children \& Youth*
- David Otsuka, The Bar Association of San Francisco
- Jill E. McInerney, San Francisco Counsel for Families \& Children*
- AnnaLisa Chung, Dependency Advocacy Center*
- Hon. Cindee Mayfield, Superior Court of California, County of Mendocino
- Hon. Stephen O. Hedstrom and Krista LeVier, Superior Court of California, County of Lake
- Hon Winifred Y. Smith, Superior Court of California, County of Alameda
- Kenneth Krekorian, Los Angeles Dependency Lawyers
- Cheryl Hicks, Juvenile Dependency Counselors
- Leslie Starr Heimov, Children's Law Center of California*

Item 2 - 2015-2016 Allocations for Various Programs from the State Trial Court Improvement and Modernization Fund and the Trial Court Trust Fund:

- Sustain Justice Edition Consortium members: Deborah Norrie, Tammy Grimm, Rhonda Gysin, Kerri Keenan, Lee Kirby, Krista LeVier, Gil Solorio, Bonnie Thomas, and Cindy Van Schooten
- Hon. Brian McCabe and Linda Romero Soles, Superior Court of California, County of Merced
- Hon. F. Dana Walton and Cynthia J. Busse, Superior Court of California, County of Mariposa
* These individuals also appeared at the meeting in person.
** Joy Ricardo appeared in person on behalf of this organization.

DISCUSSION AND ACTION ITEMS (ITEMS 1-6)
```

## Item 2

2015-2016 Allocations for Various Programs from the State Trial Court Improvement and Modernization Fund (IMF) and the Trial Court Trust Fund (TCTF)

Action: This item contained numerous recommendations that were taken up and voted on as indicated below.

1. TCBAC approved unanimously a recommendation that would require that any new proposal that would rely on TCTF or IMF funding or any proposal for increased costs of an existing program above the program's fiscal year (FY) 2014-2015 allocation, shall include information on alternative funding options and shall be reviewed by the TCBAC prior to presentation to the Judicial Council for consideration.
2. TCBAC approved with two no votes a recommendation to direct the Workload Assessment Advisory Committee (WAAC) to include in the Resource Assessment Study computation of workload need, the paid complex case fee filings, and assign to them the asbestos weighting of about 3,546 minutes, until such time as WAAC reviews the validity of the weighting.
3. TCBAC approved unanimously (except with regard to the Complex Civil Litigation Program which had two no votes) a recommendation to allocate $\$ 59.37$ million from the IMF in 2015-2016, a net reduction of $\$ 10.8$ million, for various programs and projects, including the elimination of all IMF funding, totaling $\$ 5.77$ million starting in 2015-2016, for the following programs and projects:
a. Human Resources - Court Investigation $(\$ 94,500)$
b. Workers' Compensation Reserve ( $\$ 1.23$ million)
c. Audit Contract $(\$ 150,000)$
d. Justice Partner Outreach/e-Services $(\$ 200,700)$
e. Alternative Dispute Resolution Centers $(\$ 75,000)$
f. Complex Civil Litigation Program $(\$ 4,001,000)$
g. Subscription Costs - Judicial Conduct Reporter $(\$ 17,100)$

If the JC believes HR court investigations are a priority, the Judicial Council should consider whether JCC staff should look into whether this service can be provided under a JC master agreement where participating courts would pay for their costs from the TCTF.
4. TCBAC approved unanimously a recommendation that the Judicial Council reconsider its decision to not allocate any IMF funding for Jury Management Systems in 2015-2016 and allocate 2015-2016 jury royalties deposited into the IMF first for Jury System Improvement Projects and any remaining royalties for Jury Management Systems.
5. TCBAC approved unanimously a recommendation that the Judicial Council eliminate the funding for the ongoing maintenance costs for the California Law Enforcement Telecommunications Systems (CLETS)/Integration program. If the Judicial Council believes this program is a priority, it should consider granting an exception to its 2006 policy on statewide administrative infrastructure services that are to be paid from either the TCTF or IMF and provide the service to the courts on a fee-for-service basis.
6. TCBAC approved unanimously a recommendation that the Judicial Council reduce the Center for Judicial Education and Research funding from the IMF by 15\% and allow the CJER Governing Committee to decide how to assign the recommended total allocation of $\$ 1.202$ million for education programs among the five education program categories. (The information provided to TCBAC at the time of the meeting included the Governing Committee's funding decisions.)
7. TCBAC approved unanimously a recommendation that the Judicial Council reduce the funding for the Litigation Management Program from the IMF by \$500,000 and direct the staff of the program to bring before the Revenue and Expenditures Subcommittee of TCBAC for funding consideration any claims whose costs cannot be covered within the amount allocated for funding from the IMF.
8. TCBAC approved unanimously a recommendation that the Judicial Council eliminate $\mathbf{\$ 3 4 7 , 6 0 0}$ in IMF funding starting in 2016-2017 for the JusticeCorps program. If the Judicial Council believes this program is a priority, it should direct JCC staff to work with all interested courts for possible participation in the JusticeCorps program, and fund their share of the cost of the program.
9. TCBAC approved unanimously a recommendation that the Judicial Council eliminate the funding of the Trial Court Security Grants program from the IMF. If the Judicial Council believes this program is a priority, it might consider funding it from one of the state construction funds starting in 2015-2016, if possible.
10. TCBAC approved unanimously a recommendation that the Judicial Council eliminate the funding of one position from the Trial Court Procurement program from the IMF. If the Judicial Council believes this is a priority, it might consider funding the position from the state construction funds starting in 2015-2016, if possible.
11. TCBAC approved unanimously a recommendation that the Judicial Council reduce funding for the Domestic Violence Family Law Interpreter Program by 15\% (\$3,000) from the IMF in 2015-2016 and, beginning in 2016-2017, shifts the funding for the full amount of these costs $(\$ 17,000)$ to the TCTF Program 45.45 Court Interpreter appropriation. TCBAC requests that the Judicial Council advise the TCBAC of this decision by the October 2015 Judicial Council meeting. This funding relates to translation of domestic violence forms.
12. TCBAC approved unanimously a recommendation that the Judicial Council fund the costs for the following programs in 2015-2016 from the IMF and then, beginning in 2016-2017, shift these "core central office" costs to the council's General Fund appropriation: Court Interpreter Program - Testing, Development, Recruitment and Education; Treasury Services - Cash Management; Audit Services; Uniform Civil Fees; and Regional Office Assistance Group.
13. TCBAC approved unanimously a recommendation that the Judicial Council maintain funding from the IMF for CFCC Publications in 2015-2015 at the 2014-2015 funding level. Recommend that JCC staff determine whether they can develop a cost recovery model with justice partners for these costs beginning in 2016-2017, and direct that JCC staff advise the TCBAC of this determination by October 1, 2015.
14. TCBAC approved unanimously a recommendation to the Judicial Council to increase funding from the IMF for the California Courts Protective Orders Registry (CCPOR) Program in 2015-2016 by \$130,000 over the 2014-2015 level, and direct JCC staff to determine whether they can provide the service on a fee-for-service basis in 2016-2017. JCC staff are to advise the TCBAC of this determination by October 1, 2015.
15. The original Recommendation 15 was not voted on by the TCBAC as it was addressed as part of Recommendation 3 involving the HR-Court Investigations. The TCBAC did address two additional allocation items that were not included in the Revenue and Expenditures Subcommittee issue paper and are addressed below.

The TCBAC approved unanimously a recommendation that the Judicial Council maintain funding for the Transactional Assistance Program in 2015-2016 at the 2014-2015 level. It further recommended that the JCC staff determine whether the staff can provide the service on a fee-for-service basis, with the courts reimbursing the Judicial Council for services used, and direct that JCC staff advise the TCBAC of this determination by October 1, 2015.

The TCBAC approved unanimously a recommendation that the Judicial Council approve that in 2015-2016 the costs to prepare the Other Post-Employment Benefits (OPEB) Reports, which are estimated to be somewhat over \$600,000, not be funded from the IMF.
16. TCBAC approved unanimously a recommendation that the Judicial Council allocate \$139.37 million in 2015-2016, as indicated in Table 1 below, from the Trial Court Trust Fund Judicial Council (Program 30.05), Trial Court Operations (Program 30.15), and Support for Operation of the Trial Courts (Program 45.10) appropriations for various programs and projects as well as specific allocations that reimburse trial court costs. These programs are approved in amounts that the JCC staff has stated are required at this time, to maintain these programs.
17. TCBAC approved unanimously a recommendation to the Judicial Council that for jury reimbursement, JCC staff be directed to make, if eligible jury costs exceed the total allocation, a year-end allocation adjustment so that each court receives a share of the approved allocation based on their share of the statewide allowable jury expenditures.

Table 1 -- Recommended 2015-2016 TCTF Allocations

| Program or Project Title | 2014-2015 <br> Allocation | 2015-2016 <br> Estimated Restricted Revenue or Court Reimbursement | 2015-2016 <br> Recommended <br> Maximum <br> Allocation | Total Recommended 2015-2016 Allocation |
| :---: | :---: | :---: | :---: | :---: |
| Judicial Council (Program 30.05) |  |  |  |  |
| Sargent Shriver Civil Counsel Pilot Program | \$500,000 | \$500,000 |  | \$500,000 |
| Equal Access Fund | \$262,000 | \$194,000 |  | \$194,000 |
| Court-Appointed Dependency Counsel Collections | \$260,000 | \$260,000 |  | \$260,000 |
| Statewide Support for Collections Programs | \$625,000 |  | \$625,000 | \$625,000 |
| Civil, Small Claims, Probate and Mental Health (V3) CMS | \$1,478,521 | \$0 | \$0 | \$0 |
| Phoenix Financial Services | \$106,434 | \$107,000 |  | \$107,000 |
| Phoenix Human Resources Services | \$1,349,000 | \$1,360,000 |  | \$1,360,000 |
| CLETS Services/Integration | \$0 | \$114,000 |  | \$114,000 |
| Trial Court Operations (Program 30.15) |  |  |  |  |
| Children in Dependency Case Training | \$113,000 |  | \$113,000 | \$113,000 |
| Sargent Shriver Civil Counsel Pilot Program | \$7,738,000 | \$7,686,000 |  | \$7,686,000 |
| Civil, Small Claims, Probate and Mental Health (V3) CMS | \$4,179,616 |  |  |  |
| Civil, Small Claims, Probate and Mental Health (V3) CMS (reimbursed by courts) | \$804,863 | \$625,000 |  | \$625,000 |
| California Courts Technology Center | \$1,602,750 | \$1,606,000 |  | \$1,606,000 |
| Interim Case Management System | \$956,207 | \$843,000 |  | \$843,000 |
| Human Resources - Court Investigation | \$0 | \$94,500 |  | \$94,500 |
| CLETS Services/Integration | \$0 | \$400,000 |  | \$400,000 |
| Other Post Employment Benefits Valuation | \$0 | \$650,000 |  | \$650,000 |
| Support for Operation of the Trial Courts (Program 45.10) |  |  |  |  |
| Court-Appointed Dependency Counsel | \$103,725,445 |  | \$103,725,000 | \$103,725,000 |
| Jury Reimbursements | \$16,000,000 |  | \$14,500,000 | \$14,500,000 |
| Replacement Screening Stations Reimbursements | \$2,286,000 |  | \$2,286,000 | \$2,286,000 |
| Self-Help Center Reimbursements | \$2,500,000 |  | \$2,500,000 | \$2,500,000 |

| Program or Project Title |  | 2015-2016 <br> Estimated <br> Restricted <br> Revenue or Court <br> Reimbursement | 2015-2016 <br> Recommended <br> Maximum <br> Allocation | Total <br> Recommended <br> 2015-2016 <br> Allocation |
| :--- | ---: | ---: | ---: | ---: |
| Elder Abuse Reimbursements | $\$ 332,000$ |  | $\$ 332,000$ | $\$ 332,000$ |
| California State Auditor Reimbursement | $\$ 325,000$ |  | $\$ 325,000$ | $\$ 325,000$ |
| CAC Dependency Counsel Collections <br> Reimbursement | $\$ 996,574$ |  |  | $\$ \mathbf{\$ 5 2 5 , 2 0 0}$ |

Item 3

Court-Appointed Dependency Counsel Allocation
Action: This item contained many recommendations that were taken up and voted on as indicated below.
8. TCBAC approved unanimously a recommendation that a joint working group of the Trial Court Budget Advisory Committee and the Family and Juvenile Law Advisory Committee be established to review the caseload funding model for court appointed dependency counsel and include in its review the following issues, and report back to the Judicial Council no later than April 2016:
a. Whether attorney salaries should continue to be based on an average salary by region, or whether another method should be used such as an individual county index of salaries;
b. Whether the attorney salaries used in the model should be updated;
c. Whether the calculation for benefits costs in the model is accurate or if it should be changed;
d. Whether the calculation for overhead costs in the model is accurate or if it should be changed;
e. Whether the state child welfare data reported through U.C. Berkeley accurately represents court-supervised juvenile dependency cases in each county, or whether court filings data or another source of data be used; and
f. Whether the ratio used to estimate parent clients in the model is accurate or if it should be changed.
7. TCBAC approved unanimously a recommendation that the Superior Court of California, Colusa County be provided with an allocation for court appointed dependency counsel equal to 75.7 percent of its calculated need.
6. TCBAC approved by a vote of 15 to 14 a recommendation that the Judicial Council staff develop a process to reimburse courts for unexpected caseload increases that includes reserving up to $\$ 100,000$ of the court appointed dependency counsel budget for that purpose and implementing guidelines and an application and reimbursement procedure. This is an interim measure that is to come to the Judicial Council no later than April 2016. It is further recommended that the JC establish a policy that any remaining funds would rollover to the next year.
5. TCBAC approved unanimously a recommendation that any state funds designated for court appointed dependency counsel in addition to the current $\$ 103.7$ million budget be allocated to courts with an allocation of less than 75.7 percent of need (the statewide average level of funding) as calculated by the caseload funding model.
4. This recommendation was not voted on as it is already a Judicial Council policy.
3. TCBAC approved unanimously a recommendation that any court appointed dependency counsel funding that is estimated to remain unspent at the end of the year be reallocated by Judicial Council staff to courts with a funding need as early in the fiscal year as is possible, using the formula and method approved by the Judicial Council for this purpose on January 22, 2015.

1. TCBAC approved with a vote of 21 to 8 , a recommendation that the Judicial Council approve a process to allocate dependency court appointed counsel funds to the courts that is based on each court's funding need as calculated by the caseload funding model for juvenile dependency, and adjusted to available funding statewide.
2. TCBAC approved with a vote of 15 to 13 a recommendation that the new allocations be phased with annual increases or decreases in FY 2015-2016, FY 2016-2017, and FY 20172018, and that in FY 2018-2019 all courts will receive an equivalent percentage of their calculated need. The allocations should be phased in by basing each court's annual allocation on a percentage of its base funding in FY 2014-2015, and a percentage of its
calculated need in the current fiscal year; and the percentages should change annually as follows:
a. FY 2015-2016: court receives 10\% of need and $90 \%$ of base
b. FY 2016-2017: 40\% of need and $60 \%$ of base
c. FY 2017-2018: 80\% of need and $20 \%$ of base
d. FY 2018-2019: 100\% of need.

Item 4

## Allocation of Proposed Restored Funding for Retirement Cost Changes

Action: TCBAC approved unanimously a recommendation that would allocate the non-interpreter related benefits funding provided in the Budget Act of 2014 as follows:

Allocate by prorating 50 percent of the $\$ 10.4$ million in restored benefits funding to all the trial courts. The additional 50 percent would be prorated:

1) To courts that do not subsidize the employee share of costs for retirement in 2015-2016; or
2) To courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases; and
3) For courts in which the subsidized portion of the employee share of costs for retirement has been reduced by at least $30 \%$ but less than $100 \%$ will receive 50 percent of what it would have received if it no longer subsidized the employee share.

Due to a lack of time, Item 5 - Amendments to the Statute Requiring a 2 Percent Reserve Held in the TCTF - and Item 6 - Children's Waiting Room Distributions - were deferred to the next TCBAC meeting.

Judge Earl announced that there would be another TCBAC meeting in May, the date to be announced at a later time. She also announced that there would be a TCBAC meeting on July 6, 2015.

ADJOURNMENT
There being no further business, the meeting was adjourned at 3:50 p.m.

Approved by the advisory body on $\qquad$ 2015.

## Item 2

## Children's Waiting Room Distributions (Action Item)

## Issue

The Children's Waiting Room Working Group is recommending changes and additions to the Judicial Council's policy regarding children's waiting room distributions.

## Background

Government Code section 70640 authorizes the Judicial Council to provide monthly children’s waiting room (CWR) distributions to each court where a CWR has been established or where the court has elected to establish such a service. CWR distributions for individual courts are made from the respective court's first paper fee collections, which would otherwise support all courts' Trial Court Trust Fund (TCTF) base allocations. The distribution to a court must be no less than two dollars and no more than five dollars per paid first paper civil filing fee.

The council first adopted a policy and procedure on court requests for CWR distributions on June 27, 2014. On December 12, 2014, the council amended the process for courts to request CWR distributions to specify that courts applying for new CWR distributions can request that distributions begin no more than one year in advance of the planned opening date of the CWR, unless there are extenuating circumstances. In addition, it amended the process for courts to request CWR distributions to specify that once any court's request to decrease its existing CWR distribution is approved by the Judicial Council, the request can be implemented by Judicial Council staff, effective either January 1 or July 1. Attachment 2B displays the current policy.

On November 5, 2014, the TCBAC asked the work group to revisit the following recommended policy that was provided to the TCBAC for consideration on November 5, 2014:

If a court ceases to operate any CWRs, but has a plan to reopen at least one CWR within two years of the most recent cessation date, the court can retain any unspent CWR distributions. However, if the court does not have plans to reopen at least one CWR within two years, the court must return any unspent CWR distributions to the Trial Court Trust Fund within 90 days of the most recent cessation date.

On January 15, 2015, the working group provided proposed language to the TCBAC (see Attachment 2C). Due to questions about whether courts had the authority to return CWR fund balance to the TCTF, whether fund balance returned to the TCTF would in fact become unrestricted, and whether the proposed language regarding the return of CWR fund balance through an allocation reduction would result in courts' general fund being reduced instead of their CWR fund, the subcommittee chair agreed to have the subcommittee revisit the proposed language.

## Recommendations

The working group met on February 6, 2015 and is proposing changes to the January 15, 2015 language (see Attachment 2D). The working group received a legal opinion from the Judicial Council's Legal Services Office (LSO). LSO did not see any legal issues with courts returning

CWR distributions since January 1, 2006 and advised that those CWR distributions returned to the TCTF become unrestricted monies in the TCTF. Distributions for children's waiting rooms do not come from fees dedicated solely to that specific purpose. Instead, the distributions are allocated from the total sum held in the TCTF. The restriction on use of the distribution for the operation and maintenance of children's waiting rooms is imposed on courts only once they receive it. In addition, the LSO also advised that, according to the language of GC section 70640, when a court ceases operating a CWR the court's CWR distribution can be stopped only on either January 1 or July 1, regardless of when a court ceased operating a CWR. As such, the January 15, 2015 language regarding having a court's CWR distribution stopped as soon as practicable was revised (see lines 36 and 37 on Attachment 2D).

With regards to whether the return of CWR fund balance through an allocation reduction would result in courts' general fund being reduced instead of their CWR fund, the JC's Audit Service office advised that courts could return CWR fund balance to the TCTF through the TCTF distribution process, and should reflect the return in their financials through appropriate accounting entries. The subcommittee considered allowing courts the option to return CWR fund balance by writing a check, but believes it is easier administratively for courts and JC staff to do so through the distribution process and, perhaps more importantly, the return through the distribution process would guarantee that CWR fund balance would be returned to the TCTF on a timely basis.

Recognizing that courts and JC staff could potentially have a difference of opinion on how much CWR fund balance should be returned to the TCTF, the subcommittee is recommending that any unresolved dispute regarding the amount of CWR that a court should return according to council policy be brought before the TCBAC and JC. The added language is on lines 43-46, 68-71, and 89-92 of Attachment 2D.

For courts that have received a distribution but never operated a CWR, Section E is revised to give them until September 26, 2015 to apply for a continued distribution (see line 83-86). This would give courts two months to apply if the council approves this recommendation at its June 26, 2015 business meeting.

## Current Children's Waiting Room (CWR) Policy

A. Applying for a New CWR Distribution

- A court's presiding judge or executive officer must submit a request to the director of the Judicial Council Finance Office 45 days prior to the date of the council meeting at which the court is requesting consideration.
- The request must include the following information:
o Date of the council meeting at which the court is requesting consideration.
o Requested effective date of the distribution (July 1 or January 1). If a court wants to begin receiving distributions more than one year in advance of the planned opening date of a CWR, the request should include an explanation of the extenuating circumstance(s).
o The scheduled opening date of the CWR(s).
o Description of the CWR(s).
o The date when the court intends to make expenditures related to operating its CWR(s).
o The requested distribution amount between $\$ 2$ and $\$ 5$. Courts can request the Judicial Council Finance Office to provide an estimate of annual distributions.
- The Trial Court Budget Advisory Committee (TCBAC) will make a recommendation to the council on each court's request.
- If the council approves that distributions begin prior to the operating of a CWR but the court does not operate a CWR six months after their planned opening date, the court must apply for a continued distribution.
B. Requesting a Decreased CWR Distribution Amount
- Any court's request to decrease its existing CWR distribution is approved by the Judicial Council and the request can be implemented by Judicial Council staff, effective either January 1 or July 1.
C. Applying to Continue Receiving a CWR Distribution While Not Operating a CWR
- Courts must apply to continue receiving a CWR distribution if they:
o are currently receiving a distribution but have not operated a CWR since June 27, 2014.
o received a distribution effective July 1, 2014 or after but have not operated a CWR six months after their planned opening date of the CWR.
- The request must follow the process for requesting a new distribution (see A above). In addition, a court must include in its request the amount of any unspent distributions.
- The TCBAC will make a recommendation to the council on each court's request.
- For courts that apply and whose application is denied by the council, the council reserves the option of directing courts to return any unspent CWR distributions to the Trial Court Trust Fund (TCTF).

## January 15, 2015 Proposed Children's Waiting Room (CWR) Distribution and Fund Balance Policy

A. Applying for a New CWR Distribution

- A court's presiding judge or executive officer must submit a request to the director of the Judicial Council Finance Office 45 days prior to the date of the council meeting at which the court is requesting consideration.
- The request must include the following information:
o Date of the council meeting at which the court is requesting consideration.
o Requested effective date of the distribution (July 1 or January 1). If a court wants to begin receiving distributions more than one year in advance of the planned opening date of a CWR, the request should include an explanation of the extenuating circumstance(s).
o The scheduled opening date of the CWR(s).
o Description of the CWR(s).
o The date when the court intends to make expenditures related to operating its CWR(s).
o The requested distribution amount between $\$ 2$ and $\$ 5$. Courts can request the Judicial Council Finance Office to provide an estimate of annual distributions.
- The Trial Court Budget Advisory Committee (TCBAC) will make a recommendation to the council on each court's request.
- If the council approves that distributions begin prior to the operating of a CWR but the court does not operate a CWR six months after their planned opening date, the court must apply for a continued distribution.
B. Requesting a Decreased CWR Distribution Amount
- Any court's request to decrease its existing CWR distribution is approved by the Judicial Council and the request can be implemented by Judicial Council staff, effective either January 1 or July 1.

6. Applying to Continue Receiving a CWR Distribution While Not Operating a CWR

- Courts must apply to continue receiving a CWR distribution if they:
$\theta$ are currently receiving a distribution but have not operated a CWR since June 27, 2014.

0 received a distribution effective July 1, 2014 or after but have not operated a CWR six months after their planned opening date of the CWR.

- The request must follow the process for requesting a new distribution (see A above). In addition, a court must include in its request the amount of any umspent distributions.
- The TCBAC will make a recommendation to the council on each court's request.
- For courts that apply and whose application is denied by the council, the council reserves the option of directing courts to return any unspent CWR distributions to the Trial Court Trust Fund (TCTF).
C. Temporarily or Permanently Ceasing CWR Operations
- Courts that cease operating all CWRs must notify the director of the JC Finance Office within 60 days of the cessation date. Unless a court provides notification and submits an application to continue receiving distributions while not operating a CWR within 60 days of the cessation date, the court's CWR distributions will be stopped as soon as practicable and the court will be required to return any unspent funds to the TCTF through a reduction to the court's TCTF allocation.
- An application for a continued distribution must include all the information required of courts applying for a new distribution (see section An above) as well as the amount of any unspent distributions.
- The TCBAC will make a recommendation to the Judicial Council on each court's application.
- For courts that apply and whose application is denied by the Judicial Council, any unspent CWR distributions shall be returned to the TCTF.
D. Cap on CWR Fund Balance
- In general, courts should request a distribution amount that will not result in accumulating CWR fund balances.
- Effective July 1, 2015, there shall be a cap on the amount of CWR fund balance that courts can carry forward from one fiscal year to the next. The cap shall be the amount of the highest annual distribution within the three most recent fiscal years.
- Courts that have a CWR fund balance greater than the cap (as described above) at the end of the fiscal year will have their allocation reduced by the amount above the cap in the subsequent fiscal year.
- The cap applies only to courts that have received at least 12 months of distributions in a fiscal year while operating a CWR.
- If a court wants a cap adjustment, it must submit a request explaining the extenuating circumstance and including its CWR expenditure plan to the director of the JC Finance Office for consideration by the TCBAC and the Judicial Council. The request must be received by the Finance Director within 60 days of the end of the fiscal year for which the adjustment is being requested.
- JC staff will report any allocation reductions to the TCBAC and the Judicial Council.
E. Courts that have Received a Distribution but Never Operated a CWR
- Courts that received distributions between January 1, 2006 and June 30, 2014 but did not operate a CWR during that time period must either apply for a continued distribution by April 1, 2015 or have their distributions stopped as soon as practicable and return to the TCTF any unspent CWR distributions.

# Proposed Children's Waiting Room (CWR) Distribution and Fund Balance Policy -- Changes to Proposed January 15, 2015 Language 

## A. Applying for a New CWR Distribution

- A court's presiding judge or executive officer must submit a request to the director of the Judicial Council Finance Office 45 days prior to the date of the council meeting at which the court is requesting consideration.
- The request must include the following information:
o Date of the council meeting at which the court is requesting consideration.
o Requested effective date of the distribution (July 1 or January 1). If a court wants to begin receiving distributions more than one year in advance of the planned opening date of a CWR, the request should include an explanation of the extenuating circumstance(s).
o The scheduled opening date of the CWR(s).
o Description of the CWR(s).
o The date when the court intends to make expenditures related to operating its CWR(s).
o The requested distribution amount between $\$ 2$ and $\$ 5$. Courts can request the Judicial Council Finance Office to provide an estimate of annual distributions.
- The Trial Court Budget Advisory Committee (TCBAC) will make a recommendation to the council on each court's request.
- If the council approves that distributions begin prior to the operating of a CWR but the court does not operate a CWR six months after their planned opening date, the court must apply for a continued distribution.
B. Requesting a Decreased CWR Distribution Amount
- Any court's request to decrease its existing CWR distribution is approved by the Judicial Council and the request can be implemented by Judicial Council staff, effective either January 1 or July 1.
C. Temporarily or Permanently Ceasing CWR Operations
- Courts that cease operating all CWRs must notify the director of the JC Finance Office within 60 days of the cessation date. Unless a court provides notification and submits an application to continue receiving distributions while not operating a CWR within 60 days of the cessation date, the court's CWR distributions will be stopped either January 1 or July 1, whichever is earlier, and the court will be required to return any CWR fund balance to the TCTF.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return of the CWR fund balance will occur on the February trial court distribution for those courts that the CWR distribution stopped on July 1, and on the August distribution for those courts that the CWR distributions stopped on July 1.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.
- An application for a continued distribution must include all the information required of courts applying for a new distribution (see section A above) as well as the amount of any CWR fund balance.
- The TCBAC will make a recommendation to the Judicial Council on each court's application.
- For courts that apply and whose application is denied by the Judicial Council, any CWR fund balance shall be returned to the TCTF.

## D. Cap on CWR Fund Balance

- Courts shall monitor the CWR distribution amount per filing to ensure it is adequate to meet the CWR needs of the court without accumulating an amount in excess of the cap described below.
- Effective July 1, 2015, there shall be a cap on the amount of CWR fund balance that courts can carry forward from one fiscal year to the next. The cap shall be the amount of the highest annual distribution within the three most recent fiscal years.
- Courts that have a CWR fund balance greater than the cap (as described above) at the end of the fiscal year will be required to return to the TCTF the amount above the cap in the subsequent fiscal year.
- For courts that are required to return the portion of their CWR fund balance above the cap to the TCTF, the return of the CWR fund balance will occur on the August trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.
- The cap applies only to courts that have received at least 12 months of distributions in a fiscal year while operating a CWR.
- If a court wants a cap adjustment, it must submit a request explaining the extenuating circumstance and including its CWR expenditure plan to the director of the JC Finance Office for consideration by the TCBAC and the Judicial Council. The request must be received by the Finance Director within 60 days of the end of the fiscal year for which the adjustment is being requested.
- JC staff will report any return of CWR fund balance through the trial court distribution process to the TCBAC and the Judicial Council.
E. Courts that have Received a Distribution but Never Operated a CWR
- Courts that received distributions between January 1, 2006 and June 30, 2014 but did not operate a CWR during that time period must either apply for a continued distribution by September 26, 2015 or have their distributions stopped on January 1, 2016 and return to the TCTF any CWR fund balance.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return will occur on the August trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.

# Item 3 <br> Amendments to the Statute Requiring a 2 Percent Reserve Held in the TCTF (Action Item) 

## Issue

Should Government Code section 68502.5, the statute that establishes the 2 percent reserve, be changed for 2015-2016? If so, what should the amendments be?

## Background

On June 27, 2012, the Governor signed into law Senate Bill 1021, which repealed the provisions in Government Code section 77209 related to urgent needs funding from the Trial Court Improvement Fund (TCIF) and added Government Code section 68502.5, which requires that the Judicial Council set aside as a reserve an amount equal to 2 percent of the Trial Court Trust Fund (TCTF) appropriation in Program 45.10. In response to this new statute, the Judicial Council, at its August 31, 2012 meeting, approved the current policy with regard to the process, criteria, and required information for requesting supplemental funding from the reserve. This process modified what was approved by the council at its October 28, 2011 meeting as it related to requests for supplemental funding for urgent needs from the TCIF.

At the June 3, 2014 Trial Court Budget Advisory Committee (TCBAC) meeting, Judge Earl appointed Michael Planet to head a 2 Percent Reserve Process Working Group with the goal of bringing options for possible changes back to the TCBAC. The other members of the working group are: Judge Laurie Earl, Presiding Judge Mark Cope, Presiding Judge Barry Goode, Mike Roddy, Sherri Carter, Mary Beth Todd, David Yamasaki, and Zlatko Theodorovic.

The TCBAC discussed options and recommendations at its July 7, 2014 meeting, brought forward by the 2 Percent Methodology Working Group to change the current Judicial Councilapproved process for the allocation of the 2 percent state-level reserve in the TCTF. At the council's business meeting on July 29, 2014, the committee recommended that the Judicial Council make changes to the 2 percent allocation process including the repeal of Government Code section 68502.5(c)(2)(B), which establishes the state-level reserve. The Judicial Council deferred the TCBAC recommendations presented for changes to the process for the allocation of the 2 percent state-level reserve until their October meeting, and requested the TCBAC work with other advisory bodies to provide further input to the council on the issues and recommendations presented in those items.

At the TCBAC meeting on September 26, the committee discussed options and recommendations for changes to the supplemental funding process from the 2 percent reserve, all of which originated from its working group, to be presented at the Judicial Council's October 28 business meeting. The TCBAC recommended changes to expedite the distribution of the unexpended reserve funds to trial courts earlier in the fiscal year, and to establish a process for courts to apply for funding for emergencies after these funds have
been distributed. For 2015-2016, the TCBAC recommended proposing amendments to the statute that establishes the 2 percent state-level. The Judicial Council approved the following recommendations at its October 28, 2014, business meeting ${ }^{1}$ :

1) Starting in 2014-2015, approved the distribution in January, after the Judicial Council's December business meeting, of 75 percent of the remaining Trial Court Trust Fund (TCTF) 2 percent reserve funds. From January 1 through March 15, the remaining 25 percent of the 2 percent reserve are available for court requests due to unforeseen emergencies or unanticipated expenses. These court requests are to be reviewed and recommended to the Judicial Council by a TCBAC working group. Any remaining funds are to be distributed back to the trial courts after March 15. The Judicial Council's current approved supplemental funding process is to be updated by staff to reflect these changes.
2) Directed that court requests due to unforeseen emergencies or unanticipated expenses approved after March 15 and until June 30 be distributed to the court as a cash advance loan until the following fiscal year when the court, if necessary, could apply for supplemental funding from the TCTF 2 percent reserve at the Judicial Council's October business meeting in order to repay the cash advance loan. These court requests are to be reviewed and recommended to the Judicial Council.
3) Directed the TCBAC, working with the Court Executive Advisory Committee, Trial Court Presiding Judges Advisory Committee, and the Policy Coordination and Liaison Committee, to recommend proposed amendments to Government Code section 68502.5(c)(2)(B), the statute that establishes the 2 percent reserve, to be included as trailer bill language to the 2015 Budget Act. These recommended amendments are to be presented at the Judicial Council’s business meeting in either January or February 2015.

The 2 Percent Methodology Working Group met on November 20 and December 17, 2014, to consider options for amendments to the statute that establishes the 2 percent reserve statute. Each option reviewed, along with a description of the option, is provided below.

## Options for Amendments to the Statute that Establishes the $\mathbf{2}$ Percent Reserve

Option 1: Review the approved changes to the process for the allocation of the 2 percent state-level reserve by the Judicial Council at its October 28, 2014 meeting, in one year, prior to proposing any amendments to Government Code section 68502.5(c)(2)(B), which establishes the reserve.

[^2]Option 2: The Judicial Council would set-aside one-half of one percent instead of the current two-percent, of the total funds appropriated in TCTF Program 45.10 of the annual Budget Act. This one-half of one percent is based on a historical percentage that was set aside for urgent needs in the Trial Court Improvement Fund. (Government Code section 77209 was repealed and replaced with the current statute.)

> Option 2 Amendments to Government Code section 68502.5(c)(2)(B):
> "Upon preliminary determination of the allocations to trial courts pursuant to subparagraph (A), the Judicial Council shall set aside $Z .5$ percent of the total funds appropriated in Program 45.10 of Item 0250-101-0932 of the annual Budget Act and these funds shall remain in the Trial Court Trust Fund...."

Option 3: The Judicial Council would determine the amount of the emergency reserve to be set aside annually and the process for managing the funds. The council might consider a percentage or flat amount based on prior years experience, or historical trends based on requests made for prior emergency set asides process. It also gives the council the discretion to determine the process and timing for courts to apply for emergency funding, and for distributing any unexpended funds.

> Option 3 Amendments to Government Code section $68502.5(c)(2)(B)$ :
> "Upon preliminary determination of the allocations to trial courts pursuant to subparagraph (A), the Judicial Council shall establish a percentage or amount to be set aside 2 percent of the total funds appropriated in Program 45.10 of Item 0250-101-0932 of the annual Budget Act and these funds shall remain in the Trial Court Trust Fund....Unavoidable fumding shortfall requests for up to 1.5 percent of these funds shall be submitted by the trial courts to the Judicial Council no later than October 1 of each year. The Judicial Council shall, by October 31 of each year, review and evaluate all requests submitted, select trial courts to receive funds, and notify those selected trial eoumts. By Mareh 15 of each year, the Judicial Council shall distribute the remaining fumds if there has been a request from a trial court for unforeseen emergencies or unanticipated expenses that has been reviewed, evaluated, and approved. Any unexpended funds shall be distributed to the trial courts on a prorated basis."

Option 4: The Judicial Council would establish a percentage and/or amount to be set aside for an emergency reserve from the total funds appropriated in TCTF Program 45.10 of the annual Budget Act. This emergency reserve fund would be allocated directly from the TCTF. For this reason, there would be no need to return the monies to the trial courts. If emergency monies were unspent during the fiscal year, the amount in the fund would roll over. The result would be to reduce any additional amount set aside for emergency funding in the subsequent fiscal year and therefore increase the funding available for allocations to the trial courts. This would replace the current model of allocating the funds, then reducing the allocation and then returning the allocation to the courts.

Option 4 Amendments to Government Code section 68502.5(c)(2)(B):
"Prior to Upon the preliminary determination of the allocations to trial courts pursuant to subparagraph (A), the Judicial Council shall establish a percentage or amount to be set aside 2 pereen of the total funds appropriated in Program 45.10 of Item 0250-101-0932 of the annual Budget Act and these funds shall remain in the Trial Court Trust Fund. ...Unavoidable funding shertfall requests for up to 1.5 percent of these funds shall be submitted by the trial courts to the Judicial Council no later than October 1 of each year. The Judicial Council shall, by October 31 of each year, review and evaluate all requests submitted, select trial courts to receive funds, and notify those selected trial courts. By March 15 of each year, the Judicial Council shall distribute the remaining funds if there has been a request from a trial court for unforeseen emergencies or unanticipated expenses that has been reviewed, evaluated, and approved. Any unexpended funds shall be distributed to the trial courts on a prorated basis."

Option 5: The Judicial Council would set-aside no more than one-half of one percent instead of the current two percent, of the total funds appropriated in TCTF Program 45.10 of Item 0250-101-0932 of the 2014 Budget Act. This option also would give the council discretion to determine the process and timing for courts to apply for emergency funding. The emergency reserve set-aside would be capped at no more than $\$ 9.5$ million and would remain in the TCTF. Any unspent funds by the end of each fiscal year would be rolled over to the next fiscal year.

Option 5 Amendments to Government Code section 68502.5(c)(2)(B):
"Prior to Upon preliminary determination of the allocations to trial courts pursuant to subparagraph (A), the Judicial Council shall set aside no more than $Z .5$ percent of the total funds appropriated in Program 45.10 of Item 0250-101-0932 of the anmual-2014 Budget Act and these funds shall remain in the Trial Court Trust Fund....Unavoidable funding shortfall requests for up to 1.5 percent of these funds shall be submitted by the trial courts to the Judicial Council no later than October 1 of each year. The Judiciat Gouncil shall, by October 31 of each year, review and evaluate all requests submitted, select trial courts to receive funds, and notify those selected trial courts. By March 15 of each year, the Judicial Council shall distribute the remaining funds if there has been a request from a trial court for unforeseen emergencies or unanticipated expenses that has been reviewed, evaluated, and approved. Any unexpended funds shall be distributed to the trial courts on a prorated basis."

## Recommendation

The working group recommends Option 5. The working group chose this option because it applies the historical percentage that was set aside for urgent needs in the Trial Court Improvement Fund, caps the amount at the 2014-2015 TCTF appropriation level in order to eliminate annual allocation adjustments, and gives the Judicial Council discretion to determine the process and timing for courts to apply for emergency funding.

## Government Code section 68502.5(c)(2)(B)

(B) Upon preliminary determination of the allocations to trial courts pursuant to subparagraph (A), the Judicial Council shall set aside 2 percent of the total funds appropriated in Program 45.10 of Item 0250-101-0932 of the annual Budget Act and these funds shall remain in the Trial Court Trust Fund. These funds shall be administered by the Judicial Council and be allocated to trial courts for unforeseen emergencies, unanticipated expenses for existing programs, or unavoidable funding shortfalls. Unavoidable funding shortfall requests for up to 1.5 percent of these funds shall be submitted by the trial courts to the Judicial Council no later than October 1 of each year. The Judicial Council shall, by October 31 of each year, review and evaluate all requests submitted, select trial courts to receive funds, and notify those selected trial courts. By March 15 of each year, the Judicial Council shall distribute the remaining funds if there has been a request from a trial court for unforeseen emergencies or unanticipated expenses that has been reviewed, evaluated, and approved. Any unexpended funds shall be distributed to the trial courts on a prorated basis.

## Item 7

## 2015-2016 Allocations for the V3 Case Management System and Intermediate Case Management Systems Programs from the State Trial Court Improvement and Modernization Fund <br> (Action Item)

## Issue

Consider the Revenue and Expenditure Subcommittee’s revised recommendation regarding the 2015-2016 allocations from the State Trial Court Improvement and Modernization Fund for the V3 case management system and Intermediate Case Management Systems programs.

## Background

At its March 10-11, 2015 meeting, the Revenue and Expenditure Subcommittee adopted a recommendation to allocate \$4,526,000 from the IMF in 2015-2016 for the V3 case management system (V3) and \$997,800 for the Intermediate Case Management Systems (ICMS) programs. The recommended allocations were 20 percent lower than the allocations approved by the Judicial Council for 2014-2015. The recommendations were provided to the TCBAC for consideration at its March 23, 2015 meeting, but action was not taken by the TCBAC as the chair deferred taking action on the recommendation to a future meeting. On April 2, 2015, the subcommittee met to reconsider its recommendation and adopted a revised recommendation, as discussed below.

On April 17, 2015, the Judicial Council adopted the following recommendation of the Judicial Council Technology Committee regarding 2015-2016 funding for the V3 program:

V3 will be funded the first fiscal year (July 1, 2015 to June 30, 2016). A working group comprised of members of the Judicial Council Technology Committee (JCTC) and Trial Court Budget Advisory Committee (TCBAC) will work together on the source of funding for the remaining three years.

See Attachment 5B for the JCTC’s report, which contained its V3 recommendation, to the Judicial Council.

## Recommendation

By a 10-to-1 vote, the subcommittee recommends that the 2015-2016 IMF allocations for the V3 and ICMS programs be held at their 2014-2015 levels: $\$ 5,658,100$ for V3 and $\$ 1,246,800$ for ICMS. However, if the 2015-2016 IMF ending fund balance is projected to be below $\$ 300,000$, the allocations for both programs are to be reduced by 10 percent, a total of $\$ 690,500$, and the costs associated with the reduction are to be backfilled from the Judicial Council Information Technology office's budget.

Assuming, as recommended by the subcommittees, that the 2015-2016 IMF allocation level is $\$ 66.277$ million, an increase of $\$ 6.905$ million from the level of $\$ 59.372$ million approved by the council on April 17, 2015, JC staff is currently projecting that the IMF's fund balance will be about $\$ 476,000$ by the end of fiscal year 2015-2016. Attachment 5C provides the current fund condition statement for the IMF.

# JUDICIAL COUNCIL OF CALIFORNIA 

455 Golden Gate Avenue • San Francisco, California 94102-3688

## REPORT TO THE JUDICIAL COUNCIL

For business meeting on: April 16, 2015

## Title

Technology: V3 Interim Case Management System Funding

Rules, Forms, Standards, or Statutes Affected None

## Recommended by

renea.stewart@jud.ca.gov

## Executive Summary

In April 2014, the Judicial Council directed the Judicial Council Technology Committee (JCTC) to make a recommendation on a plan to eliminate funding from the Improvement and Modernization Fund (IMF) and Trial Court Trust Fund (TCTF) for the V3 Case Management System (V3). In February 2015, the council adopted the joint recommendation from the JCTC and the Trial Court Budget Advisory Committee (TCBAC) that the JCTC continue to work with the affected courts to align V3 and Sustain Justice Edition case management systems with JCTC strategy. The V3 courts consider taking on maintenance and operations costs for V3, as well as funding a replacement case management system for V3, to be a major challenge due to the judicial branch budget, the need to replace case management systems for other case types, the lack of control the V3 courts have over the cost of V3 operations and maintenance, and the
negative impact of the Workload-Based Allocation and Funding Methodology (WAFM) on their budgets. The V3 courts also committed significant resources to the development and deployment of V3 as well as subject matter expertise to the development of the terminated CCMS case management system. The JCTC has collaborated with the V3 courts on a path forward that will allow the courts time to transition to another case management system or assume the costs for V3, previously allocated from the IMF or TCTF.

## Recommendation

The Judicial Council Technology Committee recommends that the Judicial Council approve the following changes to the V3 interim case management system programs:

1. After a period of four years starting on July 1, 2015 and ending June 30, 2019, branch funding for the V3 case management system will stop; and
2. V3 will be funded the first fiscal year (July 1, 2015 to June 30, 2016). A working group comprised of members of the Judicial Council Technology Committee (JCTC) and Trial Court Budget Advisory Committee (TCBAC) will work together on the source of funding for the remaining three years.

## Previous Council Action

In March 2012, the Judicial Council voted to terminate deployment of the California Court Case Management System (CCMS) as a statewide court technology solution. The council directed the CCMS Internal Committee to work in partnership with the trial courts to develop timelines and recommendations to the council for strategies to assist trial courts with existing critical case management system needs, to establish a judicial branch court technology governance structure that would best serve the implementation of technology solutions, and to provide technology solutions in the near term to improve efficiencies in court operations by maximizing the value of document management systems, e-filing capabilities, and e-delivery services for the benefit of litigants, attorneys, justice partners, and the public.

In June 2012, the Judicial Council updated the name and structure of the CCMS Internal Committee to the JCTC to be in alignment with the Judicial Council direction. The new committee charge was to oversee the council's policies concerning technology, with responsibility in partnership with the courts for coordinating with the Administrative Director and all internal committees, advisory committees, commissions, working groups, task forces, justice partners, and stakeholders-on technological issues relating to the branch and the courts.

In October 2012, the JCTC hosted a Judicial Branch Technology Summit where branch stakeholders assembled for a collaborative discussion on branch technology governance, vision, and planning. The discussions and feedback from the summit reinforced the need for a new governance and funding model and a long-term strategic plan for branch technology.

In February 2013, the Chief Justice authorized the creation of the Technology Planning Task Force (TPTF). The task force was charged with working collaboratively to define judicial branch technology governance in terms of statewide versus local decision-making, to develop a strategic plan for technology across all court levels that provides a vision and direction for technology within the branch, and to develop recommendations for a stable, long-term funding source for supporting branch technology, as well as a delineation of technology funding sources.

In January 2014, the Judicial Council approved the concept of the court technology governance and strategic plan, prepared by the Technology Planning Task Force, based on the information provided in the executive summary for the governance and funding model and plans.

At its April 24, 2014 business meeting, the council tasked the JCTC with developing a plan to eventually eliminate funding from the TCTF and State Trial Court IMF to courts for V3 (civil, small claims, probate, and mental health) case management system and Sustain Justice Edition costs.

In August 2014, the Judicial Council approved the Court Technology Governance and Strategic Plan. The chair of the JCTC stated that the plan would return to the council with updates related to language access.

In October 2014, the Judicial Council approved the update to the Court Technology Governance and Strategic Plan.

In February 2015, the Judicial Council approved recommendations that included input from court executive officers and court information officers on changes to a number of statewide technology programs to achieve approximately $\$ 1$ million in savings in the State Trial Court IMF; forming a working group or tasking an existing council committee to focus on technologyrelated efficiencies and cost-saving measures for small courts; and directing its Information Technology office to consider replacing its external contractors with employees, as well as adopting the joint recommendation from the JCTC and the TCBAC that the JCTC continue to work with the affected courts to align V3 and Sustain Justice Edition case management systems with JCTC strategy.

## Rationale for Recommendation

This recommendation recognizes the investments the V3 courts made in a statewide CMS, as well as their lack of funds to deploy a new civil CMS. It takes into consideration that three of the courts (Orange, Sacramento, and San Diego) are donor courts under the WAFM and recognizes that overall, it is counterproductive to expect the courts to pick up operational and maintenance costs for V3, at the same time as they expend funds to transition to a new CMS. The same three courts also have major projects underway to replace other failing case management systems, projects that have consumed their resources and funds. This recommendation assists the V3 courts in bridging the gap to transition from V3 and the statewide CMS strategy to the new judicial branch technology strategy.

## Comments, Alternatives Considered, and Policy Implications

## Comments

The JCTC has thoroughly examined, with the participation and collaboration of the V3 courts, the Judicial Council directive to develop a plan to eventually eliminate the funding from TCTF and IMF to the V3 courts. Following the council's decision to stop CCMS as a statewide CMS in 2012, the Judicial Branch Information Technology Working Group reporting to the JCTC formed the V2 and V3 Workstream so the courts could make recommendations on their CMS. The courts were unable to reach a consensus on a path forward.

In July 2014, the JCTC sent a letter to the V3 courts requesting that they advise of their plans for V3. Representatives from the JCTC met with the V3 courts in August 2014 to get their input and ideas. The JCTC has reviewed possible costing models for the V3 courts. JCTC representatives met with each of the V3 courts in March 2015 to invite further feedback and to best understand their plans. In March, the JCTC also met with the V3 courts in a closed meeting, to allow for sharing of confidential information, and an open meeting to allow public discussion and to vote on a recommendation.

On March 11, 2015, the TCBAC’s Revenue and Expenditure Subcommittee voted to recommend to the TCBAC that the IMF support for V3 and Sustain Justice Edition (also known as the Intermediate Case Management System or ICMS) be reduced by 20\% starting in FY 2015-2016 and the costs be passed on to the trial courts. The subcommittee reconvened on April 2, 2015 to reconsider this recommendation. The subcommittee revised the recommendation to freeze the 2015-2016 IMF allocations for V3 and ICMS to the FY 2014-2015 funding levels. In addition, they voted to reduce the IMF allocations for V3 and ICMS by 10\% starting in FY 2015-2016 if the IMF FY 2015-2016 ending fund balance is projected to be below $\$ 300,000$. The costs would not be passed on to the V3 courts as previously recommended. Judicial Council staff were asked to identify ways the costs could be absorbed within the Judicial Council Information Technology budget or eliminated through reduction in services.

Judicial Council Information Technology staff are working on the potential impact of these recommendations. As of the time of this report, the analysis has not been completed.
Suggested next steps for assisting the V3 courts include exploring potential sources of funding to deploy replacement CMSs and developing a business case for funding replacement CMSs.

## Impacts and equity issues

WAFM "donor" courts. The funding issues are exacerbated in the case of WAFM "donor" courts (the Superior Courts of Orange, Sacramento, and San Diego Counties in FY 2014-2015), by their reduction in allocations. Reductions are at 15\% in FY 2014-2015 and go to $30 \%$ in FY 2015-2016.

Limited staff resources. From the meetings with the V3 courts, the JCTC learned that each of the courts has had significant reductions in staff. Existing staff is committed to supporting judicial officers and also assisting with the current projects to replace failing case management systems. There are no available staff resources to also support the transition to a new civil CMS.

1\% cap on reserves. With the $1 \%$ cap on reserves, the trial courts no longer have the ability to save for a new case management system.

Pending Gap analysis. Tyler has agreed to perform a Gap analysis for the Superior Court of Orange County comparing Tyler Odyssey to V3. This will identify areas that Tyler needs to modify in its case management system, so that the efficiencies and cost savings the court depends on in V3 will not be lost. Examples of these efficiencies are streamlined e-filing processing and the Electronic Legal File (which enables a paperless courtroom). These improvements in Tyler’s Odyssey will be available to and will benefit all courts moving to Odyssey and could be used even by courts working with other vendors to potentially identify areas for improvement and efficiency.

Feedback from courts. The courts have offered feedback regarding the directive of the Judicial Council in their April 2014 meeting:

Beginning in 2005, seven courts volunteered to assist the branch in developing a new case management system. The new system was intended to serve the entire branch, not just the seven courts, and the costs of developing and maintaining the CMS was assumed to be funded from trial court funding sources before allocation to the trial courts. During the development and testing of the branch-wide CMS these seven courts provided substantial additional resources, both operations and IT resources, to help develop and test the V2, V3, and V4 prototypes. Moreover, the people assisting were highly skilled "subject matter experts" whose efforts were dedicated to developing the best system for all courts, and not available to the volunteer courts to do their daily work. These resources were from each court's base allocations, not from the trial court funding sources.

The courts also point out that in the audit of the CCMS development, the California State Auditor found that:
the seven superior courts that have implemented the criminal [V2] and civil [V3] systems reported to us [CSA] that they spent nearly $\$ 44$ million in staffing, equipment, and consulting costs to test, deploy and support the interim systems beyond the roughly $\$ 49$ million that they [the V3 courts] paid directly to the development vendor [to assist in the deployment of prototypes]. Even this $\$ 44$ million is likely understated because one superior court-the Superior Court of San Diego County (San Diego)—also reported that in fiscal years 2005-06 and 2006-07 between 120 and 130 of its staff worked part-time to full-time on
implementation of the civil system but it was unable to quantify the cost related to their efforts.
California State Auditor, Report No. 2010-102, Administrative Office of the Courts: The Statewide Case Management Project Faces Significant Challenges Due to Poor Project Management (Feb. 2011), pp. 45-46.

According to the V3 courts, although the Judicial Council provided administrative grants to assist the V3 courts with their costs to support CCMS development, it was quite nominal compared to the costs spent by the courts to support CCMS development as noted above. The V3 courts made significant investments in a CMS that was intended to benefit all courts.

## Alternatives Considered

Two funding strategy alternatives were evaluated. These were:

1. Sunset of V3 in three to five years, which was refined to four years
2. Incremental transitioning of costs using a cost-sharing formula

Additionally, regardless of the alternative chosen, the V3 courts may seek funding for replacement CMSs with the idea that Judicial Council staff would assist if desired by the V3 courts.

Alternative 1: Sunset of V3 in four years. This alternative included:

- No change to the current source of V3 funding. Funding would continue to come from the TCTF or IMF for a set period, proposed between three and five years and refined to four years.
- At the end of that period, V3 courts will either have deployed a replacement civil CMS, taken on support for V3, or will assume the full costs for V3.

The rationale for this alternative was that it recognizes that the combination of the WAFM changes and an immediate start to a glide path or transition will increase the difficulty for the V3 courts to fund a replacement CMS. This gives the V3 courts time to deploy a replacement civil CMS or take on support for V3.

## Alternative 2: Incremental transitioning of costs using a cost-sharing formula. This

 alternative included:- The V3 courts will incrementally take on more of the V3 costs, with the funds from IMF or TCTF decreasing as court contributions increase, until $100 \%$ of the costs are allocated to the V3 courts.
- The progression, percentages, and length of time, need to be determined. A five-year glide path is consistent with the WAFM and with current models for economic planning.

Four cost-sharing models for this alternative were evaluated. These include:

- Allocation proportional to court budget does not take usage into account, but does take court fiscal realities into account. As the WAFM is implemented, the courts' budgets should become more representative of usage.
- Allocation by filings is an accepted cost model for service providers, but costs fall disproportionately on the smaller courts.
- Allocation by users is an accepted cost model for software vendors, but less so for service providers, and costs fall disproportionately on the smaller courts.
- Equal allocation distributes costs disproportionately to the smaller courts.

The rationale for this alternative was that it spreads out the impact on the V3 courts of absorbing the costs for V3; however, this alternative has an additional impact for three V3 courts (the Superior Courts of Orange, Sacramento, and San Diego Counties), which is the challenge of starting a project to deploy a replacement civil CMS while they have resources committed to completing projects already underway to replace other failing CMSs. This results in courts transitioning from V3 and no longer participating in cost sharing for V3 at significantly different times. Related to this alternative is the issue of how to minimize the fiscal impact to the remaining courts as one or more courts convert to another civil CMS and how those costs will be absorbed by the IMF or TCTF.

Option for either alternative: Seek funding for replacement case management systems This option could be used for either alternative. The V3 courts may develop a business case for V3 CMS replacement using the Superior Court of Fresno County's V2 CMS replacement as a model, or develop another model. The courts may request funds from the Judicial Council (emergency funds or a loan) or from the state via a budget change proposal (BCP) in implementing replacement civil CMSs. When the V3 courts are fully transitioned, in four years or less, funding will no longer be needed from the TCTF or IMF.

## Implementation Requirements, Costs, and Operational Impacts

The implementation requirements, costs, and operational impacts are detailed in the recommendation section above.

## Relevant Strategic Plan Goals and Operational Plan Objectives

This recommendation will address the strategic plan goals of Access, Fairness, and Diversity (Goal I), Modernization of Management and Administration (Goal III), and Quality of Justice and Service to the Public (Goal IV). The Judicial Council approved the Court Technology Governance and Strategic Plan, which includes the strategic and tactical plans for technology.

*Council did not take any action on 2015-16 allocations for V3 CMS and Interim Case Management Systems programs, so assumes a zero allocation for both programs.
**The Revenue and Expenditure Subcommittee adopted a recommendation on 2015-16 allocation levels for the V3 and ICMS programs on April 2, 2015.

## Item 8

# Allocation of Reductions Due to Revenue Shortfalls in the Trial Court Trust Fund (Action Item) 

## Issue

How should the revenue shortfall of $\$ 22.7$ million to the Trial Court Trust Fund that supports trial courts' base allocation for operations, which the Governor's January budget proposal for 2015-2016 did not propose a backfill from the state General Fund, be allocated to trial courts in 2015-2016 and beyond?

## Background

Despite a projected $\$ 53.6$ million revenue shortfall in the TCTF, the Budget Act of 2014 provided a General Fund offset of only up to $\$ 30.9$ million for any shortfall beyond $\$ 22.7$ million during fiscal year 2014-2015. The Judicial Council allocated a $\$ 22.7$ million reduction on a one-time basis using the same methodology used to allocate courts’ 2014-2015 share of the 2 percent reserve (see Attachment 8B). The Governor's January budget proposal for 2015-2016 included a General Fund backfill of $\$ 50.7$ million to offset a projected further $\$ 19.8$ million decline of fine and fee revenue that supports courts' base allocations in 2015-2016. Judicial Council Finance staff is currently projecting fine and fee revenue that supports courts' base allocations to decline a further $\$ 15.5$ million in 2015-2016 and has communicated this to the Department of Finance.

During its April 9, 2015 meeting, the Funding Methodology Subcommittee considered the two options discussed below for allocating a reduction due to revenue shortfalls that are not backfilled from the General Fund, but did not take any action.

## Options

There are at least two options for allocating the reduction among courts. One option would be to allocate the 2014-2015 reduction on an ongoing basis. Another option would be to net the $\$ 22.7$ million reduction against any new funding for general court operations and then allocate the net funding using Workload-based Allocation and Funding Methodology (WAFM). Attachment 8C displays the estimated allocation of $\$ 67.36$ million, which assumes that the Budget Act of 2015 will provide $\$ 90.6$ million in new funding for general court operations and uses the 2014-2015 WAFM to compute the estimated allocation of $\$ 67.36$ million. Attachment 8C also displays the net allocation when using the 2014-2015 WAFM to compute the allocation of $\$ 90.6$ million and allocating the $\$ 22.7$ million reduction using the amounts approved by the council for 2014-2015, which was computed using the 2 percent reserve method.

## Funding Options for the Judicial Branch Workers' Compensation Program

Below is a summary of funding options for the Judicial Branch Workers' Compensation Program (JBWCP). The JBWCP is a self-funded program in which each entity pays a share of cost based on its workers' compensation claims experience and historical payroll. The total cost for this program is allocated to two groups: (1) Judiciary, which includes coverage for the Trial Court Judges, and Retired Judges in the Assigned Judges Program, the members of the Supreme Court (including Justices), Courts of Appeal (including Justices), Habeas Corpus Resource Center, California Judicial Center Library, Commission on Judicial Performance, and other Judicial Council employees (formerly AOC);
(2) Trial Courts: Employees and volunteers of 57 out of the 58 California Trial Courts.

This memo describes the following:

- The two methods used by self-funded programs for determining program funding and allocating annual costs
- The current method used by the JBWCP
- The recommended alternative method for implementation by the JBWCP in FY 2015-16
- Program funding estimates for FY 2015-16 (both methods)
- Program financial status

## Alternative Funding Methods

There are two basic methods for funding self-insurance programs such as the JBWCP:

1. Ultimate Cost Funding - Charges premiums to cover the ultimate cost of claims occurring in a given fiscal year.
2. Cash Flow Funding - Charges premiums to cover the cost of claims paid in a given fiscal year.

The JBWCP has historically funded each program year using the cash flow funding method.

## Current JBWCP Funding Methodology - Cash Flow Funding

Annual program costs are broken down into two main components: 1) loss premium, and 2) expense premium. An actuarial study is performed each year for the JBWCP to determine the total loss premium for the upcoming fiscal year. Loss premium covers medical benefits, indemnity benefits, and other allocated program costs such as legal
fees. Expense premium includes excess insurance costs, claims handling fees provided by the third party claims administrator (TPA), and brokerage/consulting fees.

For the JBWCP, the loss premium charged to members has been based upon the expected loss and allocated expenses to be paid during the upcoming fiscal year (the cash flow method). Similarly, expense premium is based upon budgeted costs to be paid during the upcoming fiscal year.

## Recommended Funding Methodology for 2015-16

Because actuarial estimates of claims payments and ultimate costs are subject to uncertainty, we typically recommend self-funded programs charge premiums on an "ultimate cost basis," as opposed to the "cash flow basis." This provides self-funded programs with more accurate funding of the annual costs incurred during a given year and is less likely to result in program liabilities exceeding assets.

During the past five years it appears that the cash flow method has not significantly reduced the asset base of the JBWCP. However, our current actuarial projections indicate that the cash flow method will generate roughly $\$ 2$ million less than the ultimate costs incurred annually, which, if continued would eventually erode the JBWCP assets. The table below shows the breakdown.

In general, we recommend that the JBWCP fund each year's ultimate claims costs in that year. When surpluses or deficiencies develop on outstanding liabilities and funding adjustments are necessary, they should be identified so that the policy of funding each year's claims costs that year is maintained.

## Funding Estimates for the Trial Court Program

The table below compares the two different methods of funding the JBWCP for the Trial Courts for the 2015-16 fiscal year.

| Program Costs | Cash Flow Basis | Ultimate Basis | Difference |
| :--- | ---: | ---: | ---: |
| Loss and ALAE | $\$ 14,368,384$ | $\$ 16,433,000$ | $\$ 2,064,616$ |
| Claims Administration | $2,016,805$ | $2,016,805$ | - |
| Excess Insurance | 480,114 | 480,114 | - |
| Consulting and Brokerage | 417,336 | 417,336 | - |
| Total | $\mathbf{\$ 1 7 , 2 8 2 , 6 3 9}$ | $\mathbf{\$ 1 9 , 3 4 7 , 2 5 5}$ | $\mathbf{\$ 2 , 0 6 4 , 6 1 6}$ |

As shown in the table, expected ultimate costs for the 2015-16 fiscal year are $\$ 16,433,000$, while expected cash payments for $2015-16$ are only $\$ 14,368,384$. If the goal is to work towards fully funding the program, this would indicate that annual program funding should increase by at least $\$ 2,064,616$.

Furthermore, the table below shows that the gap between ultimate costs and cash flows will continue into the foreseeable future for the Trial Courts, so this is not a single year event, but rather an expected trend for the program.

| Method | $\mathbf{2 0 1 5 - 1 6}$ | $\mathbf{2 0 1 6 - 1 7}$ | $\mathbf{2 0 1 7 - 1 8}$ |
| :--- | ---: | ---: | ---: |
| Cash Flow | $\$ 14,368,000$ | $\$ 15,186,000$ | $\$ 15,835,000$ |
| Ultimate Cost | $16,433,000$ | $17,193,000$ | $17,892,000$ |
| Difference | $\mathbf{\$ 2 , 0 6 5 , 0 0 0}$ | $\mathbf{\$ 2 , 0 0 7 , 0 0 0}$ | $\mathbf{\$ 2 , 0 5 7 , 0 0 0}$ |

## Program Financial Status

As mentioned previously, during the past five years, it appears that the cash flow method has not significantly reduced the asset base of the JBWCP. However, given that our current actuarial projections indicate that the cash flow method will generate roughly $\$ 2$ million less in premium than the ultimate costs incurred annually, continuing with this funding method will eventually erode the JBWCP assets.

The graph below shows a five year history of assets and liabilities for the program, as well as a projection for June 30, 2015.

Note: Figures include Trial Courts and State Judiciary.
As shown in the graph, as of June 30, 2015 assets for the program are projected to be approximately $\$ 51.7$ million. The amount of these assets is approximately $\$ 30.5$ million less than the expected liability for the program of $\$ 82.2$ million, resulting in the program being not fully funded relative to the expected liability. It should be noted, however, that assets are sufficient to cover expected cash flow for the year with a substantial margin.

# Proposed Children's Waiting Room (CWR) Distribution and Fund Balance Policy -- Changes to Proposed January 15, 2015 Language 

## A. Applying for a New CWR Distribution

- A court's presiding judge or executive officer must submit a request to the director of the Judicial Council Finance Office 45 days prior to the date of the council meeting at which the court is requesting consideration.
- The request must include the following information:
o Date of the council meeting at which the court is requesting consideration.
o Requested effective date of the distribution (July 1 or January 1). If a court wants to begin receiving distributions more than one year in advance of the planned opening date of a CWR, the request should include an explanation of the extenuating circumstance(s).
o The scheduled opening date of the CWR(s).
o Description of the CWR(s).
o The date when the court intends to make expenditures related to operating its CWR(s).
o The requested distribution amount between $\$ 2$ and $\$ 5$. Courts can request the Judicial Council Finance Office to provide an estimate of annual distributions.
- The Trial Court Budget Advisory Committee (TCBAC) will make a recommendation to the council on each court's request.
- If the council approves that distributions begin prior to the operating of a CWR but the court does not operate a CWR six months after their planned opening date, the court must apply for a continued distribution.
B. Requesting a Decreased CWR Distribution Amount
- Any court's request to decrease its existing CWR distribution is approved by the Judicial Council and the request can be implemented by Judicial Council staff, effective either January 1 or July 1.
C. Temporarily or Permanently Ceasing CWR Operations
- Courts that cease operating all CWRs must notify the director of the JC Finance Office within 60 days of the cessation date. Unless a court provides notification and submits an application to continue receiving distributions while not operating a CWR within 60 days of the cessation date, the court's CWR distributions will be stopped either January 1 or July 1, whichever is earlier, and the court will be required to return any CWR fund balance to the TCTF.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return of the CWR fund balance will occur on the February trial court distribution for those courts that the CWR distribution stopped on July January 1, and on the August distribution for those courts that the CWR distributions stopped on July 1.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and
the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.
- An application for a continued distribution must include all the information required of courts applying for a new distribution (see section A above) as well as the amount of any CWR fund balance.
- The TCBAC will make a recommendation to the Judicial Council on each court's application.
- For courts that apply and whose application is denied by the Judicial Council, any CWR fund balance shall be returned to the TCTF.
D. Cap on CWR Fund Balance
- Courts shall monitor the CWR distribution amount per filing to ensure it is adequate to meet the CWR needs of the court without accumulating an amount in excess of the cap described below.
- Effective July 1, 2015, there shall be a cap on the amount of CWR fund balance that courts can carry forward from one fiscal year to the next. The cap shall be the amount of the highest annual distribution within the three most recent fiscal years.
- Courts that have a CWR fund balance greater than the cap (as described above) at the end of the fiscal year will be required to return to the TCTF the amount above the cap in the subsequent fiscal year.
- For courts that are required to return the portion of their CWR fund balance above the cap to the TCTF, the return of the CWR fund balance will occur on the August trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.
- The cap applies only to courts that have received at least 12 months of distributions in a fiscal year while operating a CWR.
- If a court wants a cap adjustment, it must submit a request explaining the extenuating circumstance and including its CWR expenditure plan to the director of the JC Finance Office for consideration by the TCBAC and the Judicial Council. The request must be received by the Finance Director within 60 days of the end of the fiscal year for which the adjustment is being requested.
- JC staff will report any return of CWR fund balance through the trial court distribution process to the TCBAC and the Judicial Council.

## E. Courts that have Received a Distribution but Never Operated a CWR

- Courts that received distributions between January 1, 2006 and June 30, 2014 but did not operate a CWR during that time period must either apply for a continued distribution by September 26, 2015 or have their distributions stopped on January 1, 2016 and return to the TCTF any CWR fund balance.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return will occur on the August-October trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and

92 93
the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.

## Item 6

## Budget Change Proposals for FY 2016-2017 <br> (Action Item)

## Issue

What should the FY 2016-2017 statewide budget change proposal (BCP) priorities be for the trial courts?

In order to generate a discussion of potential FY 2016-17 statewide BCPs, the Trial Court Budget Advisory Committee (TCBAC) surveyed its members to solicit input regarding priorities. The members were asked to rank seven identified BCP concepts and were provided with the option to add three additional concepts not already included. The seven concepts provided were Modernization of Case Management Systems, E-Filing Implementations, Document Management Systems, Increased Costs for New Facilities, New Judgeships (AB 159), Implementation of Language Access Plan, and Dependency Counsel. A total of 25 responses for alternatives were submitted. A summary of the survey results and comments provided are reflected in Attachment 6B.

The BCP concepts before the TCBAC for discussion and prioritization for submission to the Judicial Council are as follows:

1. Technology.
2. Dependency Counsel.
3. New Judgeships (AB 159).
4. Increased Costs for New Facilities.
5. Implementation of Language Access Plan.

## Court Technology and Governance Strategic Plan

The Court Technology and Governance Strategic Plan was approved by the Judicial Council on October 27, 2014. The Tactical Plan for Technology includes the following initiatives listed in priority order within the strategic goals.

| Strategic Goal | Initiative |
| :--- | :--- |
| Promote Digital Court | Case management system (CMS) assessment and prioritization |
|  | Document management system (DMS) expansion |
|  | Courthouse video connectivity |
|  | California Courts Protective Order Registry (CCPOR) |
|  | Implement a portal for self-represented litigants |
|  | Jury management technology enhancements (trial courts) |
|  | E-filing service provider (EFSP) selection/certification |
|  | E-filing deployment |
|  | Identify and encourage projects that provide innovative services |
|  | Establish an "open source" application-sharing community |
|  | Develop standard CMS interfaces and data exchanges |
| Optimize Branch Resources | Establish hardware and software master branch <br> purchasing/licensing agreements |

| Optimize Infrastructure | Extend LAN/WAN initiative to remaining courts |
| :---: | :--- |
|  | Transition to next-generation branch-wide hosting model |
|  | Security policy framework for court information systems |
|  | Court disaster recovery framework and pilot |
| Promote Rule and <br> Legislative Changes | Identify new policy, rule, and legislation changes |

## New Judgeships (AB 159)

The Judicial Workload Assessment: 2014 Update of Judicial Needs Assessment and Proposed Revision to Methodology Used to Prioritize New Judgeships report to the Judicial Council dated November 7, 2014 is provided as Attachment 6D.

## Implementation of Language Access Plan

This BCP concept was proposed by the Language Access Plan Implementation Task Force chaired by Justice.Mariano-Florentino Cuéllar. The task force approved the concept at an open meeting on April 29, 2015. The details of the concepts are provided in Attachment 6C.

## Background

In order to generate a discussion of potential FY 2015-2016 statewide BCP priorities, the cochairs of the TCBAC sent a survey to all 58 courts containing a list of the trial court priorities from the Chief Justice's Three-Year Blueprint for a Fully Functioning Judicial Branch. Courts were asked to rank those priorities in order of importance and to provide any additional statewide priorities that they believe should be requested for FY 2015-2016. The TCBAC met on June 3, 2014 and reviewed the survey results. Ultimately, the committee recommended, and the Judicial Council approved, the following priorities to the Judicial Council at its June 27, 2014 meeting:

1. Trial court reinvestment-closing the funding gap;
2. Trial court employee benefit and salary increases;
3. Technology;
4. Judgeships;
5. Court facilities;
6. Court-appointed dependency counsel;
7. Changes to statutory language regarding the 2 percent Trial Court Trust Fund (TCTF) reserve if the reevaluation of process results in a need for changes;
8. Trial Court Trust Fund backfill, if not addressed in the 2014 budget; and
9. State Trial Court Improvement and Modernization Fund negative fund balance, if not addressed in the 2014 budget.

The Governor's budget provided for the following:

- $\quad \$ 90.1$ million in new General Fund support baseline budget reinvestment for the trial courts;
- $\$ 42.7$ million in General Fund support for retirement and health benefit cost increases, $\$ 10.8$ million of which represents a partial return of $\$ 22$ million removed from benefit and retirement funding provided in the 2014 Budget Act;
- $\$ 26.9$ million for Proposition 47 implementation costs; and
- $\$ 30.9$ million in ongoing funding and an additional allocation of up to $\$ 19.8$ million for FY 2015-2016 to address the anticipated revenue shortfalls in the Trial Court Trust Fund (TCTF) due to lower filing fee revenues.

Updated information will be provided during Item 1 Governor's May Revision (Discussion Item).

## Options for Discussion

## Option 1

The BCPs for the trial courts for 2016-2017 would be selected from the five BCP concepts identified above. No additional priorities should be included.

## Option 2

The BCPs for the trial courts for 2017-2017 would be selected from the five BCP concepts identified above and the TCBAC would consider which of the additional priorities identified as alternatives in the survey to include.

## Recommendation

It is recommended the TCBAC identify and prioritize which BCP concepts should be submitted to the Judicial Council for approval.

| Please rank the following BCP concepts in order of priority (1 being the highest priority and 10 being the lowest). |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| \# | BCP Concept | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | Rating Average |
| 1 | Modernization of Case Management Systems | 14 | 5 | 3 | 1 | 0 | 1 | 2 | 0 | 1 | 0 | 2.44 |
| 2 | Dependency Counsel | 0 | 5 | 6 | 1 | 2 | 5 | 5 | 2 | 1 | 0 | 3.96 |
| 3 | New Judgeships (AB 159) | 0 | 6 | 4 | 4 | 2 | 2 | 2 | 3 | 3 | 1 | 4.67 |
| 4 | E-Filing Implementations | 1 | 0 | 3 | 3 | 6 | 8 | 4 | 1 | 0 | 1 | 4.89 |
| 5 | Document Management Systems | 6 | 1 | 2 | 5 | 0 | 4 | 7 | 0 | 1 | 1 | 5.07 |
| 6 | Increased Costs for New Facilities | 1 | 0 | 2 | 5 | 10 | 1 | 5 | 1 | 0 | 2 | 5.41 |
| 7 | Implementation of Language Access Plan | 1 | 7 | 3 | 6 | 4 | 4 | 1 | 1 | 0 | 0 | 5.41 |

The BCP concepts have been ranked in order of priority using the rating average that resulted from the survey responses.
Alternatives 1, 2, and 3 ranked 8, 9, and 10 respectively.

## 1. Modernization of Case Management Systems

San Bernardino is currently in a contract to procure the Tyler Odyssey Case Management System for Criminal and Traffic. We are working on a contract to procure the Civil, Family Law, Probate, and Juvenile modules. There are statewide efficiencies that could be done by Tyler for the Tyler CMS courts and they would help all courts.
Any money for this solution should be one-time and would go to partially offset the transition of these courts off these systems.
All counties need to be able to have modern working case management systems developed for the individual county's needs.
This should be one-time money to partially offset the transition of these courts off these systems.
Funding should not only look at implementation costs, but the ongoing maintenance and upgrades (i.e. legislative changes)
Encourage (Require?) courts to utilize a return on investment (ROI) business model to set priorities for moderization of CMS.
A significant 'spend money to save money' payback;
New case management systems should be the first step to achieve efficiency branch wide.
This is an issue that affects every court of every size.
For courts that did not have an opportunity to use reserves to get in the queue for a new CMS, it is now nearly impossible for them to budget for this kind of expense.
As a Sustain court, we are hoping to get into a replacement system that will be compatible with the majority of other courts.

## 2. Dependency Counsel

Additional/new funding should be allocated under the new model as opposed to the historical allocation method.
San Bernardino is currently receiving $44.9 \%$ of the funding needed based on the 2014 Workload Model. Other courts receive over $100 \%$ of the funding based on their workload need. Statewide, trial courts are only receiving $75.7 \%$ of the funding required based on the 2014 Workload Model. At the April 17, 2015 Judicial Council meeting, the council approved a 4-year reallocation process to bring all courts to an equivalent percentage of workload met by available statewide funding. The Family and Juvenile Law Advisory Committee is scheduled to report back to the council after completing a review of the dependency counsel workload methodology. Currently courts are forced to provide services up to the amount of funding they are provided or use other local funds to
supplement these operations with little probability that additional funds will remain at the end of the year to be reallocated.
The recent decision to change the allocation of dependency counsel funding to a workload-based formula sets the stage for the Administration and legislature to provide the funding necessary to reduce dangerously high attorney caseloads.
We have seen how critical the funding of Dependency Counsel is in the courts.
If the 15-16 budget does not provide additional funds, this BCP should be a priority. Change of the funding allocation model for dependency counsel to a workload-based model sets the stage for seeking the funding necessary to reduce high attorney caseloads.
It may be prudent to conduct a comprehensive evaluation of the impact/outcomes of DRAFT. Did the standards accomplish the outcomes envisioned, are the more efficiencies that can be achieved, are there different models to reduce costs and ensure quality legal representation, such as creation of public dependency and minor counsel offices.
This should be pursued strongly, especially given the JC's having developed a new allocation strategy.
Critical to provide adequate funding for children. Reallocating existing insufficient funding is irresponsible.
I believe the legislature will be funding this priority on its own.
This program has been underfunded for almost ten years. The most underfunded courts need fiscal relief.

## 3. New Judgeships (AB 159)

In October 2007, AB 159 authorized 50 additional new judgeships; these positions, however, remain unfunded and unfilled. It also authorized the conversion of 162 vacant SJOs at a rate of no more than 16 per year. AB 2763 authorized an additional 10 conversions per year if resulting in judges being assigned to family or juvenile law calendars previously presided over by SJOs
At the December 11, 2014 Judicial Council meeting, the Council approved the proposed revision to the methodology used to prioritize new judgeships. San Bernardino currently is in greatest need with 57 of the total 269.8 Judicial Officers needed statewide. Funding for New Judgeships should include the funding for the support staff also and be a top priority.
The lingering inequities of historical funding allocations have crippled a number of courts who would benefit substantially from full funding behind their shares of 50 new judgeships.
Judges are buried in work with the vacancies. However, without funds for staffing having new Judgeships does little for the branch.
As WAFM addresses historical staff funding inequities, new judgeships are needed to equalized courts' ability to perform their adjudicative function.
I have ranked this lower on the priority list because we need to have a more refined and updated judgeship needs assessment (currently being done by WAAC).
The approach should be expanded to look at impact of realignment, proposition 47, new laws, best practices/collaborative courts to truly represent judgeship
need. Politically, we can't ask for more judges when there is insufficient number of support staff, so in essence we get more judges, but not sufficient support staff.
This is an important facet of the branches efforts to provide equal justice across the state. It should be a high priority.

## 4. E-Filing Implementations

San Bernardino has implemented E-filing options locally and continues to look for ways to improve this alternative and expand; state monies for this would be helpful.
While this is a priority for many courts, this solution is not yet ripe for a statewide BCP, as individual courts, and groups of courts, continue to work on how to pursue it. If any money were to be sought, it should be go directly to individual courts and should be one-time money.
eFiling is something that is already being adopted by most courts as a part of their case management systems and costs the courts little.
This BCP proposal is premature. Individual courts, and groups of courts, continue to work on e-filing. Any money from a BCP should go directly to individual courts and should be one-time money.
Look at statewide funding models for the various interfaces and ePayment and eFiling components (i.e Texas model). This approach would provide venue consistency and hopefully lower overall cost for users and courts
This needs to be impleneted in stages with the goal of ultimately making e-filing mandatory. Look to the Federal e-filing system as an example.
E-filing should be the third step to achieve efficiency branch.
The costs associated with e-filing will be recouped over time, but the initial expense is prohibitive, particularly with caps on reserves.

## 5. Document Management Systems

The Tyler Odyssey Case Management System will provide functionality for document management to our court.
If any money were to be sought, it should be go directly to individual courts and should be one-time money.
Critical for all courts
Money should go to individual courts and should be one-time money
Explore cost-effective regional models for document imaging warehousing and operations (i.e. scanning centers, storage servers, security, etc.,) Document management systems should be the second step to achieve efficiency after a new CMS has been deployed.
For courts that did not have an opportunity to use reserves to get in the queue for a DMS, it is now nearly impossible for them to budget for this kind of expense.

## 6. Increased Costs for New Facilities

San Bernardino currently opened its new Justice System and consolidated many of its court functions within this new facility. While the initial costs of the facility were not funded locally, much of the maintenance and service warranties expire shortly after taking occupancy requiring the court to fund those ongoing costs from local funds, which has never been the practice and now is an unfunded mandate.
While the budget crisis has affected the funding for several aspects of the branch's facilities program, these problems are best addressed by re-prioritizing available funding, rather than using potential BCP funding.
In light of the lack of funding for full staffing, new facilities seem a low priority
The budget crisis has affected the funding for the branch's facilities program overall. Costs of new facilities is only one problem. Any BCP should seek funding for facilities issues overall, and increased costs for new facilities should be taken care of by re-prioritizing funding within facilities' funds.
Develop a comprehensive funding allocation methodology that tracks the projected costs related to operating a new building (i.e. janitorial, security, utilities, maintenance, etc.,)
Unreasonable to ask courts to pay from base level for an old facility, especially since the total trial court funding is inadequate
Should include enough for ongoing maintenance and replacement costs on old facilities too

## 7. Implementation of Language Access Plan

In January 2015, an Executive Summary of the Strategic Plan for Language Access in the California Courts was provided to the Judicial Council. Within that plan existed a 5 -year, 3-phase plan to implement beginning in 2015. Current interpreter funding is limited to actual interpretation services of staff and contracted providers including travel costs and does not include costs associated with other services provided to LEP court users. The Language Access Plan (LAP) includes one-time and ongoing goals ranging from signage and equipment to modifications of information systems or expansion of staff and contracted labor.
BCP funding is premature. Many material achievements toward the goals of the Plan can be made without significant funding increases. Once we have better data on the costs of fully funding non-mandated areas, those funding needs should become the subject of a BCP.
Important for access to justice.
BCP funding is premature. Many material achievements toward the goals of the Plan can be made without significant funding increases. Once we have better data on the costs of fully funding non-mandated areas, those funding needs should become the subject of a BCP.
I wholeheartedly support language access, I just hope we look at increasing the use of cost-effective technology and innovation, instead of simply expanding status quo
This must go forward. It will be attractive and very supportable at the statewide level. In my view, it is not likely to take the place of other branch priorities from a funding standpoint.

| Description | Number of <br> Responses | Rankings |
| :--- | :---: | :--- |
| Salaries and Benefits for Trial Court Employees | 7 | Ranked 1, 2, 2, 4, 4, 5, 8. |
| Technology | 4 | Ranked 3, 6, 8, 8. |
| Trial Court Reinvestment | 3 | Ranked 1, 1, 1. |
| Self-Help | 3 | Ranked 3, 6, 7. |
| Security | 2 | Ranked 5, 8. |
| Facilities | 2 | Ranked 3, 3. |
| Psychiactric Evaluations and Transcripts | 1 | Ranked 8. |
| Stable Funding | 1 | Ranked 2. |
| New Judgeships (3rd 50) | 1 | Ranked 9. |
| Funding for Alienist and Minor Counsel | 1 | Ranked 5. |

## Other General Comments

This ranking and these comments assume that requests for additional TCTF monies, for employee benefit cost increases and for backfill of shortfalls in the TCTF (and IMF) revenues will be sought in the normal budget process rather than through a BCP. If that assumption is not correct, these basic requests should take priority as BCPs.

For Court Appointed Counsel in Dependency, explore shifting this to county, similar to public defender costs.

Supplemental justification for any proposed or alternative BCP priorities may be provided next week, as necessary.

| Description | Additional Background |
| :---: | :---: |
| Alternative \#1 |  |
| Funding for Psych Evaluations and transcripts | As previously suggested |
| Unfunded Benefit Cost Increases | Estimates are somewhere around \$9-\$11 million unfunded from FY 2014-15 benefit cost increases. Those monies were all ready incurred as expenses and should be properly reimbursed. |
| Increased employee benefits cost backfill |  |
| Continued reinvestment and restoration in core court funding. |  |
| Self-Help Center Funding | Increase funding avaiable in support of Self-Help Centers. |
| Employee Benefit Increases and Statewide COLAs | We should continue to push for parity with other state funded entities for automatic increases to cover full increase benefits, retirement and the average state COLAs |
| Trial court reinvestment - closing funding gap |  |
| COLA for Staff | The mechanism to fund COLA's is to reduce staff. There is no ongoing remedy, as is the case for State employees, for this to be funded. Tie it to the mechanism used for adjust Judicial Salaries |
| Court Employee Compensation - Salary and Full Benefit Cost Funding ${ }^{\text {P }}$ |  |
| Provide incentives for courts to increase access to justice through the use of technology/sharing of technology with other courts | Courts should benefit from the use of innovative technology to increase access to justice. |
| Court Security for existing courthouses and high security trials is becoming and increasing bigger issue for many courts. |  |
| Other Technology Initiatives - an example would be for remote video arraignments. This technology will assist in improving access to justice and will create additional efficiencies with other law and justice partners throughout the judicial branch. |  |
| Trial court reinvestment - closing the funding gap and fund balance restoration | Since this goal was not met last fiscal year, Trial Court Reinvestment - Closing the Funding Gap - to include Fund Balance Restoration should be a top priority. |
| Alternative \#2 |  |
| Unfunded Security Costs and Increases for Locally Retained Services | Since the funding associated with Courtroom Security was redirected to the Sheriff, local courts retained only the portion of funding for services provided locally for Civil Courtroom Attendants and Perimeter Screening. This funding was based on FY 2010-11 allocations. Local courts are required to fund costs above this allocation and should be receiving equivalent increases to State Sheriff increases for local security costs retained. |
| Lan Wan Telecommunications Upgrade Projects |  |
| Self represented litigant forms preparation and efiling |  |

| Description | Additional Background |
| :---: | :---: |
| Alternative \#2 cont'd |  |
| Locally Funded Court Facility Leases | Out of necessity, local courts have invested in facility leases. Now that we have lost $\$ 1$ billion in funding, we are struggling to make payments without impacting other core operations. The revenue shortfall is making this situation worse. |
| Trial court employee benefit/salary increases |  |
| Stable and Predictable Funding - Full Backfilling Reduced TCTF Revenues (or replacement of court reliance on high fines and fees) |  |
| Trial court employee benefit and salary increases. | Since this goal was not met last fiscal year, Trial Court Employee Benefit and Salary Increase should continue to be a priority. |
| Alternative \#3 |  |
| New Judgeships - Third set of 50 |  |
| IT security funding |  |
| Funding for court use of alienist and minor counsel | These costs have increased, but there is no direct funding for it and not covered under WAFM |
| Self Help Funding | This is needed more each fiscal year. This is likely to find support in the Legislature. |
| Court facilities - modification projects, increased operating costs for new and renovated courthouses, and maintenance of trial court facilities. | Since this goal was not met last fiscal year, Court facilities - modification projects, increased operating costs for new and renovated courthouses, and maintenance of trial court facilities - should continue to be a priority. |

## Other Comments

This ranking and these comments assume that requests for additional TCTF monies, for employee benefit cost increases and for backfill of shortfalls in the TCTF (and IMF) revenues will be sought in the normal budget process rather than through a BCP. If that assumption is not correct, these basic requests should take priority as BCPs.

For Court Appointed Counsel in Dependency, explore shifting this to county, similar to public defender costs
Supplemental justification for any proposed or alternative BCP priorities may be provided next week, as necessary.

| Priority | Description | Low Range | Medium Range | High Range |
| :---: | :---: | :---: | :---: | :---: |
| 1 | Interpreter Services in Civil Matters: The Strategic Plan for Language Access in the California Courts recommended expansion of court interpreters in civil proceedings (recommendation 8). Fiscal year 2014-2015 reimbursable expenditures are estimated to exceed the fiscal year 2014-2015 year appropriation, and begin to utilize part of the surplus. Because many courts only recently began providing interpreters in civil matters, expenditures within the last quarter of the 2014-2015 fiscal year will likely be larger than prior 2014-2015 quarters. As a result, current year-to-date estimates are likely an under-representation of expenditures that will be made by the end of June 2015. Additional courts are planning on expanding into civil, consistent with recently enacted Evidence Code section 756, which will also increase expenditures. Request General Fund augmentation to TCTF Program 45.45 to allow courts to maintain the level of services that is being provided in FY 201415 and to allow for minimal expansion. The final numbers may change slightly as we continue to review current year expenditures and projected expenditures for the coming two years, and as we incorporate information received from the courts to assist in a formula for assessing costs for civil | 5,000,000 | 10,000,000 | 16,000,000 |
| 2 | Training and Signage Grant Program for Trial Courts: The Strategic Plan for Language Access in the California Courts recommended training for interpreters on civil cases and remote interpreting (recommendation 46) and appropriate signage and wayfinding throughout the courthouse (recommendations 39 and 42). The plan also recommmends (recommendation 50) that judicial officers, including temporary judges, court administrators, and court staff will receive training regarding the judicial branch's language access policies and requirements in the Language Access Plan, as well as the policies and procedures of their individual courts. Recommendation 5 includes the provision of notices to those who utilize court services and to the general community regarding the availability of language access services in the courts. Request General Fund augmentation for training and to develop the notice in English and the state's top ten non-English languages, which would then be made available to all 58 trial courts to print and distribute. | 500,000 | 1,000,000 | 1,500,000 |

| Priority | Description | Low Range | Medium Range | High Range |
| :---: | :---: | :---: | :---: | :---: |
| 3 | On-Site Trial Court Support for Language Access: The Strategic Plan for Language Access in the California Courts made 75 recommendations to improve and expand language access in California's courts. These recommendations include early identification of language needs, changes to case management systems to track the provision or denial of language services; training; the designation of language access office or representative in each court to serve as a language access resources for all court users, court staff and judicial officers, and a host of other recommendations to provide meaningful access to justice to limited English proficient court users. Request augmentation to TCTF Program 45.10 for three language access specialists for each interpreter bargaining region to serve all 58 courts, for a total of 12 language access specialists, to be hired and housed at one or more courts in each region to assist courts with language access issues, including assessment of a court's needs, implementation, training, etc. (Note: may be an ongoing cost depending on LAP implementation needs). | 1,771,536 | 1,771,536 | 1,771,536 |
| 4 | Video Remote Interpreting: The Strategic Plan for Language Access in the California Courts made several recommendations regarding the use of Video Remote Interpreting in appropriate court proceedings where it will allow LEP court-users to fully and meaningfully participate in the proceedings. The plan recommended conducting a pilot project to collect data on due process issues, participant satisfaction, the effect on the use of certified and registered interpreters, the effectiveness of a variety of available technologies, and a cost benefit analysis. Request a General Fund augmentation to implement a pilot in up to 10 courts, using multiple technologies at each court to best evaluate the different technologies. (Note: will require separate JC funding for 1.0 FTE to cover personal services of $\$ 133,000$ and O\&E $\$ 22,500$, for a total cost of $\$ 575,700$ in 2016-17; estimated total cost of $\$ 193,700$ for this item in 20172018). | 420,200 | 420,200 | 420,200 |

leah.rose-goodwin@jud.ca.gov

## Executive Summary

The Workload Assessment Advisory Committee recommends that the Judicial Council approve the Need for New Judgeships in the Superior Courts: 2014 Update of the Judicial Needs Assessment for transmission to the Legislature and the Governor. This report, which fulfills the requirements of Government Code section 69614(c)(1), shows that nearly 270 new judicial officers are needed to meet the workload-based need for new judgeships. This report also includes information about the conversion of additional subordinate judicial officers to fulfill the reporting requirement of Government Code section 69614(c)(3). The advisory committee further recommends that the Judicial Council adopt a revision to the current methodology that is used to prioritize any new judgeships that may be authorized and funded by the Legislature for the trial courts. The proposed revision to the Judicial Council's methodology will allow smaller courts whose workload need is substantial, but less than the one full-time equivalent threshold currently required, to be eligible for consideration for a new judgeship.

## Recommendation

The Workload Assessment Advisory Committee recommends that the Judicial Council, effective October 27, 2014:

1. Approve the attached report, The Need for New Judgeships in the Superior Courts: 2014 Update of the Judicial Needs Assessment, for transmission to the Legislature and the Governor; and
2. Approve a modification to the methodology used to prioritize any new judgeships that may be authorized and funded for the trial courts.

## Previous Council Action

The methodology for determining the number of judgeships needed in the trial courts was approved by the Judicial Council in August 2001. ${ }^{1}$ At that meeting, the Judicial Council also directed staff to assess statewide judicial needs using workload standards developed by the National Center for State Courts. That initial needs assessment and priority ranking was approved by the Judicial Council at its October 26, 2001, meeting. ${ }^{2}$

At its August 9, 2004, meeting, the council approved technical modifications to the judicial workload methodology and modified the priority ranking of the new judgeships. ${ }^{3}$ At its February 23, 2007, meeting, after the state Legislature created 50 new judgeships, ${ }^{4}$ the council approved a subsequent reranking of the remaining 100 top-priority judgeships to reflect changes in workload since the 2004 report. The council also approved the methodology for identifying the number and location of subordinate judicial officer positions that should be converted to judgeships.

In October 2007, Assembly Bill 159 (Stats. 2007, ch. 722) was enacted, authorizing 50 additional new judgeships; these positions, however, remain unfunded and unfilled. AB 159 also authorized the conversion of 162 vacant subordinate judicial officer positions, identified according to the council-approved methodology, at a rate of no more than 16 per year. Assembly Bill 2763 (Stats. 2010, ch. 690) authorized 10 additional conversions per year if the conversions were to result in judges being assigned to family or juvenile law calendars previously presided over by SJOs.

Updates of the assessed judicial need were approved by the Judicial Council, as directed by statute, in 2008, 2010, and 2012. ${ }^{5}$

[^3]The council has made two recent revisions to the methodology used to calculate judicial need. In December 2011, the council approved updated caseweights that measure the amount of time that judicial officers need for case processing work. ${ }^{6}$ And, in December 2013, the council adopted a recommendation that any judgeships approved and funded be based on the most recent Judicial Needs Assessment approved by the council. ${ }^{7}$

## Rationale for Recommendation

The ability to have a critical criminal, family law, domestic violence, or civil matter addressed by the court should not be based on the judicial resources in the county in which one happens to reside. Access to the courts is fundamentally compromised by judicial shortages, and securing adequate judicial resources for the courts is a top priority for the Judicial Council. Reports on the critical shortage of judicial officers have been submitted to the council since 2001 and, since that time, have formed the basis of council requests to the Legislature to create new judgeships.

Government Code section 69614(c)(1) requires that the Judicial Needs Assessment be updated biennially in even-numbered years. The 2014 Needs Assessment, which reports on the filingsbased need for judicial officers in the trial courts, shows that 269.8 FTE judicial officers are needed in 35 courts. ${ }^{8}$ Without these needed resources, courts that have been determined to have a critical need for new judgeships will have to continue to try to process their caseloads with an insufficient number of judicial and support staff.

In addition to updating the Judicial Needs Assessment, the Workload Assessment Advisory Committee (WAAC) is charged with making periodic updates to the models used to assess the need for judicial officers and to allocate any new judgeships that may be authorized and funded for trial courts. The methodology for prioritizing judgeships has remained unchanged since its adoption. When the Judicial Workload Study was updated in 2009-2011, the SB 56 Working Group (the precursor to WAAC) discussed the need to review the methodology, but tabled it for review until after the workload study was updated. WAAC's approved 2014 Annual Agenda called for reviewing the prioritization methodology and determining if changes should be made.

Courts whose assessed judicial need, as measured in the biennial Judicial Needs Assessment, is greater than those courts' number of authorized judicial positions are each eligible for consideration for a new judgeship. Currently, courts must have a need for at least 1.0 FTE judicial officer to become eligible for a new judgeship.

Eligible courts are then ranked in priority order using a methodology based on the same process used to allocate congressional seats following the decennial census. The methodology applies a

[^4]percentage factor to a court's net need (difference between authorized positions and workloadbased need). A subsequent adjustment is made to the list to evaluate the need for subsequent judgeships in the same court, based on the relative need in other courts. A ranking score is assigned to each judgeship needed in each court on the basis of these criteria and then a priority list is generated based on the ranking score assigned to each needed judgeship.

To illustrate, Table 1 shows the first 10 courts, in rank order of need, that appear on the ranking list that is based on the 2014 Judicial Needs Assessment. The Superior Court of San Bernardino County has the highest rank score and is thus assigned the first judgeship to be allocated; the Superior Court of Riverside County has the second highest score and thus received the second judgeship. Courts can appear on the list multiple times; in the list shown below, the Superior Courts of San Bernardino and Riverside Counties each occupy three positions on the list because the judicial need in those courts is so acute.

Table 1: Portion of Priority Ranking for New Judgeships

| County | 2014 <br> Judicial Need | Authorized and funded Judgeships and Authorized SJO Positions | Net need | Rank Score | Priority Ranking for New Judgeship |
| :---: | :---: | :---: | :---: | :---: | :---: |
| San Bernardino | 143.0 | 86 | 57.0 | 1,242,691.5 | 1 |
| Riverside | 127.4 | 76 | 51.4 | 1,134,909.4 | 2 |
| San Bernardino | 143.0 | 86 | 57.0 | 352,438.0 | 3 |
| Riverside | 127.4 | 76 | 51.4 | 321,246.0 | 4 |
| Kern | 58.0 | 43 | 15.0 | 211,234.7 | 5 |
| Los Angeles | 629.5 | 585.3 | 44.2 | 169,732.4 | 6 |
| San Bernardino | 143.0 | 86 | 57.0 | 163,172.9 | 7 |
| Riverside | 127.4 | 76 | 51.4 | 148,432.0 | 8 |
| Stanislaus | 32.6 | 24 | 8.6 | 125,034.3 | 9 |
| Fresno | 60.7 | 49 | 11.7 | 124,270.1 | 10 |

The proposed modification would reduce the eligibility threshold from the current 1.0 FTE needed to get on the list for a new judgeship to 0.8 FTE. The lower threshold would benefit smaller courts with relatively low numbers of authorized judicial positions and workload need that falls just below the 1.0 FTE threshold. Those courts are disadvantaged by the current policy, even though their workload need, expressed as a percent of total available judicial resources, may exceed that of larger courts. To illustrate, a court with 2.3 FTE authorized judicial positions and a judicial workload need equivalent to 3.1 FTEs has a need for 0.8 FTE judicial officers (3.1 minus 2.3). That difference represents a 35 percent shortfall over the number of authorized positions ( 0.8 over 2.3 ); put another way, the court is operating with 35 percent fewer judicial resources than their workload-based need.

Lowering the threshold to qualify for a new judgeship to 0.8 FTE does not mean that the court would be authorized or funded for a partial judgeship. Judges are authorized in whole number
increments, and any court receiving a judgeship under this revised policy would receive a fulltime judge.

The next few tables compare the current methodology to the proposed policy. Table 2 shows the list of courts that would be eligible for consideration for a judgeship using the results of the 2014 Judicial Needs Assessment. The list is sorted by the number in the far right column-the number of judgeships needed based on the 2014 Judicial Workload Assessment. Under the current prioritization methodology, all of the courts in the non-shaded area of the chart (San Bernardino through Butte) would be eligible to get on the ranking list for a new judgeship because the net judicial need is greater than 1.0 FTE.

If the proposed 0.8 FTE threshold were approved, then three additional courts would qualify for consideration for a new judgeship: the Superior Courts of Del Norte, Lassen, and El Dorado Counties. Each of these courts needs at least 0.8 FTE of a judicial officer, but less than 1.0 FTE. And, in each of these courts, that judicial officer FTE need translates to a significant shortfall in judicial resources compared to authorized positions. For Del Norte, that need is 34 percent above authorized positions ( 0.9 divided by 2.8); for Lassen, 40 percent; and El Dorado, 10 percent.

| Tehama | 4.3 | 5.8 | 1.5 | 34\% |
| Sutter | 5.3 | 6.7 | 1.4 | 27\% |
| Butte | 13.0 | 14.2 | 1.2 | 9\% |
| Del Norte | 2.8 | 3.7 | 0.9 | 34\% |
| Lassen | 2.3 | 3.2 | 0.9 | 40\% |
| El Dorado | 9.0 | 9.9 | 0.9 | 10\% |
| Santa Cruz | 13.5 | 14.2 | 0.7 | 5\% |
| Monterey | 21.2 | 21.8 | 0.6 | 3\% |
| San Benito | 2.3 | 2.8 | 0.5 | 23\% |
| Calaveras | 2.3 | 2.8 | 0.5 | 20\% |
| Amador | 2.3 | 2.7 | 0.4 | 19\% |
| Lake | 4.8 | 5.2 | 0.4 | 9\% |
| Yuba | 5.3 | 5.6 | 0.3 | 5\% |
| Napa | 8.0 | 8.2 | 0.2 | 3\% |
| Total need: |  |  | 269.8 |  |

Though revising the threshold to a lower number increases the number of courts that qualify for a new judgeship, getting on the qualification list does not guarantee that a court will receive a judgeship if fewer than the full number of needed judicial positions were allocated to the courts. Previous requests for new judgeships have been based on only the first 150 new judgeships needed. If the new methodology were adopted, a court could qualify for a new judgeship, but have a lower position on the priority list and therefore not receive a new judgeship until enough new judgeships were authorized.

The following tables show how the proposed change in methodology would affect the prioritization of new judgeships. To evaluate the effect of the proposed policy change, the following two tables compare how new judgeships would be allocated based on the 2014 Judicial Needs Assessment under both the current and proposed methodology. ${ }^{9}$

Table 3 shows the allocation using the current methodology and qualifying threshold, whereas Table 4 shows how the new judgeships would be allocated if the threshold were lowered to 0.8 FTE. Judges are allocated in whole-number increments (e.g. the Superior Court of Riverside County would be allocated 51 judgeships, even though their need is 51.4 FTE, and the Superior Court of Tulare County would be allocated 2 judgeships, even though their need is 2.9 FTE ). Therefore, the total judgeships allocated in Table 3 is 250 , which is the total number of wholenumber judgeships needed for all courts who need at least 1.0 FTE judicial officer. Table 4 shows the allocation for all courts who need at least 0.8 FTE of a judicial officer. Three additional courts qualify using this threshold; therefore, Table 4 shows the allocation of 253 new judgeships.

As a means of illustrating the effect of the proposed policy, the shaded boxes in Tables 3 and 4 show changes in the allocation list over the first 100 judgeships. For example, if the new methodology were adopted, the Superior Court of Lassen County would receive one of the judgeships in the first group of 50 allocated, while San Bernardino would lose one. In the second set of 50 judgeships shown (judgeships 51-100), the Superior Courts of Kern and Tulare Counties would lose judgeships, and the Superior Courts of Del Norte and El Dorado Counties would each gain a judgeship.

## Comments, Alternatives Considered, and Policy Implications

## Comments

This proposal was discussed at the March 13, 2014 WAAC meeting. Since the methodology for allocating new judgeships is a function that is statutorily delegated to the Judicial Council, the proposal was not circulated for public comment. Smaller courts have spoken informally with the Trial Court Liaison office in support of such an adjustment.

## Alternatives Considered

WAAC members discussed alternatives to the 0.8 FTE threshold, considering higher and lower options. After discussion, the committee reached a consensus that setting the threshold at 0.8 FTE struck the right balance between creating an opportunity for smaller courts with high workload need and allocating any new judicial resources as effectively as possible.

## Policy Implications

The committee considered the timing of making this recommendation to the council, given that the branch has not received any new judgeships since 2007 when the second 50 judgeships were authorized (though not funded) with AB 159. While the lack of new authorized judgeships makes discussion of an allocation methodology somewhat abstract, the committee decided to move forward with its recommendation because it presented an opportunity to make a policy change at a more neutral time when new resources aren't at stake. Also, since the Chief Justice's Blueprint for a Fully Functioning Judicial Branch and the Trial Court Budget Advisory Committee have prioritized funding of new judgeships, the committee felt it made sense to do this work now in preparation for a future funding request.

## Implementation Requirements, Costs, and Operational Impacts

There are no costs to the branch associated with these recommendations, other than the staff time needed to prepare said reports and analyses. The funding associated with any new judgeships that may be authorized for the judicial branch as a result of this analysis is incorporated into the budget change proposals and/or the legislation that is sponsored to request new judgeships.

## Relevant Strategic Plan Goals and Operational Plan Objectives

The workload study update is consistent with Goal II, Independence and Accountability, of the strategic plan, and related operational plan Objective II.B.2.d, in that a statewide workload model creates "nonpartisan mechanisms for creating new judgeships" (Objective II.B.2.d).

## Access to Justice Requires Having Sufficient Judicial Resources

Government Code section 69614(c)(1) requires the Judicial Council to report to the Legislature and the Governor on or before November 1 of every even-numbered year on the need for new judgeships in each superior court, using the uniform criteria for the allocation of judgeships described in Government Code section 69614(b). Government Code section 69614(c)(3) requires the Judicial Council to report on the status of the conversion of additional subordinate judicial officer positions to family or juvenile assignments.

The public's right to timely access to justice is contingent on having adequate judicial resources in every jurisdiction. The number of judgeships authorized and funded by the Legislature has not kept pace with workload, leaving many courts with serious shortfalls-as high as nearly 70 percent-between the number of judgeships needed and the number that have been authorized and filled.

Securing new judgeships is one of the core elements of the Chief Justice's Three-Year Blueprint for a Fully Functioning Judicial Branch and has been a top priority for the Judicial Council for many years. ${ }^{1}$

## Quantifying the Need for New Judgeships in the Superior Courts

California is a pioneer in the measurement of judicial workload-based need, having been the first state to use a weighted caseload methodology to assess the need for judicial officers, beginning in $1963 .{ }^{2}$ Since then, weighted caseload has become a nationally accepted methodology for measuring judicial workload. The current methodology used to assess the need for judicial officers in the superior courts is based on a time study conducted in 2010, in which over 500 judicial officers in 15 courts participated. The time study findings resulted in the development of a set of caseweights that quantify the amount of case processing time needed for different case types, taking into account the full range of possible case processing outcomes and their relative probability of occurrence. The caseweights that resulted from the 2010 time study were approved by the Judicial Council in December 2011.

The caseweights are used to estimate judicial officer need by multiplying each caseweight by a three-year rolling average of filings for that casetype and dividing by the available time in minutes that judicial officers have to hear cases. The result is expressed in full-time equivalent judicial positions (FTEs).

[^6]
## 2014 Statewide Judicial Need Shows a Critical Need for New Judgeships

Consistent with reports submitted in previous years, the 2014 Judicial Needs Assessment shows that there is a critical shortage of judges relative to the workload needs in California's trial courts. Table 1 summarizes the statewide judicial need compared to available resources based on a three-year average of filings from fiscal years 2010-2011 through 2012-2013, showing that 2,171.3 FTE judicial officers are needed statewide, compared to 1,963.3 FTE authorized and funded positions. While Assembly Bill159 (Stats. 2007, ch. 722) authorized 50 new judgeships for the superior courts, those positions have neither been funded nor filled.

Table 1 shows the total assessed statewide need for judicial officers has declined by 5 percent since the 2012 Judicial Needs Assessment. Lower overall filings counts in recent years account for the slight decline in statewide assessed judicial need.

Table 1: Statewide Need for Judicial Officers, 2012 and 2014 Judicial Needs Assessments

|  |  | Authorized and <br> Funded Judgeships <br> and Authorized <br> Subordinate Judicial <br> Officer Positions | Assessed Judicial <br> Need (AJN) |
| :--- | ---: | ---: | ---: |
| $\mathbf{2 0 1 2}$ | Authorized Judicial <br> Positions (AJP) | 1,972 | $2,286.1$ |
| $\mathbf{2 0 1 4} \mathbf{}^{\mathbf{2}}$ | 2,022 | $1,963.3$ | $2,171.3$ |
| Change (2012 to 2014) | $2,013.3$ | -8.7 | $\mathbf{- 1 1 4 . 8}$ |

${ }^{1}$ Includes the 50 judgeships that were authorized by AB 159 (Stats. 207, ch. 722) but never funded nor filled.
${ }^{2}$ AJP changed since the last assessment because the Superior Court of California, County of San Bernardino, was authorized to add two SJO positions in FY 2011-2012 based on workload need. Also, several courts requested that the Judicial Council's Executive and Planning (E\&P) Committee approve changes in the number of authorized commissioner FTEs following a refresh of that data in September 2014 These changes, which are reflected in the table, are mostly requests for reductions in FTEs and were confirmed by E\&P at its October 9, 2014 meeting.

## Nearly 270 Judicial Officers Needed Statewide to Meet Workload Demand

Judicial need is calculated by taking the difference between the assessed judicial need in each court and the number of authorized/funded positions in each court. The assessed judicial need in each court compared to the number of authorized and filled positions is shown in Appendix A. Calculating the statewide need for judgeships is not as simple as subtracting the number of authorized and funded positions from the assessed judicial need. That calculation would show a need of just over 200 judgeships; however, net statewide calculations of judicial need do not accurately identify the branch's need for new judgeships because judgeships are not allocated at the statewide level but are allocated to individual trial courts.

By way of illustration, the branch's smallest courts are statutorily provided with a minimum of two judgeships and are authorized to have at least 0.3 FTE of a federally funded child support commissioner, for a total of 2.3 FTE judicial officers, even though the workload need in those courts may translate to a much smaller number of judge FTEs. As Appendix A shows, under a pure workload analysis, one of California's two-judge courts would need only 0.2 FTE judicial officers, but it has 2.3 FTE authorized positions. That court thus shows a negative number in the
need for new judicial officers. This negative number does not and should not offset the 57 judicial officers that San Bernardino needs to meet its workload-based need. In other words, the fact that some courts may have more authorized positions than assessed judicial need under a pure application of the weighted caseload methodology does not take away from the needs in other courts. As a result, a net calculation of need, adding these positives and negatives, provides an artificially low estimate of judicial need in California courts.

The actual statewide need for new judgeships is calculated by adding the judicial need among only the courts that have fewer judgeships than their workload demands. Based on the 2014 Judicial Needs Assessment, 35 courts need new judgeships, for a total need of 269.8 FTEs (Table 2 ). This is nearly 14 percent higher than the $1,963.3$ authorized and funded judicial positions. The need estimate does not include judicial vacancies, resulting from retirements, elevations, or other changes, that have not yet been filled. ${ }^{3}$

| Yuba | 5.3 | 5.6 | 0.3 | 5\% |
| Total need: |  |  | 269.8 |  |

${ }^{1}$ Includes authorized and funded judgeships, not including judgeships that were authorized under AB 159. Also includes authorized subordinate judicial officer positions.

[^7]
## Status of Conversion of Additional SJO Positions to Family and Juvenile Assignments

As directed by Government Code section 69614(c)(3), this report also addresses the implementation of conversions of additional subordinate judicial officer (SJO) positions (above the 16 authorized per year) that result in judges being assigned to family or juvenile assignments previously held by SJOs (as authorized by Gov. Code, § 69615(c)(1)(C)).

Conversions of additional positions were authorized for fiscal year 2011-2012 (Gov. Code, § 69616). Under this authority, four SJO positions were converted to judgeships-one each in the Superior Courts of Alameda (June 2012), Los Angeles (January 2012), Orange (January 2012), and Sacramento (March 2012) Counties. At the time of the 2012 Judicial Needs Assessment, the Governor had not yet appointed judges to fill those newly created judgeships; however, the courts in which the conversions took place committed to assigning judges (whether the newly appointed judges or other sitting judges) to either family or juvenile calendars that were previously presided over by subordinate judicial officers. The courts who converted those positions have confirmed that those family and juvenile calendars are now presided over by judges.

Conversions of 10 additional positions were authorized for fiscal year FY 2013-2014 (Gov. Code, § 69617). No SJO positions were converted under this authority.

## Lack of Adequate Judicial Resources Is a Barrier to Access to Justice

The public's right to timely access to justice should not be contingent on the resource levels in the county in which they reside or bring their legal disputes. All Californians deserve to have the proper number of judicial officers for the workload in their jurisdiction. This report highlights the critical and ongoing need for new judgeships in the superior courts.

Appendix A: Assessed Judicial Need Compared to Authorized Positions

|  | A | B | C | D |

| Yolo | 12.4 | 11.2 | -1.2 | n/a |
| Yuba | 5.3 | 5.6 | 0.3 | 5\% |

${ }^{1}$ Authorized judicial positions include both judgeships and subordinate judicial officer positions. Authorized
judgeships consist of those codified in Government Code sections 69580 through 69611 plus the 50 judgeships that were authorized and funded with SB 56 (stats. 2006, ch. 390) but not the 50 judgeships that were authorized with AB 159 but never funded. Since 2006, there have been a few changes to AJP resulting from changes in
authorized subordinate judicial officers. In FY 11-12, the Superior Court of California, County of San Bernardino
was authorized to add two SJO positions based on workload need. Also, in September 2014, Judicial Council staff
refreshed the authorized commissioner FTE, and several courts have requested that the Executive and Planning
Committee of the Judicial Council approve changes--mostly reductions-- in the number of authorized
commissioner FTE. The table has been updated to reflect those requested changes, which were approved by E\&P
at their October 9,2014 meeting.
Page 5

## Item 9 <br> Workload-Based Allocation and Funding Methodology (WAFM) (Discussion Item)

WAFM Updates for Allocation in 2015-2016
The 2015-2016 WAFM has been updated to include salary and benefit information from courts' 2014-2015 Schedule 7A (as of 7/1/2014), RAS FTE need based on average filings for the period 2011-2012 to 2013-2014, and average BLS salary data for the calendar years 2011, 2012, and 2013.

The updated WAFM has resulted in a $\$ 55.3$ million, or $2.3 \%$, decline in the statewide funding need (see Attachment 9B, column H). The decrease in estimated need was driven primarily by a $3.9 \%$ drop in the RAS FTE need from 19,261 to 18,519, a decline partially offset by increases in costs related to the average RAS-related salary (0.7\%) and average salary-driven and non-salarydriven benefits (3.6\%). BLS salary adjustments had a minimal impact on the funding need, adding $0.1 \%$ to the total need.

The 2015-2016 WAFM information is still preliminary as the RAS FTE need is expected to be updated near the end of May 2015 to incorporate the interim complex civil caseweight which should impact the calculated FTE need and courts' overall need relative to other courts. The AB 1058 staff and family law facilitator cost information will also be updated in May 2015 but is not expected to have a significant impact on courts' need or courts' overall need relative to other courts.
Attached are the following:

Detail of 2015-2016 WAFM Computation of Funding Need
9B - Summary of changes from 2014-2015 in total funding need
9C - 2015-2016 WAFM computation of total funding need
9D - 2015-2016 RAS FTE need
9E - BLS Factor
9F - FTE Allotment Factor
9G - Historical Base Allocation
9H - 2014-2015 WAFM-Related Base Allocation

WAFM Allocation Adjustments (Assuming \$90.6 Million in New Funding for 2015-2016)
9I - Allocation of New Funding and Reallocation of Historical Funding (assumes $\$ 90.6$ million in new general funding)

Detail of Funding Floor Allocation Adjustments
9J - Estimated 2015-2016 WAFM-Related Base Allocation
9K - Determination of Funding Floor Amount (assumes $\$ 90.6$ million in new funding)
9L - Floor Allocation Adjustment (assumes $\$ 90.6$ million in new funding)

## Change in WAFM-Related Allocations as a \% of 2014-2015 WAFM Funding Need

Table 1 and Chart 1 (Attachments 9M and 9N, respectively) display each court's WAFM-related allocation as a percent of the court's 2014-2015 WAFM funding need using the actual 20142015 WAFM-related allocation and estimated WAFM-related allocations for 2015-2016 to 2017-2018. Tables 3A and 3B (Attachments 9P and 9Q, respectively) provide the underlying detail and assumptions behind each court's actual and estimated WAFM-related allocation.
Table 2 (Attachment 9O) provides each court's reallocation ratio based on the 2014-2015 WAFM. The ratio represents the amount of funding returned for each dollar of historical funding that is reallocated. A ratio that is less than 1 indicates a court is subject to a reduction when funding is reallocated. For example, a ratio of 50 percent means a court is to receive 50 cents for every dollar of the court's historical funding that is subject to reallocation, and this is achieved by reducing the court's allocation by 50 cents. A ratio that is greater than 1 indicates a court is subject to an augmentation when funding is reallocated. For example, a ratio of 150 percent means a court is to receive one dollar and 50 cents for every dollar of the court's historical funding that is subject to reallocation, and this is achieved by increasing the court's allocation by 50 cents.

Summary of Changes from 2014-2015 Total WAFM Funding Need

|  | Change in Variable |  |  |  | Change in WAFM Estimated Need |  |  |  |  |

## INVITATION TOCOMMENT <br> SP15-03

## Title

Judicial Administration: Rule for Advisory Committee on Financial Accountability and Efficiency for the Judicial Branch

## Proposed Rules, Forms, Standards, or Statutes

Amend Cal. Rules of Court, rule 10.63

## Proposed by

Executive and Planning Committee
Hon. Douglas P. Miller, Chair

## Action Requested

Review and submit comments by June 5, 2015

Proposed Effective Date
July 1, 2015

## Contact

Douglas P. Miller
douglasp.miller@jud.ca.gov

## Executive Summary and Origin

The Executive and Planning Committee (E\&P) recommends that rule 10.63 of the California Rules of Court, which concerns the Advisory Committee on Financial Accountability and Efficiency for the Judicial Branch, be amended to expand the committee's charge by modifying the description of its duties, to provide more specificity to the membership criteria, to add a membership category, and to make technical changes.

## Background

Rule 10.63 was adopted by the Judicial Council, effective February 21, 2014, to establish by rule the Advisory Committee on Financial Accountability and Efficiency for the Judicial Branch (A\&E).

## The Proposal

Subdivision (b)(1) of rule 1063 addresses A\&E's role in making recommendations to the council on proposed budget change proposals. Although the Administrative Director is responsible for overseeing the expenditures of the council, this provision ensures that there is oversight by appropriate advisory bodies. Subdivision (b)(1) would be amended to add "planned" and "other budget concepts" to more accurately describe the work of A\&E in recommending funding of the Judicial Council. The amendment would also delete "annually" because the recommendations are made at two different times each year. The same subdivision would also be amended to specify that the additional duty of making recommendations to the council concerning planned budget change proposals and other budget concepts concerns those that are outside the purview of any other advisory body. Other advisory bodies, such as the Trial Court Budget Advisory Committee, the Judicial Council Technology Committee (JCTC), and E\&P, are responsible for
recommending certain budget concepts. For example, the JCTC recommends budget concepts related to technology, such as trial court telecommunications for local area network/wide area network architecture.

The rule would be amended to remove the additional duty of recommending any proposed changes to the annual compensation plan for council staff (formerly the AOC). The Judicial Council already is involved in review of Judicial Council staff compensation. In addition, salaries of council staff are subject to the approval of the Chair of the Judicial Council (Gov. Code, § 19825(b)). Maintaining this review as a responsibility of A\&E would result in a duplication of efforts. Thus, E\&P recommends removing it from the rule.

Subdivision (b)(2) would be amended to add that every odd year, A\&E will review and report to the council on council expenditures for local assistance (benefitting one or more trial courts) and state operations. It would specify that for such expenditures for trial courts, the committee would determine whether the expenditures comply with allocations approved by the council and spending guidelines developed by the Trial Court Budget Advisory Committee (TCBAC), and approved by the council, on the appropriate uses of Trial Court Trust Fund and State Trial Court Improvement and Modernization Funds.

The review of such expenditures is consistent with the recommendation of the California State Auditor (CSA) (formerly, Bureau of State Audits) that this responsibility be given to an advisory body. Specifically, the CSA recommended, "The Judicial Council should create a separate advisory body, or amend a current committee's responsibilities and composition, to review the AOC's state operations and local assistance expenditures in detail to ensure that they are justified and prudent." Though the TCBAC currently has a role in making recommendations to the council on trial court budgets and the allocation of trial court funding (Cal. Rules of Court, rule 10.64), E\&P has determined that A\&E should serve a different role in this process: it has the appropriate expertise to review expenditures - under guidelines developed by the TCBAC and approved by the council—after funds designated for state operations and local assistance have been used.

Subdivision (b)(3) would be amended to narrow the audit reports that A\&E must review. The word "all" would be removed to reflect that A\&E is not responsible for reviewing audit reports of the judicial branch conducted by outside entities such as the CSA. To expedite action relating to outside audits, the review and response will be done by either the council, council internal committees, or particular council members identified to assist with this duty. This will ensure timely action on audit reports from outside entities. A\&E would retain responsibility for reviewing audits of the judicial branch performed by the council's Audit Services.

Subdivision (b)(4) would be amended slightly to parallel new subdivision (b)(2) by adding "review and" before "report" and to provide that this duty occurs in even years. Other minor changes would be made to reflect the name change from "Administrative Office of the Courts" and "AOC" to "Judicial Council" and "Judicial Council staff," as appropriate.

E\&P also recommends that the membership provision in rule 10.63 be amended, consistent with the CSA recommendation, to specifically require that members have expertise in public and judicial branch finance. Thus, subdivision (c) would be amended to provide that members from all membership categories must have "experience in public or judicial branch finance." In addition, it would be amended to provide for membership by the chair and two members of the TCBAC. These members would serve only when the committee fulfills its duties to review and report to the council on council expenditures for local assistance and state operations under subdivision (b)(2). The amendment of this subdivision would also eliminate the provision that states, "The California Judges Association will recommend three nominees for a superior court judge position and submit its recommendations to the Executive and Planning Committee of the Judicial Council." The California Judges Association may continue to submit recommendations for membership, but to so specify in the rule is unnecessary.

The comment period for this proposal is shorter than usual so that the council may consider it at the June 26, 2015 council meeting, for an effective date of July 1, 2015. This will allow E\&P to solicit for nominations beginning in July for all positions on A\&E under the new membership criteria that the CSA recommended. Members will be appointed effective September 15, 2015.

## Alternatives Considered

The rule could remain unchanged, but E\&P believes that the proposed amendments are necessary to align A\&E's additional duties and membership criteria to the needs of the council and to respond to the CSA recommendations that the council (1) charge a new or existing advisory committee with responsibility for reviewing state operations and local assistance expenditures in detail to ensure they are justified and prudent, and (2) provide that the advisory committee is composed of subject-matter experts with experience in public and judicial branch finance.

## Implementation Requirements, Costs, and Operational Impacts

On amendment of the rule, E\&P will solicit nominations for all positions on A\&E under the new membership criteria. This effort will require a special solicitation apart from the general spring solicitation for advisory committee membership nominations. Current members of A\&E will be asked to reapply for appointment to the committee.

## Request for Specific Comments

In addition to comments on the proposal as a whole, $\mathrm{E} \& \mathrm{P}$ is interested in comments on the following:

- Does the proposal appropriately address the stated purpose?

## Attachments and Links

1. Cal. Rules of Court, rule 10.63, at pages 4-5

## Rule 10.63. Advisory Committee on Financial Accountability and Efficiency for the Judicial Branch

(a) Area of focus

The committee makes recommendations to the council on practices that will promote financial accountability and efficiency in the judicial branch.

## (b) Additional duties

In addition to the duties specified in rule 10.34, the committee must:
(1) Make recommendations ammally to the council concerning any planned budget change proposals and other budget concepts for funding of the Administrative Office of the Courts (AOC) Judicial Council that have not already been approved by a Judicial Council advisory body and any propesed changes to the anmual eompensation plan for the AOC Judicial Council staff;
(2) In every odd year, review and report to the council on council expenditures for local assistance (benefiting one or more trial courts) and state operations. For local assistance expenditures and state operations expenditures for trial courts only, the committee must determine whether those expenditures comply with:
(A) Allocations approved by the council; and
(B) Spending guidelines approved by the council and developed by the Trial Court Budget Advisory Committee for the Trial Court Trust Fund and State Trial Court Improvement and Modernization Fund;
(2)(3)Review all audit reports of the judicial branch, recommend council acceptance of audit reports reviewed, and, where appropriate, make recommendations to the council on individual or systemic issues;
(3)(4)In every even year, review and report to the council on AOG Judicial Council contracts that meet established criteria to ensure that the contracts are in support of judicial branch policy; and
(4)(5) Review proposed updates and revisions to the Judicial Branch Contracting Manual.

## (c) Membership

The committee must include members in with experience in public or judicial branch finance from the following categories:
(1) Appellate court justices;
(2) Superior court judges; and
(3) Court executive officers; and
(4) For purposes of the review in (b)(2), the current chair and two other current members of the Trial Court Budget Advisory Committee.

The Galifornia Judges Association will recommend three nominees for a superior court judge position and submit its recommendations to the Executive and Planning Committee of the Judicial Council.

## Advisory Committee Comment

The purpose of the Advisory Committee on Financial Accountability and Efficiency for the Judicial Branch is to promote transparency, accountability, efficiency, and understanding of the AOG Judicial Council and the judicial branch. The advisory committee fosters the best use of the work, information, and recommendations provided by the JOGdicial Council staff, and it promotes increased understanding of the AOC's mission, responsibilities, accomplishments, and challenges of Judicial Council staff.

## Item 4

## Allocation of Benefits Funding for 2015-2016 <br> (Action Item)

## Issue

How should the $\$ 13.4$ million in restored benefit funding requested in 2015-2016 for trial courts that have now made progress towards meeting the Public Employees' Pension Reform Act of 2013 standard (PEPRA) be allocated?

## Background

The 2015-2016 trial court benefits request for inclusion in the May Revise totals $\$ 38.8$ million. The $\$ 3.9$ million decrease from the 2015 Governor's Budget amount of $\$ 42.7$ million is attributed to employee health and retiree health premiums coming in lower than was estimated by courts at the time of the submission of the October 2014 request. Included in the request is an adjustment for any courts' reported negotiated changes in employer paid share (EPS) of employee retirement contribution that occurred in the months since the submission in early October 2014, and is estimated to be $\$ 2.6$ million in addition to the previous adjustment of $\$ 10.8$ million for a total of $\$ 13.4$ million ( $\$ 13.3$ million non-interpreters and $\$ 100,000$ for interpreters).

## Allocation options considered at the March 23, 2015, TCBAC meeting

At the March 23, 2015, TCBAC meeting the Benefits Working Group members presented six options for allocating the restored benefits augmentation among the courts for consideration by the TCBAC. Two options - 3 a and $4 \mathrm{a}-$ were added during the meeting to address concerns expressed by some members that their original recommended option 3 would unfairly penalize courts that had only a minute portion of the employee share of costs for retirement remaining and leave out courts that had made progress on reducing the EPS. The TCBAC reviewed the options presented by the benefits working group and voted unanimously to recommend the approval of Option 3a to the Judicial Council at their next business meeting on April 17, 2015.

The following six options for allocating the restored benefits augmentation among the courts were considered by the TCBAC. All options refer to 2012-2013 and 2013-2014 benefits cost increases and exclude interpreters. The total amount to be allocated for non-interpreters at the time was $\$ 10.4$ million which reflected the 2015 Governor's Budget.

1. Allocate 100 percent pro rata to all courts.
2. Allocate 100 percent pro rata to courts that provide no employee retirement EPS.
3. Allocate 50 percent to all courts and an additional 50 percent to courts that provide no EPS of the employee retirement contribution in 2015-2016. This 50/50 methodology would be done on a one-time basis for 2015-2016. Beginning in 2016-2017, courts that continue to provide EPS of the employee retirement contribution would not share in an

## Item 4

## Allocation of Benefits Funding for 2015-2016 (Action Item)

allocation for any funding provided from trial courts that made progress towards meeting the PEPRA standard.

3a. Allocate by prorating 50 percent of the $\$ 10.4$ million in restored benefits funding to all the trial courts. The additional 50 percent would be prorated (1) to courts that do not pay toward the employee share of costs for retirement in 2015-2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) for courts in which the EPS portion of the employee share of costs for retirement has been reduced in FY 2014-2015 by at least 30 percent, they would receive half of the additional 50 percent allocation. Any court that does not fall into one of the above categories would not share in the additional 50 percent allocation. This 50/50 methodology would be done on a one-time basis for 2015-2016. Beginning in 20162017, courts that continue to provide employee retirement EPS would not share in an allocation for any funding provided from trial courts that made progress towards meeting the PEPRA standard.
4. In 2015-2016, allocate 75 percent to all courts and an additional 25 percent to courts that provide no employee retirement EPS. In 2016-2017, any funding for trial courts that made progress toward meeting the PEPRA standard would be allocated 50 percent to all courts and 50 percent to those courts that do not provide an EPS. Beginning in 2017-2018, courts that continue to provide employee retirement EPS would not share in an allocation for any funding for trial courts that made progress toward meeting the PEPRA standard.

4a. Allocate by prorating 75 percent of the $\$ 10.4$ million in restored benefits funding to all the trial courts. The additional 25 percent would be prorated (1) to courts that do not pay toward the employee share of costs for retirement in 2015-2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) for courts in which the EPS portion of the employee share of costs for retirement has been reduced in FY 2014-2015 by at least 30 percent, they would receive half of the additional 50 percent allocation. Any court that does not fall into one of the above categories would not share in the additional 25 percent allocation. In 2016-2017, any funding for trial courts that made progress towards meeting the PEPRA standard would be allocated 50 percent to all courts and 50 percent-using the same methodology as in prior years - to those courts that do not provide an EPS; or to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases; or to courts in which the EPS portion of the employee share of costs for retirement has been reduced by at least 30 percent.

## Item 4

## Allocation of Benefits Funding for 2015-2016 <br> (Action Item)

Prior to the April 17, 2015 Judicial Council
Judge Earl and Chris Volkers, chairs of the Benefits Working Group did not believe that the presentation made on Option 3a at the March 23 TCBAC meeting accurately described the allocation methodology and more clarification would be needed from the members to confirm if they had voted for Option 3a based on the discussion or on the materials passed out during the meeting. Judge Earl sent out an email on April 10, 2015 to confirm all members vote. There were 14 responses received and the results were split on what members believed they had voted for. Judge Earl decided that it was best to pull the item off the Judicial Council’s April 17 meeting agenda based on the responses and have this go back to the TCBAC for reconsideration.

## Reconsideration of Allocation Methodology Options

The Benefits Working Group met on May 14, 2015 to reconsider the methodology options for the allocation of the $\$ 13.3$ million for non-interpreters of restored benefit funding requested in 2015-2016 for trial courts that have now made progress towards meeting the Administration's PEPRA goals. The members reviewed Option 3a below which was based on the materials passed out during the March 23, 2015, TCBAC meeting and Option 3b which was based on the discussion at that meeting. The members recommended Option 3b, with clarification regarding 2016-2017. The group also recommended adding a timeline for courts that negotiate a 30 percent or more employee retirement EPS reduction in the months after the Department of Finance (DOF) cutoff date (February 18, 2015) since they would not be included in the $\$ 13.3$ million funding restoration for negotiated changes in employee retirement EPS in the 2015 May Revise. Each option reviewed, along with a description of the option, is provided in the Allocation Methodology Options section below.

## Allocation Methodology Options

Option 3a below is based on the materials passed out during the March 23, 2015, TCBAC meeting and Option 3 b is based on the discussion at that meeting. Option 3c has been added to reflect the nuanced differences discussed by the Benefits Working Group on May 14 to make clear the working group's recommended changes to the original version. The total amount to be allocated is $\$ 13.3$ million for non-interpreter employees in the 2015 May Revision.

Please note, the tables of draft allocations provided in Attachments 1 and 2 are only for illustrative purposes to assist in the determination of the methodology. The methodology approved would be applied to the final 2015 Budget Act restored funding.

## Item 4

## Allocation of Benefits Funding for 2015-2016 (Action Item)

3a. Allocate $50 \%$ to all courts; allocate an additional $50 \%$ to courts with no retirement EPS and courts with $10 \%$ EPS of cost increases; and half of the additional $50 \%$ for courts with EPS reduction of $30 \%$ or more.

- Allocate by prorating 50 percent in restored benefits funding to all the trial courts ( $\$ 6.637$ million).
- The additional 50 percent ( $\$ 6.637$ million) would be prorated (1) to courts that do not pay towards the employee share of costs for retirement in 2015-2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) for courts in which the EPS portion of the employee share of costs for retirement has been reduced in FY 2014-2015 by at least 30 percent, they would receive half of the additional 50 percent allocation. (See Attachment 1)
- Any court that does not fall into one of the above categories would not share in the additional 50 percent allocation.
- This 50/50 methodology would be done on a one-time basis for 2015-2016.
- Beginning in 2016-2017, courts that continue to provide employee retirement EPS would not share in an allocation for any funding provided from trial courts that made progress towards meeting the PEPRA standard.
- Courts that do not pay towards the employee share of costs for retirement or courts with EPS amounts of 10 percent or less than cost increases would receive 91 percent of their 2012-2013 and 2013-2014 benefits cost increases. Courts that have reduced the employee share of costs for retirement by 30 percent would receive 84 percent of their 2012-2013 and 2013-2014 benefits cost increases. Courts that do pay towards the employee share of costs for retirement and do not fall into the other categories would receive 78 percent of their 2012-2013 and 2013-2014 benefits cost increases.

3b. Allocate $50 \%$ to all courts; allocate an additional $50 \%$ to courts with no retirement EPS and courts with $10 \%$ EPS of cost increases; and to courts with EPS reduction of $30 \%$ or more.

- Allocate by prorating 50 percent in restored benefits funding to all the trial courts ( $\$ 6.637$ million).
- The additional 50 percent ( $\$ 6.637$ million) would be prorated (1) to courts that do not subsidize the employee share of costs for retirement in 2015-2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) to courts in which the EPS portion of the employee share of costs for retirement has been reduced in FY 2014-2015, by at least 30 percent. (See Attachment 2)
- Courts that do not subsidize the employee share of costs for retirement or courts with EPS amounts of 10 percent or less than cost increases and courts that have reduced

## Item 4

## Allocation of Benefits Funding for 2015-2016 <br> (Action Item)

the employee share of costs for retirement by 30 percent would receive 90 percent of their 2012-2013 and 2013-2014 benefits cost increases. Courts that do pay towards the employee share of costs for retirement and do not fall into the other categories would receive 78 percent of their 2012-2013 and 2013-2014 benefits cost increases.

- This 50/50 methodology would be done on a one-time basis for 2015-2016.
- Beginning in 2016-2017, courts that continue to provide EPS of the employee retirement contribution would not share in an allocation for any funding provided from trial courts that made progress towards meeting the PEPRA standard.

3c. Allocate 50\% to all courts; allocate an additional 50\% to courts with no retirement EPS and courts with $10 \%$ EPS of cost increases; and to courts with EPS reduction of $30 \%$ or more.

- Allocate by prorating 50 percent in restored benefits funding to all the trial courts ( $\$ 6.637$ million).
- The additional 50 percent ( $\$ 6.637$ million) would be prorated (1) to courts that do not subsidize the employee share of costs for retirement in 2015-2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) to courts in which the EPS portion of the employee share of costs for retirement has been reduced in FY 2014-2015, by at least 30 percent. (See Attachment 2)
- Courts will be included in the "additional 50\%" proration if they meet the defined criteria as of May 14, 2015.
- Courts that do not pay towards the employee share of costs for retirement or courts with EPS amounts of 10 percent or less than cost increases and courts that have reduced the employee share of costs for retirement by 30 percent would receive 90 percent of their 2012-2013 and 2013-2014 benefits cost increases. Courts that do pay towards the employee share of costs for retirement and do not fall into the other categories would receive 78 percent of their 2012-2013 and 2013-2014 benefits cost increases.
- This 50/50 methodology would be done on a one-time basis for 2015-2016.
- Beginning in 2016-2017, courts that continue to provide EPS of the employee retirement contribution would not share in an allocation for any funding provided from trial courts that made progress towards meeting the PEPRA standard be reduced by the actual outstanding funding not restored by the DOF that is attributed to their court. This funding will then be distributed to those courts that do not make EPS of employee retirement payments in order to make their benefit cost funding whole.

## Item 4

## Allocation of Benefits Funding for 2015-2016 (Action Item)

## Recommendation

The Benefits Working Group recommends that the TCBAC make a recommendation to the Judicial Council at its June 26, 2015 meeting that the trial courts employee benefits funding contained in the Budget Act of 2014 be allocated using Option 3c. The working group decided to include courts that negotiated a 30 percent or more employee retirement EPS reduction in the months after the DOF cutoff date (February 18, 2015) that were not included in the $\$ 13.3$ million funding restoration for negotiated changes in employee retirement EPS in the 2015 May Revise if those changes were in effect as of May 14, 2015. The group also wanted to clarify language regarding 2016-2017 to ensure courts are fully aware of out-year funding considerations.

Option 3a - Allocate 50\% to all Courts and Allocate Additional 50\% to Courts with No EPS and Courts with $\mathbf{1 0 \%}$ EPS of Cost Increases; \& half of the additional $\mathbf{5 0 \%}$ for Courts with Reduction of EPS of $\mathbf{3 0 \%}$ or More of $\mathbf{\$ 1 3 . 3}$ Million. (Excludes Interpreters)

    ${ }^{4}$ In September 2006, Senate Bill 56 was enacted (Stats. 2006, ch. 390), authorizing 50 new judgeships; funding in fiscal year 2006-2007 was provided for one month and ongoing thereafter.

    ${ }^{7}$ Assembly Bill 2745 (Stats. 2014, ch. 311) amends Government Code section 69614.2 to reflect this change.
    ${ }^{8}$ The 2014 Needs Assessment is based on a three-year average of filings from FY 2010-2011 through FY 20122013.

[^5]:    ${ }^{9}$ The first 50 judgeships shown would be those that were authorized but never funded under AB 159 (Stats. 2007, ch. 722). In 2013, the Judicial Council adopted a recommendation that any new judgeships authorized and funded by the Legislature would be allocated according to the most recent judicial needs assessment. The statute was updated as part of AB 2745 (Stats. 2014, ch. 311).
