INFORMATION TECHNOLOGY ADVISORY COMMITTEE

DATA EXCHANGE WORKSTREAM REPORT

June 10, 2016

DX Workstream – Summary of Events

- Entering 18 Month

- Established Face-to-Face meetings with all key Justice Partners and Case Management System (CMS) providers

    - Department of Motor Vehicles

    - Department of Justice

    - California Department of Corrections and Rehabilitation

    - Department of Child Support Services

    - California Highway Patrol

    - CMS – Tyler Technologies, Thompson-Reuters, Justice Systems, Journal Technologies

DX WORKSTREAM – SUMMARY OF ACTIVITIES CONTINUED

- Through collaborative partnership with Trial Court Chief Information Officers, captured system architecture requirements to establish a single target data exchange for each justice partner agency and all CMS providers for new implementations in the near-term.

- Maintaining dialogue with all partners to facilitate trial courts transitioning to new CMS systems and maintaining continuity with the exchange of information.

- Developed a reference model for a single target data exchange for all justice partner agencies in the future.

DX WORKSTREAM UPCOMING ACTIVITIES

- Building repository to capture justice partner requirements and specifications:
  - Justice partners and CMS vendors will self-update the repository to report to help ensure accuracy and currency of information
  - Access to information will be to authorized users to maintain security and data integrity

DX WORKSTREAM – UPCOMING ACTIVITIES - CONTINUED

- Assemble Governance Subcommittee
  - Validate listing of members by ITAC Leadership
  - Confirm Governance Goals

- Extend Project Timeline
  - To ensure completion, the project is requesting an extension to October, 2016
