The JCTC will review and consider whether to support a list of initial funding requests to be developed as FY19-20 technology budget change proposals (BCPs). The list was formed based on previous input from this committee, as well as from the appellate courts, the Court Executive and Trial Court Presiding Judges Advisory Committees, the Information Technology Advisory Committee, and the Court Information Technology Management Forum. If supported, these ideas would be developed into concept papers. The JCTC would prioritize (or have an opportunity to defer) proposals for submission to the Judicial Council later this year.
