Item 4

IT Modernization Funding for FY 2026–27 (Action Required)

Ms. Lisa Chavez shared results of recent court technology assessments and considerations for setting funding priorities for the program's FY 2026–27 cycle. She presented three ranked priorities proposed for the FY 2026–27 cycle: (1) cyber/information security; (2) case management systems; and (3) infrastructure. The committee discussed the importance of setting expectations for transparency in the funding process (outlined below) and agreed that project applications will be evaluated using a weighted scoring system, including public benefit, collaboration, and alignment with foundational cybersecurity practices.

The committee discussed the following expectations:

- Funding priorities should be shared with courts prior to the launch of the application.
- All project proposals are welcome regardless of alignment with the funding priorities.
- Not all applicant courts will be guaranteed funding, marking a shift from prior years when all applicant courts received funding.
- Not all project proposals submitted in the funding priority areas will be guaranteed funding.
- All project proposals will be ranked based on the new evaluation criteria (i.e., weighted scoring) and courts are encouraged to submit clear, well-supported applications.
- The IT Modernization budget availability is subject to change.
- Funding decision may be impacted by compliance with reporting and expenditure deadlines.

Staff will develop program resources to communicate expectations and support courts in preparing strong submissions.

Action: The committee voted to approve the proposed funding priorities, weighting the court project proposals, and setting expectations for the IT Modernization Local Court Project Funding for FY 2026–27.
