TRIAL COURT BUDGET ADVISORY COMMITTEE

MINUTES OF OPEN MEETING

March 10, 2016

10:04 a.m. - 1:35 p.m.

JCC Boardroom, 455 Golden Gate Avenue, San Francisco, CA 94102

Advisory Body Members Present: Judges: Jonathan B. Conklin (Chair), Hon. Mark Ashton Cope, Hon. Laurie M. Earl, Hon. Barry P. Goode, Hon. James E. Herman, Hon. Joyce D. Hinrichs, Hon. Ira R. Kaufman, Hon. Cynthia Ming-mei Lee, Hon. Paul M. Marigonda, Hon. Glenda Sanders, and Hon. Winifred Younge Smith.

Executive Officers: Ms. Sherri R. Carter, Ms. Rebecca Fleming, Ms. Tammy L. Grimm (telephone), Mr. José O. Guillén, Mr. W. Samuel Hamrick, Jr., Mr. Kevin Harrigan, Mr. Michael D. Planet, Mr. Michael M. Roddy, Ms. Linda Romero-Soles, Mr. Brian Taylor, Ms. Tania Ugrin-Capobianco, Ms. Christina M. Volkens, and Mr. David Yamasaki.

Advisory Body Members Absent: Judges: Hon. Jeffrey B. Barton, Hon. Lesley D. Holland, Hon. Carolyn B. Kuhl, and Hon. Brian L. McCabe.

Executive Officers: Mr. Richard D. Feldstein and Mr. Jeffrey E. Lewis.

Others Present: Judicial Council staff advisory members: Mr. Zlatko Theodorovic, Ms. Lucy Fogarty, Mr. Colin Simpson, Ms. Vicki Muzny, Mr. Patrick Ballard, Mr. Catrayel Wood, and Mr. Steven Chang.

OPEN MEETING

Call to Order and Roll Call

The chair called the meeting to order at 10:04 a.m. Members introduced themselves.

Approval of Minutes

The advisory body reviewed and approved the minutes of the January 14, 2016 Trial Court Budget Advisory Committee (TCBAC) meeting.

DISCUSSION AND ACTION ITEMS

Item 1 – Legislative Analyst’s Office Report on the Governor’s Criminal Justice Proposals for the 2016-2017 Budget (Discussion Item)

Presentation by Deputy Director of Finance: Lucy Fogarty

This was a discussion item with no action taken.

Item 2 – Recommendations of the Funding Methodology Subcommittee (Action Item)

TCBAC members unanimously voted to approve the following four recommendations presented by the Funding Methodology Subcommittee.

1. Approve the current annual update cycles in place for five WAFM components—average court executive officer salary, Federal Bureau of Labor Statistics (BLS) factor, salary driven and non-salary-driven benefits, AB 1058 adjustment, and average RAS-related salary—and update annually the average operating expenses and equipment (OE&E) per full-time equivalent (FTE) by cluster component using a three-year average from 4th quarter Quarterly Financial Statement data through two fiscal years prior.
2. Clarify the designation for three expense codes both included and excluded in the Judicial Council-approved methodology for calculating WAFM OE&E per FTE by excluding the “Air Conditioning/Heating Equipment” and “Facility Planning” Phoenix general ledger expenses and including the “Grand Jury Costs” Phoenix general ledger expense.
3. Designate expense codes with no expenditures in 2011–2012 or created after 2011–2012 and, therefore, not previously considered as part of the Judicial Council-approved methodology for calculating WAFM OE&E per FTE.
4. Exclude expenditures from funds included, but not previously considered or reviewed, in the Judicial Council-approved methodology for calculating WAFM OE&E per FTE that have been determined not to be part of the equivalent, available WAFM funding.

Item 3 – Recommendation of the Ad Hoc Working Group on Fiscal Planning (Action Item)

TCBAC members unanimously voted to approve the following three recommendations presented by the Ad Hoc Working Group on Fiscal Planning.

1. Approve the “Recommended Process for Trial Court Trust Fund Fund Balance Held on Behalf of the Courts”. (Please note in item “e” of the recommended process that the working group is proposing an expenditure augmentation threshold beyond which would require courts to submit an amended request related to a request already approved by the Judicial Council, but is not recommending a specific threshold, the 10% being a placeholder for discussion.)
2. Approve the “Recommended Criteria for Eligibility for TCTF Fund Balance Held on Behalf of the Courts”.
3. Approve the “Recommended Information Required to be Provided by Trial Courts for TCTF Fund Balance Held on Behalf of the Courts”.

Item 4 – Recommendations of the Revenue and Expenditures Subcommittee (Action Item)

Members of TCBAC unanimously voted to approve the following motion from the Revenue and Expenditures Subcommittee

1. For the Telecommunications program in 2016-2017, address the goal of replacing equipment on the schedule through Scenario 3 by either financing the purchase of some equipment or by lease arrangement, with the option of lease vs. finance to be determined by the Administrative Director.

Item 5 – Recommendations of the Court-Appointed Counsel Funding Allocation Methodology Joint Subcommittee (Action Item)

Members of TCBAC considered the following motion:

Motion to suspend the remaining three year phase in re-allocation plan but allocate any new funds to severely underfunded counties, and adopt the recommendation to continue to develop the attorney workload model. Voting as follows.

- All in favor: 5
- Against: 20
- Absent: 5

Motion failed.

The TCBAC Members unanimously voted to approve the following ten recommendations as specified by the joint subcommittee.

1. That attorney salaries used in workload model estimates be based on two factors: (1) the median salary for the first-tier range for county counsel in all counties; and (2) the Bureau of Labor Statistics (BLS) Category 92 index that is used in the Workload Allocation Funding Model (WAFM).

2. That attorney salaries used in the model be updated for each county using the statewide median county counsel salary and the BLS Category 92 index.

3. That benefits costs not be calculated directly by any formula, but that the costs be estimated as 15 percent of total costs or 33 percent of salary costs.

4. That the calculation for overhead costs be revised as follows:

a) Salaries for line attorneys are calculated using the sources described in recommendations 1 and 2 and comprise 45 percent of the total cost.

b) All nonsalary costs (benefits and overhead) comprise 55 percent of the total cost and be estimated on a statewide level as follows:

- i. Social worker/investigator/paralegal staff 10%
- ii. Other salaried workers 15%
- iii. Benefits 15%.
- iv. Operating costs 15%.

5. That annual child caseload will be determined for each court using a weighted metric derived from a court's percentage of total original dependency filings and the court's percentage total of child welfare caseload; that the child caseload metric be weighted by 30% of court filings and 70% of child welfare caseload; and that the caseload metric use a rolling average composed of the previous three years.
6. That the ratio used to estimate parent clients continue to be estimated using the multiplier of 0.8 parent case per 1.0 child case.
7. That a program be established for providing emergency funding to small courts experiencing unexpected short-term caseload increases.
8. That dependency counsel funding is established in statute as a court function.
9. That the caseload standard be set at the alternate standard that is included in the 2007 workload model: 141 cases per attorney without considering investigator or social worker support.
10. That the Family and Juvenile Law Advisory Committee consider a comprehensive update of the attorney workload data and time standards in the current workload model. Since any updates to the workload data and time standards will uniformly impact all trial courts, this pending work should not slow or delay the remaining three-year, phase-in period previously approved by the Judicial Council for implementing the new dependency counsel funding methodology. Rather this recommendation recognizes that a comprehensive update could not be completed within the time frame set by the Judicial Council for final report from the joint committees.

In addition to the ten recommendations approved by Members of TCBAC, the committee also approved the following recommendation:

1. To provide to the Judicial Council materials that provide the 60/40 split so that the Council can see the impact and have information about what happened this year and what will happen next year.

Item 6 – Court Request for a Children’s Waiting Room Distribution (Action Item)

Members of TCBAC unanimously approved the following recommendation:

The Superior Court of California, San Bernardino County is requesting a children’s waiting room (CWR) distribution of \$5 per applicable paid first paper civil fee for filings within the county, effective July 1, 2016, to defray the operating costs associated with two CWRs, which have not yet opened.

Item 7 – TCBAC Annual Agenda (Action Item)

Members of TCBAC unanimously voted to approve the TCBAC annual agenda as presented to E&P

Item 8 – Open Discussion

ADJOURNMENT

There being no further business, the meeting was adjourned at 1:35 p.m.

Approved by the advisory body on enter date.

DRAFT

Item 1 (Discussion Item)

STATEWIDE ISSUES AND VARIOUS DEPARTMENTS

The May Revision includes \$39.4 million General Fund to fund state costs associated with the first scheduled increase. This includes increased state employee wages, increased payments to In-Home Supportive Services providers and community-based service providers for residents with developmental disabilities, increases in Medi-Cal costs, and increases for other costs associated with the new minimum wage allocated through a new statewide Budget Act control section. This also reflects modest savings associated with lower enrollment in Medi-Cal and CalWORKs due to the minimum wage increase's effects on families' incomes.

JUDICIAL BRANCH

The Judicial Branch consists of the Supreme Court, courts of appeal, trial courts, and the Judicial Council. The trial courts are funded with a combination of funding from the General Fund, county maintenance-of-effort requirements, fines, fees, and other charges. Other levels of the Judicial Branch receive most of their funding from the General Fund.

Significant Adjustments:

- Trial Court Civil Case Management System (V3) Replacement—The May Revision includes an additional \$12.4 million General Fund to replace V3 Court Case Management Systems in the Superior Courts in Orange, Sacramento, San Diego, and Ventura counties. This funding will enable these trial courts to establish a digital court foundation by implementing a modern and supportable case management system needed to efficiently deliver services to the public.
- Trial Court Employee Costs—The May Revision includes an additional \$531,000 to reflect health benefit and retirement costs for trial court employees.

OFFICE OF EMERGENCY SERVICES

The principal objective of the Office of Emergency Services (OES) is to protect lives and property, build capabilities, and support communities for a resilient California. The OES collaborates with local governments in preparing for and responding to hazards and threats. During an emergency, the OES functions as the Governor's immediate staff to provide guidance and coordinate the state's responsibilities while responding to disasters such as fires, floods, earthquakes, and terrorism. To support the OES, the May Revision includes total funding of approximately \$1.52 billion (\$208 million General Fund).

Item 2
Recommendations of the Revenue and Expenditure Subcommittee
(Action Item)

Issue

Consider the Revenue and Expenditure Subcommittee's recommendations on 2015–2016 and 2016–2017 allocations from the Trial Court Trust Fund (TCTF) and the State Trial Court Improvement and Modernization Fund (IMF).

Background

Based on meetings held December 14, 2015, February 4, 2016, and May 13, 2016, the Revenue and Expenditure Subcommittee adopted recommendations related to 2015–2016 and 2016–2017 allocations from the IMF and TCTF. The information provided to the subcommittee can be found on the TCBAC webpage at the following URLs:

- December 14, 2015 meeting: <http://www.courts.ca.gov/documents/tcbac-20151214-15-res-materials.pdf>
- February 4, 2016 meeting: <http://www.courts.ca.gov/documents/tcbac-20160204-res-materials.pdf>
- May 13, 2016 meeting: <http://www.courts.ca.gov/documents/tcbac-20160513-res-materials.pdf>

Recommendations

The subcommittee is recommending that TCBAC adopt the following recommendations and request that the Judicial Council consider them at its June 23–24, 2016 meeting:

1. Allocate the following in 2016–2017 from the TCTF:
 - a. \$13.89 million from the TCTF Judicial Council and Trial Court Operations appropriations (see Attachment A),
 - b. \$144.1 million from the Support for Operation of the Trial Courts appropriation (see column E of Attachment B), and
 - c. For the jury reimbursement program, which is allocated from the Support for Operation of the Trial Courts appropriation, direct JCC Finance staff to make, if eligible jury costs exceed the total allocation, a year-end allocation adjustment so that each court receives the same share of the approved allocation based on their share of the statewide allowable jury expenditures.
2. Augment the 2015–2016 allocation of the Trial Court Transactional Assistance Program by \$200,000 and decrease the 2015–2016 allocation of the Regional Office Assistance Group by \$200,000 (see column I of Attachment D).

3. Allocate \$64.46 million (\$6.64 million state operations and \$57.82 million local assistance) in 2016–2017 from the IMF (see column H of Attachment E).
4. Given current revenue estimates, set aside a \$2 million fund balance in the IMF by the end of 2016–2017 as a reserve against possible further declines in revenues.
5. Based on actual 2015–2016 IMF revenue receipts by September 1, 2016, allocate all unrestricted 2015–2016 revenues that exceed the current estimates to the Telecommunications Program.
6. Consistent with actions taken by the Judicial Council Technology Committee on April 14, 2016:
 - a. Endorse the position that all Sustain hosted courts move away from the current IMF subsidized funding structure to an IT administrative program that is funded in a manner consistent with other trial courts throughout the state.
 - b. Endorse “scenario 3: Elimination of the Interim Case Management System and Managed Court Program use of the California Court Technology Center (CCTC), if any use remains at the start of FY 19/20, any such costs are paid by the participating courts.”
 - c. Via the Judicial Council Technology Committee and the Trial Court Budget Advisory Committee, find one-time funding for the support of this effort, as early as the current year.
 - d. Continue to support the Sustain hosted courts in their efforts to acquire a replacement of the outdated Interim Case Management System as a longer term goal, which would further reduce the IMF expenditures.

Discussion of the Recommendations

Recommendation 1, regarding TCTF allocations in 2016–2017, is essentially to maintain the 2015–2016 allocation levels and use the May Revision revenue estimates provided by JCC staff for items funded by restricted revenue.

Recommendation 2, regarding 2015–2016 IMF allocations for TCTAP, which pays for outside counsel defending trial courts in labor arbitrations and PERB matters, is needed to provide sufficient funds to cover all trial court requests for representation.

Recommendation 3, regarding IMF allocations in 2016–2017 (see Attachment E), is mostly to maintain the 2015–2016 allocation levels, and assumes \$8.7 million in General Fund monies will be provided in the Budget Act of 2016 such that \$8.7 million in Phoenix Program costs can be shifted over to the JCC General Fund appropriation. The main exceptions are for projected cost-of-living adjustments for JCC staff, revised cost projections for a few information technology related programs, the elimination of IMF funding (\$20,000) for the Juvenile Law Practice Resources program as courts should pay for these costs on their own if they see value in it, and the elimination of IMF funding (\$143,000) for Court Interpreters Testing and shifting the costs to

the TCTF Court Interpreter appropriation. In addition, the subcommittee is recommending allocating a one-time \$736,500 for a Placer Court Hosting Center. The request was made by a consortium of seven courts. The collaborative plan developed by the ICMS courts and Managed Courts estimates that the proposal endorsed by JCTC will reduce the annual subsidy from the IMF for Sustain and the Managed Court hosting costs (i.e., CCTC costs) from about \$796,959 annually to zero in 2019–2020. A subsidy for the ICMS software support, of approximately \$650,000, is proposed to remain until the ICMS program is fully replaced (via a separate project already underway). The subcommittee also considered funding the proposal from the TCTF but decided it was most appropriate to fund from the IMF.

The subcommittee recommends that \$360,000 be shifted from the allocation for the Regional Office Assistance Group to the TCTAP (\$200,000) and Litigation Management Program (\$160,000).

Recommendation 4 is to set aside a \$2 million fund balance in the IMF by the end of 2016–2017 as a reserve against possible further declines in revenues (see Attachment F). Because of data limitations, current projections for the 50/50 excess revenues may not fully reflect the impact of the amnesty program since those projections must rely on other information than actual revenue, which is only reported once a year. Taking into consideration the highest percentage declines in the prior years between the 50/50 excess revenue and 2% automation fund revenue, an additional 10%, or \$2 million, decline in the 50/50 excess revenue is possible, although not necessarily probable.

Recommendation 5 is to increase the recommended 2016–2017 IMF allocation of \$18.0 million for the Telecommunications Program, and therefore lessen interest charges from financing the purchase of or leasing network equipment, if actual unrestricted revenues in 2015–2016 exceed the current May Revision estimate (see Attachment F). Actual revenues will likely not be known until September 1, 2016. Based on the recommended allocation level and assuming a 3% interest rate, about \$10 million would be financed and would result in estimated interest charges of between \$900,000 to \$1,000,000, which would be paid over a three-year period. JCC IT staff are still working out the details with DGS.

Recommendation 6 is to endorse the actions taken by the JCTC regarding the Intermediate Case Management System program.

18	Appropriation Balance	N/A	N/A	N/A	372,100	2,241,000	2,613,100

1. Provisional language in the State Budget Act for 2015 allows the Judicial Council appropriation authority to be increased for increased revenues that support the Sargent Shriver Civil Counsel Pilot, Equal Access Fund, and Court-Appointed Dependency Counsel Collections. Provisional language also allows up to \$11.274 million to be transferred to the Judicial Council and Trial Court Operations appropriation authority for the recovery of costs for administrative services provided to the trial courts. It is assumed that this provisional authority will continue and be included in the 2016 Budget Act.

Item 3 (revised)
Children's Waiting Room Distribution Request
(Action Item)

Issue

The Superior Court of California, Los Angeles County is requesting an increase in its children's waiting room (CWR) distribution to \$4.75 from \$3 per applicable paid first paper civil fee for filings within the county, effective July 1, 2017, to defray the operating costs associated with nine CWRs. The court is requesting that the council consider its request at the council's June 23–24, 2016 business meeting.

Background

According to Government Code section 70640, after January 1, 2006 a court may apply to the Judicial Council for a CWR distribution between \$2 and \$5, inclusive, from applicable filing fees (see Attachment B). The Judicial Council's policy requires the Trial Court Budget Advisory Committee to adopt a recommendation related to a court's request for council consideration (see Attachment A). The court's request is provided in Attachment E.

Attachment C provides the current distribution amount and total distributions for calendar years 2013, 2014, and 2015 for the 21 courts that had or currently have a CWR distribution. It also provides the estimated additional distribution that the Superior Court of California, Los Angeles County would have received in calendar years 2013, 2014, and 2015 if the court had received a distribution of \$4.75.

Attachment D provides the current distributions from the \$435 first paper general civil unlimited fee for filings in Los Angeles County, and also provides the requested distribution change: a \$1.75 CWR distribution increase and a corresponding \$1.75 decrease to the distribution that supports all courts' base allocation for court operations.

Children's Waiting Room (CWR) Distribution and Fund Balance Policy

A. Applying for a New CWR Distribution

- A court's presiding judge or executive officer must submit a request to the director of the Judicial Council Finance Office 45 days prior to the date of the council meeting at which the court is requesting consideration.
- The request must include the following information:
 - Date of the council meeting at which the court is requesting consideration.
 - Requested effective date of the distribution (July 1 or January 1). If a court wants to begin receiving distributions more than one year in advance of the planned opening date of a CWR, the request should include an explanation of the extenuating circumstance(s).
 - The scheduled opening date of the CWR(s).
 - Description of the CWR(s).
 - The date when the court intends to make expenditures related to operating its CWR(s).
 - The requested distribution amount between \$2 and \$5. Courts can request the Judicial Council Finance Office to provide an estimate of annual distributions.
- The Trial Court Budget Advisory Committee (TCBAC) will make a recommendation to the council on each court's request.
- If the council approves that distributions begin prior to the operating of a CWR but the court does not operate a CWR six months after their planned opening date, the court must apply for a continued distribution.

B. Requesting a Decreased CWR Distribution Amount

- Any court's request to decrease its existing CWR distribution is approved by the Judicial Council and the request can be implemented by Judicial Council staff, effective either January 1 or July 1.

C. Temporarily or Permanently Ceasing CWR Operations

- Courts that cease operating all CWRs must notify the director of the JC Finance Office within 60 days of the cessation date. Unless a court provides notification and submits an application to continue receiving distributions while not operating a CWR within 60 days of the cessation date, the court's CWR distributions will be stopped either January 1 or July 1, whichever is earlier, and the court will be required to return any CWR fund balance to the TCTF.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return of the CWR fund balance will occur on the February trial court distribution for those courts that the CWR distribution stopped on January 1, and on the August distribution for those courts that the CWR distributions stopped on July 1.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.

Revised June 26, 2015

- An application for a continued distribution must include all the information required of courts applying for a new distribution (see section A above) as well as the amount of any CWR fund balance.
- The TCBAC will make a recommendation to the Judicial Council on each court's application.
- For courts that apply and whose application is denied by the Judicial Council, any CWR fund balance shall be returned to the TCTF.

D. Cap on CWR Fund Balance

- Courts shall monitor the CWR distribution amount per filing to ensure it is adequate to meet the CWR needs of the court without accumulating an amount in excess of the cap described below.
- Effective July 1, 2015, there shall be a cap on the amount of CWR fund balance that courts can carry forward from one fiscal year to the next. The cap shall be the amount of the highest annual distribution within the three most recent fiscal years.
- Courts that have a CWR fund balance greater than the cap (as described above) at the end of the fiscal year will be required to return to the TCTF the amount above the cap in the subsequent fiscal year.
- For courts that are required to return the portion of their CWR fund balance above the cap to the TCTF, the return of the CWR fund balance will occur on the August trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the end of the applicable fiscal year.
- The cap applies only to courts that have received at least 12 months of distributions in a fiscal year while operating a CWR.
- If a court wants a cap adjustment, it must submit a request explaining the extenuating circumstance and including its CWR expenditure plan to the director of the JC Finance Office for consideration by the TCBAC and the Judicial Council. The request must be received by the Finance Director within 60 days of the end of the fiscal year for which the adjustment is being requested.
- JC staff will report any return of CWR fund balance through the trial court distribution process to the TCBAC and the Judicial Council.

E. Courts that have Received a Distribution but Never Operated a CWR

- Courts that received distributions between January 1, 2006 and June 30, 2014 but did not operate a CWR during that time period must either apply for a continued distribution by September 26, 2015 or have their distributions stopped and return to the TCTF any CWR fund balance.
- For courts that are required to return all of their remaining CWR fund balance to the TCTF, the return will occur on the October 2015 trial court distribution.
- If there is a dispute between a court and JC staff over the amount of CWR fund balance that should be returned to the TCTF, the dispute will be brought before the TCBAC and the Judicial Council if the two parties cannot come to a resolution within 90 days of the cessation date.

Revised June 26, 2015

Government Code 70640

(a) It is the policy of the state that each court shall endeavor to provide a children's waiting room in each courthouse for children whose parents or guardians are attending a court hearing as a litigant, witness, or for other court purposes as determined by the court. To defray that expense, monthly allocations for children's waiting rooms shall be added to the monthly apportionment under subdivision (a) of Section 68085 for each court where a children's waiting room has been established or where the court has elected to establish that service.

(b) The amount allocated to each court under this section shall be equal to the following: for each first paper filing fee as provided under Section 70611, 70612, 70613, 70614, or 70670, and each first paper or petition filing fee in a probate matter as provided under Section 70650, 70651, 70652, 70653, 70654, 70655, 70656, or 70658, the same amount as was required to be collected as of December 31, 2005, to the Children's Waiting Room Fund under former Section 26826.3 in the county in which the court is located when a fee was collected for the filing of a first paper in a civil action under former Section 26820.4.

(c) Notwithstanding any other provision of law, the court may make expenditures from these allocations in payment of any cost, excluding capital outlay, related to the establishment and maintenance of the children's waiting room, including personnel, heat, light, telephone, security, rental of space, furnishings, toys, books, or any other item in connection with the operation of a children's waiting room.

(d) If, as of January 1, 2006, there is a Children's Waiting Room Fund in the county treasury established under former Section 26826.3, the county immediately shall transfer the moneys in that fund to the court's operations fund as a restricted fund. By February 15, 2006, the county shall provide an accounting of the fund to the Administrative Office of the Courts.

(e) After January 1, 2006, the court may apply to the Judicial Council for an adjustment of the amount distributed to the fund for each uniform filing fee. A court that wishes to establish a children's waiting room, and does not yet have a distribution under this section, may apply to the Judicial Council for a distribution. Applications under this subdivision shall be made according to trial court financial policies and procedures authorized by the Judicial Council under subdivision (a) of Section 77206. Adjustments and new distributions shall be effective January 1 or July 1 of any year beginning January 1, 2006.

(f) The distribution to a court under this section per each filing fee shall be not less than two dollars (\$2) and not more than five dollars (\$5).

(Amended by Stats. 2007, Ch. 130, Sec. 135. Effective January 1, 2008.)

SHERRI R. CARTER
EXECUTIVE OFFICER / CLERK

111 NORTH HILL STREET
LOS ANGELES, CA 90012-3014

Superior Court of California
County of Los Angeles

March 28, 2016

Zlatko Theodorovic
Director of Finance
Members of the Judicial Council of California
455 Golden Gate Avenue
San Francisco, California 94102-3688

Re: Children's Waiting Room Filing Fee Distribution

Dear Mr. Theodorovic and Members:

The Superior Court of California, County of Los Angeles, requests the Trial Court Budget Advisory Committee to recommend to the Judicial Council an increase to the filing fee distribution for Children's Waiting Room services, pursuant to Government Code Section 70640(e), from \$3.00 to \$4.75, effective January 1, 2017. Justification for this request is outlined below.

- The Court currently operates nine Children's Waiting Rooms that are funded through the filing fee distribution.
- Since FY 2009/10, the Court has not received sufficient revenue to fully defray the operating costs related to the Children's Waiting Rooms in Los Angeles County. As a result, fund balance in Children's Waiting Room revenue has been used to offset the increased cost. It is projected this fund balance will be depleted in FY 2016/17.
- The Court's projections indicate that a filing fee distribution increase to \$4.75, effective January 1, 2017, will provide enough revenue to maintain the current level of services at the existing nine Children's Waiting Rooms across Los Angeles County.

If you have any questions or would like additional information, please let me know.

Sincerely,

A handwritten signature in blue ink that reads "Sherri R. Carter".

Sherri R. Carter
Executive Officer/Clerk
Los Angeles Superior Court

Item 4
Workload-Based Allocation and Funding Methodology (WAFM)
(Discussion Item)

Background

In April 2013, the Judicial Council approved the Workload-Based Allocation and Funding Methodology (WAFM) and the use of WAFM to reallocate, by the end of fiscal year 2017–2018, 50 percent of courts’ pre-WAFM base funding and to allocate all new funding for general court operations.¹ In addition, over and above the scheduled reallocation of historical funding (10 percent in 2013–2014, 15 percent in 2014–2015, 30 percent in 2015–2016, 40 percent in 2016–2017, and 50 percent in 2017–2018), additional historical funding would be reallocated up to the amount of any new funding for general court operations received after 2012–2013.

In February 2014, among a few other adjustments to the WAFM computation of funding need, the council approved allocation funding floors for trial courts—absolute and graduated. The absolute funding floor is set at \$750,000. No court’s WAFM-related allocation is permitted to be less than the floor amount. The graduated funding floors are set at \$870,000, \$1,250,000, and \$1,870,000, with a cap on the amount of the allocation adjustment that courts eligible for funding at the graduated-floor level can receive in a given fiscal year.

WAFM Updates for Allocation in 2016–2017

The 2016–2017 WAFM has been updated to include salary and benefit information from courts’ 2015–2016 Schedule 7A (as of 7/1/2015), RAS FTE need based on average filings for the period 2012–2013 to 2014–2015, average operating expenses and equipment (OE&E) expenditure per FTE information from courts’ 2012–2013 to 2014–2015 4th quarter Quarterly Financial Statements, average Bureau of Labor Statistics (BLS) salary data for the calendar years 2012, 2013, and 2014, and AB 1058 funding adjustment from court reimbursement information for 2014–2015. The 2016–2017 WAFM information can be considered final as no further updates are required or scheduled.

The updated WAFM has resulted in a \$30.2 million, or 1.3%, decline in the statewide funding need (see Attachment 4B, column H). The decrease in estimated need was driven primarily by a 3.5% drop in the RAS FTE need from 18,603 to 17,978, a decline partially offset by increases in costs related to the average RAS-related salary (1.8%), OE&E per FTE (0.5%), and the BLS salary adjustments (0.4%). The funding need was also driven down by a decrease in the average salary-driven and non-salary-driven benefits (0.5%). The AB 1058 funding adjustment had a minimal impact on the funding need, decreasing the total need by less than 0.1%.

Attached are the following:

Detail of Funding Floor Allocation Adjustments

- 4J – Estimated 2016–2017 WAFM-Related Base Allocation
- 4K – Determination of Funding Floor Amount (assumes \$20 million in new funding)
- 4L – Floor Allocation Adjustment (assumes \$20 million in new funding)

Change in WAFM-Related Allocations

- 4M – Table 1 -- Estimated Cumulative WAFM Adjustments at 30%, 40%, and 50% (excluding funding floor adjustment) sorted by Column E (lowest to highest)
- 4N – Chart 1 -- Court WAFM-Related Allocation as a % of Court WAFM Total Funding Need (excluding funding floor courts)
- 4O – Chart 2 -- Court WAFM-Related Allocation as a % of Court WAFM Total Funding Need (funding floor courts only)
- 4P – Table 2 -- WAFM-Related Allocation (% of WAFM Need): Actual 2014-15 and 2015-16 and Estimated 2016-17 through 2017-18* Sorted using column K (highest to lowest)
- 4Q – Table 3 -- WAFM Adjustments (including funding floor adjustments)
- 4R – Table 4 -- 2013-14 Base Allocation for Court Operations, Adjustments in 2013-14 through 2016-17
- 4S – Detail and Comparison of Changes in WAFM Need and Components by Court and Cluster

Change in WAFM-Related Allocations as a % of 2016–2017 WAFM Funding Need

As of 2015–2016, \$646 million, or 45 percent of the \$1.44 billion in historical statewide allocation for court operations, has been reallocated based on WAFM: 30 percent related to the third year of the five-year WAFM phase-in and 15 percent related to new funding. The reallocation of courts' historical base funding using WAFM has begun the intended process of equalizing court funding based on workload, specifically as a percentage of each court's WAFM total funding need, bringing some courts away from their funding need level but most courts closer to their funding need level, though at different rates (see 4M). If 100 percent of courts' historical base funding were allocated by WAFM, all courts' funding as a percentage of their total funding need would be exactly the same—and would be less than 100 percent unless and

until the shortfall between the total WAFM need and courts' actual WAFM-related allocation is funded.²

In 2015–2016, excluding the eight courts that were eligible for funding-floor allocation adjustments, courts' funding as a percentage of their WAFM total funding need range from 58.2 percent to 97.8 percent (see 4N). Based on the Governor's funding proposals for 2016–2017, the range will narrow to from 64.1 percent to 97.0 percent. Given the continued phase-in of WAFM and assuming no new funding in 2017–2018, the range could further narrow to from 66.1 percent to 93.8 percent by 2017–2018. For the eight courts that are eligible for funding-floor allocation adjustments, in 2015–2016 these courts' funding as a percentage of their WAFM total funding need range from 83.4 percent to 213.9 percent and is estimated to range from 90.8 percent to 213.9 percent in 2017–2018 (see 4O).

Based on the 2016–2017 WAFM, 36 courts are subject to an allocation reduction and 22 to an allocation increase when their historical base allocation is reallocated under WAFM (see column E2 of 4M). However, because the allocation of new funding can totally offset the reallocation of historical funding, only 11 courts are projected to have a cumulative reduction through 2016–2017 when excluding funding-floor allocations and benefit cost funding. When *including* estimated funding floor allocations and benefit cost funding in 2016–2017, only 5 courts are projected to have a cumulative reduction through 2016–2017. Assuming no new funding in 2017–2018, 12 courts are projected to have a cumulative reduction through 2017–2018 when excluding funding-floor allocations and benefit cost funding. Of the 12, the number of courts that will have a cumulative reduction in 2017–2018 when factoring in benefits funding will depend on the level of benefits funding received by those courts.

The magnitude of reduction or increase from reallocation depends on each court's reallocation ratio, which ranges from 40 percent to 149 percent (see column E of 4M). The ratio represents the amount of funding returned for each dollar of historical funding that is reallocated. A ratio that is less than 100 percent indicates that a court is subject to a reduction when funding is reallocated. For example, a ratio of 50 percent means that a court is to receive 50 cents for every dollar of the court's historical funding that is subject to reallocation, implemented by reducing the court's allocation by 50 cents. A ratio that is greater than 100 percent indicates that a court is subject to an augmentation when funding is reallocated. For example, a ratio of 150 percent means that a court is to receive \$1.50 for every dollar of the court's historical funding that is subject to reallocation, implemented by increasing the court's allocation by 50 cents.

Currently, as of fiscal year 2015–2016, 55 courts' WAFM-related allocation (i.e., courts' allocation related to workload measured by the Resource Assessment Study) is less than their

² The current gap in actual WAFM-related funding versus WAFM needed funding is about \$604 million if certain revenues are excluded from actual WAFM-related funding and about \$379 million if included. *WAFM-related funding* is funding that is related to the workload measured by the Resource Assessment Study (e.g., it excludes security and court interpreter funding).

funding need computed by the 2016–2017 WAFM, ranging from 58.2 percent to 97.8 percent of those courts’ WAFM funding need (see 4P). Three courts’ WAFM-related allocation is greater than their funding need computed by the 2016–2017 WAFM. Two of those courts receive the absolute funding floor of \$750,000, and the third court is eligible for funding up to the graduated floor of \$875,000. The other 5 courts that are eligible for a funding-floor adjustment are currently funded between 83 percent and 98 percent of their total WAFM need. By 2017–2018, 53 courts’ WAFM-related allocation will still be less than their funding need computed by the 2016–2017 WAFM; however, their funding levels will range from 66.1 percent to 97.7 percent of those courts’ WAFM funding need. Nevertheless, 30 courts’ funding levels will have declined from 2016–2017 because of the phase in of the WAFM reallocation at 50 percent and insufficient cumulative new funding to offset the reallocation. The estimate for 2017–2018 assumes that the WAFM funding need in 2017–2018 will be the same as the need in 2016–2017, as well as the following:

- For 2016–2017
 - Reallocation of 40 percent of historical WAFM-related funding
 - \$20 million in ongoing new funding for general court operations (working assumption)
- For 2017–2018
 - Reallocation of 50 percent of historical WAFM-related funding
 - \$0 in ongoing new funding for general court operations (working assumption)

Because they assume zero funding for benefit cost increases, the estimate for 2017–2018 likely understates the level of funding that will be allocated.

Summary of Changes from 2015–2016 to 2016-2017 Total WAFM Funding Need

Description	Change in Variable				Change in WAFM Estimated Need

Item 5
Allocation of New Funding for 2016–2017 Proposition 47 Workload
(Discussion Item)

Issue

Allocation of the \$21.4 million in the 2016 May Revise to address courts' workload associated with Proposition 47 in 2016–2017.

Background

The 2015 Budget included a General Fund augmentation of \$26.9 million for 2015–2016 to address increased workload associated with *Proposition 47, The Safe Neighborhoods and School Funding Act*. The 2015 Governor's Budget proposed an additional \$7.6 million in 2016–2017 for Proposition 47 workload; however, the Legislature did not take action on this portion of the proposal. The initiative, which was approved by California voters November 2014, reduces most possessory drug offenses and thefts of property valued under \$950 to straight misdemeanors; creates a process for individuals currently serving sentences for these offenses to petition the courts for resentencing; and, creates a process for individuals who have completed sentences for these offenses to apply to the courts to have these crimes reclassified as misdemeanors.

On July 28, 2015, the Judicial Council approved the Trial Court Budget Advisory Committee's recommendation for the allocation of this \$26.9 million in new funding¹:

- a. Allocate \$6.73 million based on each court's share of the 10-year average of statewide felony filings;
- b. Allocate \$6.73 million based on each court's share of statewide petitions for resentencing and reclassification from November 5, 2014 to May 31, 2015; and,
- c. Allocate \$13.45 million based on each court's share of statewide petitions for resentencing and reclassification from June 1, 2015 to November 30, 2015 with funding to be distributed in January 2016.

The Judicial Council approved allocation methodology for \$26.9 million in 2015–2016 was based on monthly data time periods; however, in an effort to decrease the data collection workload on the courts, Judicial Council staff incorporated the Proposition 47 data elements into the courts' regular quarterly criminal justice data collection requirements beginning in July 2015. Because the quarterly data collection deadlines did not allow enough time for the second quarter of FY 2015–2016 to be incorporated into the allocation methodology, Judicial Council staff collected data monthly for October and November. Staff also collected the entire second quarter of FY 2015–2016 as part of the quarterly criminal justice data collection process. Because distribution requests must be submitted to the state controller in the first few days of the month, December data was not included in the FY 2015–2016 allocation.

¹ Judicial Council of Cal., mins. (July, 2015), p. 13; see www.courts.ca.gov/documents/jc-20150728-minutes.pdf

2016–2017 Funding

The California Department of Finance (DOF) requested information from Judicial Council regarding the impact of Proposition 47 on the courts in 2016–2017. In response to this request in December 2015, Judicial Council staff submitted a Budget Change Proposal on December 31, 2015 requesting \$21.4 million. The trial courts needed \$13.8 million more than the original 2016–17 allocation of \$7.6 million, for a total of \$21.4 million in 2016–2017. This was based on updated information which reflects that as of June 30, 2015, the courts received over 165,000 petitions for Proposition 47 relief. Courts redirected resources in order to process these cases. The 2015–2016 augmentation assisted the courts by mitigating many of the workload effects of the proposition implementation, but additional help is needed for 2016–2017.

Judicial Council staff estimated prior to Proposition 47 implementation that courts would conduct approximately 120,000 resentencing hearings, which translates to approximately 1.8 million minutes of court time at a cost of \$34.5 million statewide. Subsequently, Judicial Council staff collected data on the actual number of proposition 47 relief petitions received that indicate that the original estimate is low. The revised estimate of court time needed to process Proposition 47 cases is approximately 2.49 million minutes at a total cost of \$48.4 million statewide.

2016–2017 Allocation Options for \$21.4 million

The TCBAC should decide if a portion of the allocation is to be based on historic felony filings trends as was done in 2015–2016 or solely on Proposition 47 filings. The committee will also need to consider the data collection date frames to include in the allocations with the understanding that the data is now collected on a quarterly basis, and whether the funding should be distributed in one allocation or two. Three options for consideration are presented below. Please note, the charts of draft allocations provided in Attachments 1 and 2 are for illustrative purposes for Options 1 and 3a, to assist in the determination of the methodology. The percentages used in the attachments are based on partial data and the May Revise proposed funding allocation. They may not reflect the actual data or available funds that will be used when the allocations are distributed.

Option 1: One distribution based on 1/3 felony filings, 1/3 each court’s proportion of past Proposition 47 petitions for relief, and 1/3 each court’s proportion of most recent Proposition 47 petitions for relief.

- Allocate \$7.13² million based on each court’s share of the 10-year average of statewide felony filings;
- Allocate \$7.13 million based on each court’s share of statewide petitions for resentencing and reclassification from November 5, 2014–November 30, 2015; and,
- Allocate \$7.13 based on each court’s share of statewide petitions for resentencing and reclassification from most recent 6 months of data available (October 1, 2015–March 1, 2016³).

² Figures are rounded.

³ Note that there is some overlap in the data time frames due to the fact that data are now collected on a quarterly schedule, rather than monthly.

Option 2: One distribution based on each court's proportion of past Proposition 47 petitions for relief.

- Allocate \$21.4 million based on each court's share of statewide petitions for resentencing and reclassification from November 5, 2014–March 1, 2016.

Option 3: Two distributions, with the first distribution based on one of the options listed above.

Option 3(a) Two distributions using the methodology described in Option 1

First Distribution July 2016: \$10.7 million

- Allocate \$3.57 million based on each court's share of the 10-year average of statewide felony filings;
- Allocate \$3.57 million based on each court's share of statewide petitions for resentencing and reclassification from November 5, 2014–November 30, 2015; and,
- Allocate \$3.57 based on each court's share of statewide petitions for resentencing and reclassification from most recent 6 months of data available (October 1, 2015–March 1, 2016).

Second Distribution January 2017: \$10.7 million

- Allocate \$10.7 million based on each court's share of statewide petitions for resentencing and reclassification from most recent 6 months of data available in January 2017 (April 1, 2016–September 30, 2016).

Option 3(b) Two distributions using the methodology described in Option 2

First Distribution July 2016: \$10.7 million

- Allocate \$10.7 million based on each court's share of statewide petitions for resentencing and reclassification from November 5, 2014–March 1, 2016.

Second Distribution January 2017: \$10.7 million

- Allocate \$10.7 million based on each court's share of statewide petitions for resentencing and reclassification from most recent 6 months of data available in January 2017 (April 1, 2016–September 30, 2016).

Item 6
Allocation of New Funding for 2015–2016 Benefit Cost Changes
(Discussion Item)

Issue

Allocation of the \$16.1 million in employee benefits funding requested for included in the 2016 May Revise.

Background

In the fall of 2015, a budget augmentation in the amount of \$15.6 million was submitted to the Department of Finance (DOF) to address the full-year impact to the trial courts in 2016–2017 of changes in costs for retirement, retiree health, and employee health that were anticipated to occur in 2015–2016. Many of the health-related costs were unconfirmed at that time. The understanding was that a revised request would be submitted in mid-March 2016 that would have updated, confirmed amounts. The Governor’s Proposed Budget included the entire \$15.6 million. Of this amount, \$7.4 million was to restore the remaining needed portion of the \$22 million reduction included in the Budget Act of 2014 (Stats. 2014, ch. 25), which had been based on the DOF estimate of what the trial courts were currently spending to cover the employee share of costs for retirement. Additional courts had negotiated with employee unions to either eliminate or reduce the amount they were contributing to the employee share of retirement (EPMC). The \$7.4 million was an acknowledgement that courts were continuing to make progress towards meeting the Public Employees’ Pension Reform Act of 2013 standard (PEPRA).

The \$16.1 million in the 2016 May Revise submission reflects an increase in the augmentation of \$0.5 million from the Governor’s initial proposal, which is attributed to employee and retiree health premiums and/or employer share amounts coming in lower than estimated by courts at the time of original submission. The amount provided for retirement reduction restoration increased from \$7.4 million to \$7.5 million (\$7.1 million non-interpreters and \$446,000 for interpreters).

\$8.6 million for 2015-2016 Benefit Cost Changes

A total of \$8.6 million of the \$16.1 million May Revise request is specifically to address increase cost changes for retirement, health, and retiree health benefits. Of this amount, \$8.5 million is to augment Trial Court Trust Fund (TCTF) Program 0150010 Court Operations and \$157,000 is to augment the TCTF Court Interpreter Program 0150037 (formerly Program 45.45) appropriation, which is allocated by region and not by individual trial court. (See Attachment A)

There were seven courts that had unconfirmed employee or retiree health premiums or employer share amounts as of the date the updated cost changes were given to the DOF in March 2016. Of these seven, two courts are now confirmed. For one of the courts, the costs remain unchanged, while the cost changes for the other court has increased by \$4,000 for employee health. The cost changes for the remaining five courts—health and retiree health—still remains unconfirmed for

2015–2016. The spring 2016 benefit request submitted for inclusion in the May Revise includes a total of \$1.016 million for these five courts.

\$7.5 million in Restored Benefits Funding

In the fall of 2013, a budget change proposal in the amount of \$64.8 million was submitted to the DOF to address the ongoing cost to the trial courts in 2014–2015 of the retirement, employee health, and retiree health cost changes that occurred in 2012–2013 and were anticipated to occur in 2013–2014. The 2014 Budget Act included an augmentation of \$42.8 million specifically for the benefit cost changes in 2012–2013 and 2013–2014, which took into account a reduction in the amount of \$22 million, based on the DOF estimate of what the trial courts were currently spending to cover the employee share of costs for retirement. The Judicial Council at its July 29, 2014, meeting approved the TCBAC recommendation allocating the new benefits funding by prorating \$41.0 million (non-interpreters) to the trial courts based on each court's percentage of the total 2012–2013 and 2013–2014 benefits cost change of \$61.3 million (non-interpreters). (The remaining \$1.8 million in new benefits funding was for court interpreter benefits, and staff coordinated with the Department of Finance to augment the TCTF Court Interpreter Program 0150037 appropriation.)

The 2015 Budget Act included a total of \$38.8 million for benefits, \$25.4 million in funding for retirement, retiree health, and employee health cost increases, and \$13.4 million (\$13.3 million non-interpreters and \$100,000 for interpreters)¹ for trial courts that had made progress towards meeting the Public Employees' Pension Reform Act of 2013 standard (PEPRA). The Judicial Council at its June 26, 2015, meeting approved the TCBAC recommendation for allocating the \$13.3 million for 2015–2016, and for the allocation of funding in 2016–2017:

2015–2016

Allocate 50 percent to all courts; allocate an additional 50 percent to courts with no retirement EPS and courts with 10 percent EPS of cost increases; and to courts with EPS reduction of 30 percent or more.

- Allocate by prorating 50 percent in restored benefits funding to all the trial courts (\$6.637 million).
- The additional 50 percent (\$6.637 million) would be prorated (1) to courts that do not pay towards the employee share of costs for retirement in 2015–2016, (2) to courts where only 10 percent or less is paid towards the employee share of retirement of total costs increases, and (3) to courts in which the employer-paid portion of the employee share of costs for retirement has been reduced in FY 2014–2015 by at least 30 percent.
- Courts will be included in the additional 50 percent proration if they meet the defined criteria as of May 14, 2015.
- Courts that do not pay towards the employee share of costs for retirement or courts with employer-paid share (EPS) amounts of 10 percent or less than cost increases, and courts

¹ The remaining \$128,000 in restored benefits funding is for court interpreter benefits, and was appropriated to TCTF Court Interpreter Program 0150037.

that have reduced the employee share of costs for retirement by 30 percent would receive 90 percent of their 2012–2013 and 2013–2014 benefits cost increases. Courts that do pay towards the employee share of costs for retirement and do not fall into the other categories would receive 78 percent of their 2012–2013 and 2013–2014 benefits cost increases.

- This 50/50 allocation methodology would be done on a one-time basis for 2015–2016.

2016–2017

- Beginning in 2016–2017, courts that continue to provide EPS of the employee retirement contribution would be reduced by the actual outstanding funding not restored by the DOF that is attributed to their court. This funding will then be distributed to those courts that do not make EPS of employee retirement payments in order to make their benefit cost funding whole.

Based on the council approved allocation methodology for 2016-2017, all courts that no longer pay any portion of the employee's share of costs for retirement would be fully funded for their 2012–2013 and 2013–2014 benefits cost increases. In order to achieve this an amount of \$5.9 million in new funding is needed. If this amount is not received, the courts that continue to contribute towards the employee's share would be reduced.

The 2016 May Revise request submission includes a total of \$7.5 million (\$7.1 million for non-interpreters and \$446,000 for interpreters) for trial courts that have made progress towards meeting PEPRA. If the \$7.1 million (non-interpreter) funding is included in the 2016 Budget Act, a total amount of \$20.3 million (non-interpreters) will have been restored and the trial courts would be made whole for their 2012–2013 and 2013–2014 benefits cost increases. There will be sufficient funding available for courts that no longer pay any portion of the employee's share of retirement costs to now be fully funded for their 2012–2013 and 2013–2014 benefits cost increases. (See Attachment 2, column G) The balance remaining of \$1.2 million would also be enough to fund the \$1.14 million needed to restore the courts that still contribute at least some portion of the employee's share of costs for retirement to be fully funded. (See Attachment 2, column H).

Recommendation

1. Approve the allocation of \$8,452,388 to the trial courts of the non-interpreter benefit cost changes funding based on confirmed rates, as indicated in column D of Attachment 1.
2. Approve the allocation of \$7,017,290 to the trial courts to make them whole for their 2012–2013 and 2013–2014 (non-interpreters) benefits cost increases, as indicated in column J of Attachment 2.
