### (Action Item)

Title:	\$60 Million One-Time COVID-Driven Caseload Backlog Funding
Date:	August 5, 2021
Contact:	Ms. Oksana Tuk, Senior Analyst, Judicial Council Budget Services 916-643-8027   <u>oksana.tuk@jud.ca.gov</u>

### Issue

Consider options for allocating the \$60 million one-time COVID-driven caseload backlog funding included in the 2021 Budget Act for Judicial Branch Budget Committee consideration at its August 13, 2021 meeting and for Judicial Council consideration at its October 1, 2021 business meeting.

### **Background**

### Prior Year \$50 Million One-Time COVID-19 Backlog Funding

The 2020 Budget Act included \$50 million in one-time funding to assist courts in addressing the backlog of filings that have accumulated due to court closures in response to the COVID-19 pandemic. These funds were eligible for expenditure only for the 2020-21 fiscal year.

The first \$25 million was approved for allocation to the trial courts at the July 24, 2020 Judicial Council meeting, on a pro rata basis<sup>1</sup>. At its January 22, 2021 business meeting, the Judicial Council approved an allocation methodology for distribution of the second \$25 million that was data driven, allocating funds proportionally based on each court's share of total statewide backlog. The backlog was measured using a weighted count of dispositions in the pre-pandemic period compared to a pandemic period<sup>2</sup>. The net change in average dispositions from these two points of time were used to identify those courts eligible for funding, and proxies based on statewide averages were used where necessary.

One court, Sierra, did not receive funding as part of the data-driven methodology. In addition, six courts returned funds that were not needed for a redistribution that occurred at the end of the 2020-21 fiscal year<sup>3</sup>.

### Current Year \$60 Million One-Time COVID-Driven Caseload Backlog Funding

The 2021 Budget Act includes \$60 million in one-time General Fund for the trial courts to specifically address backlogs and workload delays resulting from the COVID-19 pandemic, with the funding available for expenditure through the 2022-23 fiscal year.

Case data was provided to the Administration and Legislature during budget negotiations to demonstrate the backlog and was the basis for this funding augmentation; that data is used here and is court-specific for allocation purposes.

### Data Updates

For allocation of the \$60 million one-time funding, the data elements used towards last year's methodology have been upgraded to include filings data by casetype to determine the clearance rate. In addition, the data compares clearance rates from March to August 2019 (pre-pandemic) to those of March 2020 to March 2021 which captures all pandemic impact, and applies pre-pandemic clearance rates to pandemic sums of filings less dispositions to identify the casetypes in which a backlog exists.

These identified areas of backlog for each court are then included in the methodology to determine the proportional allocation of funding. For those courts unable to report complete disposition and filings data for the time period noted, proxies were applied to those courts for each time period to establish those courts' backlog for the purpose of allocating funds.

Case data collection by the branch will continue and updated data will be evaluated to determine progress made by the trial courts in addressing the workload backlogs related to the pandemic.

The outcome in applying available data through March 2021 to the allocation methodology is outlined in Attachment A.

### **Quarterly Reporting**

At its January 22, 2021 business meeting, the Judicial Council approved quarterly reporting by the trial courts on the progress in reducing the COVID-19 related backlog<sup>4</sup>. The first quarterly report was provided to the council as an informational item at its July 9, 2021 business meeting<sup>5</sup>. The report includes progress in reducing COVID-19 backlog from March 2020 to March 2021. Quarterly informational reporting on COVID-19 backlog progress will continue.

### **Methodology Considerations**

<sup>4</sup> Judicial Council report (January 22, 2021)

https://jcc.legistar.com/View.ashx?M=F&ID=9054988&GUID=54812C82-983E-4812-848C-2F4FD9F6F97A <sup>5</sup> Judicial Council report (July 9, 2021),

The 2021-22 Budget narrative states that the \$60 million in one-time funding is for the trial courts to specifically address backlogs and workload delays resulting from the pandemic. Two options were considered using court specific backlog data:

- A. Split the allocation and allocate \$30 million in October 2021 based on data available through March 2021 and allocate the second \$30 million in January 2022 based on the most recent data available at the time (both after council approval). Given that courts are continuing to make progress in addressing the backlog, this option would allocate funding in two phases utilizing the most current backlog data available at the time of distribution; or
- B. Allocate the full \$60 million in October 2021 (and after council approval) based on data available through March 2021.

### **Recommendation**

The Chair of the Trial Court Budget Advisory Committee recommends allocation of \$30 million in October 2021 based on data available through March 2021 and allocation of the second \$30 million in January 2022 based on the most recent data available at the time for Judicial Branch Budget Committee consideration at its August 13, 2021 meeting and for Judicial Council consideration at its October 1, 2021 business meeting.

Title:	\$140 Million Pretrial Funding
Date:	August 5, 2021
Contact:	Deirdre Benedict, Supervising Analyst, Judicial Council, Criminal Justice Services, <u>deirdre.benedict@jud.ca.gov</u> , 415-865-7543

### Issue

The 2021-22 Budget provides funding of \$140 million in 2021-22, and \$70 million in ongoing funding to the Judicial Council for distribution to the courts for the implementation and operation of ongoing court programs and practices that promote the safe, efficient, fair, and timely pretrial release of individuals booked into jail.

Each court may retain up to 30 percent of the funding for costs associated with pretrial release programs and practices. Courts are required to contract for pretrial services with their county's probation department or any county department or agency other than those that have primary responsibility for making arrests or prosecuting criminal offenses,<sup>1</sup> and provide those departments with the remainder of the funds.

The current annual budget available to the courts for the Pretrial Release Program is \$137.9 million.<sup>2</sup>

Judicial Council Criminal Justice Services (CJS) staff present the 2021-22 allocations of the Pretrial Release funding for Judicial Branch Budget Committee consideration at its August 13, 2021 meeting and for Judicial Council consideration at its October 1, 2021 business meeting.

### **Background**

Senate Bill (SB) 129 (Stats. 2021, ch. 69), which amended the Budget Act of 2021, provides funding for "the implementation and operation of ongoing court programs and practices that promote the safe, efficient, fair, and timely pretrial release of individuals booked into jail." (SB 129, sec. 4, item 0250-101-0001, provision 9.) SB 129 appropriates funding of \$140 million in 2021-22, and \$70 million in ongoing funding to the Judicial Council for distribution to the courts for these purposes.

<sup>&</sup>lt;sup>1</sup> SB 129 specifically provides that the Superior Court of California, County of Santa Clara, may contract with the Office of Pretrial Services in that county, and that the Superior Court of California, County of San Francisco, may contract with the Sheriff's Office and the existing not-for-profit entity that is performing pretrial services in the city and county for pretrial assessment and supervision services.

 $<sup>^{2}</sup>$  SB 129 authorizes the Judicial Council to retain up to 5 percent of the amounts available to the courts for costs associated with implementing, supporting, and evaluating pretrial programs in courts.

### **Funding Methodology**

SB 129 specifies two formulas for the Judicial Council to use in distributing pretrial release program funding.

### One-Time Pretrial Release Funding for Non-Pretrial Pilot Program Courts

Half of the budget year funding (\$70 million) is to be distributed to the 41 courts that did not receive Pretrial Pilot Program funding (provided in the Budget Act of 2019), with funding allocated to the courts based on each county's relative proportion of the state population 18 to 25 years of age. The funds are available for encumbrance or expenditure for three fiscal years, until June 30, 2024. The breakdown for these one-time funds is reflected in Attachment A.

### Ongoing Pretrial Release Funding for All Courts

The Judicial Council is required to distribute the remaining \$70 million in budget year funding to *all* courts based on each county's relative proportion of the state population 18 to 25 years of age. These funds must be encumbered or expended by June 30, 2022. It is anticipated that allocation of the ongoing \$70 million in pretrial release program funding for all the superior courts will be based on the same formula in future years. The breakdown for these ongoing funds is reflected in Attachment B.

### Funding Floor

A minimum funding floor of \$200,000 is recommended for both funding formulas. This recommendation is based on analysis of planned budgets vs. actual spending by small courts<sup>3</sup> participating in the Pretrial Pilot Program in 2019-20 and 2020-21. It is also equivalent to the floor used in the funding methodology for California Community Corrections Performance Incentives Act of 2009 (SB 678)<sup>4</sup>. This floor will ensure that both small and small/medium courts have the resources necessary to comply with the legislation.

### **Recommendation**

Approve the 2021-22 Pretrial Release allocations for recommendation to the Judicial Branch Budget Advisory Committee at its August 13, 2021, meeting for consideration by the Judicial Council at its October 1, 2021, business meeting, as outlined in Attachment C.

### (Action Item)

Title:	Child Support: \$4.45 Million AB 1058 Reimbursement Authority Increase
Date:	8/5/2021
Contact:	Anna L. Maves, AB 1058 Program Manager, Center for Families Children and the Courts, 916-263-8624, <u>anna.maves@jud.ca.gov</u>

### Issue

Consider recommendations for the allocation of an additional and ongoing \$4.45 million in base funding for the AB 1058 Child Support Commissioner (CSC) and Family Law Facilitator (FLF) program based on current funding methodologies and approve a technical adjustment to 2021-22 CSC base allocations.

### **Background**

The Judicial Council is required to annually allocate non-trial court funding to the AB 1058 program and has done so since 1997.<sup>1</sup> A cooperative agreement between the California Department of Child Support Services (DCSS) and the Judicial Council provides the funds for this program and requires the council to annually approve the funding allocation. Two-thirds of the funds are federal, and one-third comes from the state General Fund (non-trial court funding). Any funds left unspent at the end of the fiscal year revert to the state General Fund and cannot be used in subsequent years.

In 2015, the AB 1058 Funding Allocation Joint Subcommittee was formed to review the historical AB 1058 program funding methodology. On January 16, 2019, the Judicial Council approved a new workload-based funding methodology for the CSC program and maintained the historical FLF funding methodology until 2021–22 as recommended by the subcommittee.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> Assembly Bill 1058 added article 4 to chapter 2 of part 2 of division 9 of the Family Code, which at section 4252(b)(6) requires the Judicial Council to "[e]stablish procedures for the distribution of funding to the courts for child support commissioners, family law facilitators pursuant to [Family Code] Division 14 (commencing with Section 10000), and related allowable costs."

<sup>&</sup>lt;sup>2</sup> More details can be found in the Judicial Council report for the January 2019 meeting: Judicial Council of Cal., Advisory Com. Rep., *Child Support: AB 1058 Child Support Commissioner and Family Law Facilitator Program Funding Allocation* (Nov. 21, 2018), <u>https://jcc.legistar.com/View.ashx?M=F&ID=6953308&GUID=A6F15A78-08B6-42DA-8826-19A6AF0B7CB1.</u>

On July 9, 2021, the Judicial Council approved a new population-based methodology for the FLF program and maintained the workload-based methodology with updated workload data for the CSC program.<sup>3</sup>

### **Child Support Commissioner Additional Funds Allocation**

Except for a onetime funding reduction in 2020-21, the base funding allocation for the CSC program has been \$31.62 million since 2008-09, representing 75 percent of total AB 1058 program base funds.<sup>4</sup> The Judicial Council's cooperative agreement with the DCSS for fiscal year 2021–22 designates \$3.34 million in additional funds for the CSC program (75 percent of the \$4.45 million) resulting in a new base funding allocation of \$34.96 million.

There are two models for consideration to allocate the additional \$3.34 million for the CSC program. Both are based on the current workload-methodology approved by the Judicial Council on January 16, 2019. The CSC methodology uses the same workload and cost structures as the Workload Formula used to distribute trial court funds. The methodology maintains current funding levels for smaller courts and caps any increases or decreases to funding at five percent in order to distribute available funds without administering any severe decreases to funding that would impact a court's ability to continue operating their CSC program.<sup>5</sup>

### CSC Option 1

Option 1 uses the current CSC methodology to prorate the additional funds to all courts based on their percent of funding need. In order to address the needs of courts with the highest need, it does not limit increases to five percent. See Attachment A1.

### CSC Option 2

Option 2 also uses the current CSC methodology but only prorates funds to courts whose current allocation is less than the funding need determined by the methodology. In order to address the needs of courts with the highest need, it does not limit increases to five percent. See Attachment A2.

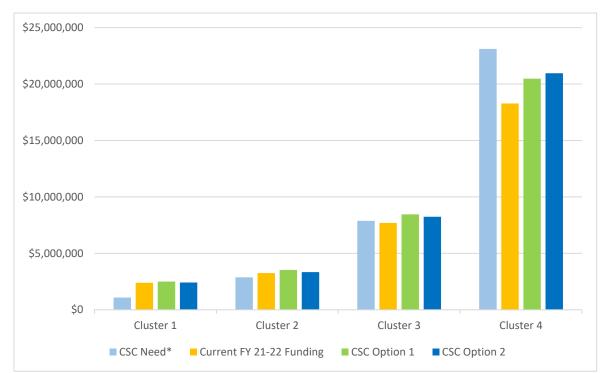

<sup>&</sup>lt;sup>3</sup> More details can be found in the Judicial Council report for the July 2021 meeting: Judicial Council of Cal., Advisory Com. Rep., *Child Support: Updating Workload Data for the AB 1058 Child Support Commissioner Funding Methodology, Adopting a Family Law Facilitator Program Funding Methodology, and Adopting 2021–22 AB 1058 Program Funding Allocations* (May 14, 2021), https://jcc.legistar.com/View.ashx?M=F&ID=9508521&GUID=BC737E96-AFD8-4E22-A046-AE9E16A5C422.

<sup>&</sup>lt;sup>4</sup> Historically, AB 1058 program funds have been allocated to the courts as follows: 75 percent to the CSC program and 25 percent to the FLF program.

<sup>&</sup>lt;sup>5</sup> More details can be found in the Judicial Council report for the January 2019 meeting: Judicial Council of Cal., Advisory Com. Rep., *Child Support: AB 1058 Child Support Commissioner and Family Law Facilitator Program Funding Allocation* (Nov. 21, 2018), <u>https://jcc.legistar.com/View.ashx?M=F&ID=6953308&GUID=A6F15A78-08B6-42DA-8826-19A6AF0B7CB1.</u>

### **Family Law Facilitator Additional Funds Allocation**

Except for a onetime funding reduction in 2020–21, the base funding allocation for the FLF program has been \$10.79 million since 2008-09, representing 25 percent of total AB 1058 program base funds. The Judicial Council's cooperative agreement with the DCSS for fiscal year 2021–22 designates \$1.11 million in additional funds (25 percent of the \$4.45 million) resulting in a new base funding allocation of \$11.90 million.

Like the CSC program, there are two models for consideration to allocate the additional \$1.11 million for the FLF program, both of which are based on the current population-based methodology approved by the Judicial Council on July 9, 2021. The FLF funding methodology allocates a base amount of \$34,000 to all courts and then allocates the remainder of funds by county population. Mirroring the CSC methodology, the FLF methodology has the same protections for smaller courts and implements a five percent cap on funding changes.<sup>6</sup>

### FLF Option 1

Option 1 follows the current FLF methodology to prorate the additional funds to all courts based on their percent of statewide population. In order to address the needs of courts with the highest need, it does not limit increases to five percent. See Attachment B1.

### FLF Option 2

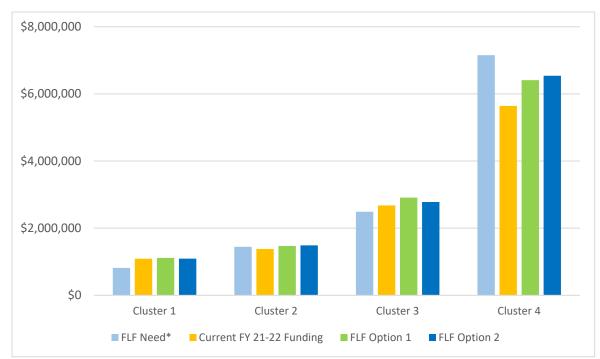

Option 2 is also based on the current FLF methodology but only prorates additional funds to courts whose current allocation is less than the allocation determined by the methodology. In order to address the needs of courts with the highest need, it does not limit increases to five percent. See Attachment B2.

Rep., Child Support: Updating Workload Data for the AB 1058 Child Support Commissioner Funding Methodology, Adopting a Family Law Facilitator Program Funding Methodology, and Adopting 2021–22 AB 1058 Program Funding Allocations (May 14, 2021),

### **Recommendations**

- 1. Allocate additional funding to the CSC program for 2021–22, and a technical adjustment to a small number of courts' base allocation approved by the Judicial Council on July 9, 2021, as set forth in Attachment A1. This allocation distributes 75 percent of the \$4.45 million to the CSC program. The additional funds are prorated to need as determined by the current workload-based funding methodology approved by the Judicial Council on January 16, 2019.
- Allocate additional funding to the FLF program for 2021–22 as set forth in Attachment B1. This allocation distributes 25 percent of the \$4.45 million to the FLF program. The additional funds are prorated to need as determined by the current population-based funding methodology approved by the Judicial Council on July 9, 2021.

Title:	Annual Funding Methodology Subcommittee (FMS) Work Plan Update
Date:	8/5/2021
Contact:	Catrayel Wood, Senior Analyst, Budget Services 916-643-7008   <u>Catrayel.Wood@jud.ca.gov</u>

### Issue

Consideration of a FMS recommendation on updates to the annual work plan.

### **Background**

The FMS prepares an annual work plan to direct its efforts in developing and refining the Workload Formula as well as other methodologies including self-help, court-appointed dependency counsel, and interpreter funding, for approval by the Trial Court Budget Advisory Committee (TCBAC) every year.

The current work plan, as approved on July 16, 2020, is provided as Attachment 4A.

### **Recommendation**

It is recommended that the TCBAC approve the updated annual work plan recommended by the FMS as follows:

- 1. Move as ongoing through 2021-22: Items 1, 2, and 3.
- 2. Update the language for item 2 based on recent changes to the interpreter funding model.
- 3. Track the work of the Family and Juvenile Law Advisory Committee to ensure implementation of an allocation methodology for the AB 1058 Child Support Family Law Facilitator Program in 2022-23.

An updated work plan as proposed is included as Attachment 4B.

### FUNDING METHODOLOGY SUBCOMMITTEE WORK PLAN As Approved by the Trial Court Budget Advisory Committee on July 16, 2020

### Charge of the Funding Methodology Subcommittee

Focus on the ongoing review and refinement of the Workload Formula, develop a methodology for allocations from the Trial Court Trust Fund Court Interpreter Program (0150037) in the event of a funding shortfall, and consider funding allocation methodologies for other non-discretionary dollars as necessary.

### 2020-21

- 1. Identify and evaluate the impact of Judicial Council-provided services versus those that are funded by local trial court operations funds.
- 2. Develop a methodology for reimbursement of expenditures for the Court Interpreter Program in the event of a funding shortfall.
- 3. Initiate an ad hoc subcommittee to reevaluate the cluster system and floor funding.

### **Ongoing Through 2021-22**

4. Track the work of the Family and Juvenile Law Advisory Committee to ensure implementation of an allocation methodology for the AB 1058 Child Support Family Law Facilitator Program in 2022-23.

### **Annual Updates**

5. Review the base funding floor amounts annually, if requested by the applicable courts, for presentation to the TCBAC no later than December, to determine whether an inflationary adjustment is needed.

Title:	Trial Court Executive Summary Display
Date:	8/5/2021
Contact:	Oksana Tuk, Senior Analyst, Judicial Council Budget Services 916-643-8027   <u>oksana.tuk@jud.ca.gov</u>

#### Issue

Provide the updated single-court executive summary display for 2021-22 trial court allocations, including the Workload Formula.

#### **Background**

At its July 25, 2019 meeting, the Trial Court Budget Advisory Committee (TCBAC) approved a single-court executive summary display for each court that includes current allocation highlights, comparisons to prior year, and relevant statewide perspectives for reference.

The allocation information is updated each fiscal year based on funding changes included in the final budget and Judicial Council approved allocations. For 2021-22, the display includes, but is not limited to, each court's share of \$167.8 million in restoration funding, \$72.7 million in new funding to address inflationary cost increases, \$60 million in one-time funding for COVID-related caseload backlogs, as well as funding for pretrial services and court-appointed dependency counsel. The summary documents are preliminary until all allocations are approved by the council. The TCBAC allocation recommendations for the \$60 million for COVID backlog and the pretrial funding, included in agenda Item 1 and Item 2, will be considered by the Judicial Branch Budget Committee at its August 13, 2021 meeting and the Judicial Council at its October 1, 2021 business meeting.

For illustrative purposes, three examples of the executive summary are provided and represent a large court (Alameda, Attachment A), a medium court (Monterey, Attachment B), and a small court (Yuba, Attachment C).

Allocation details for each court are available in the 2021-22 Trial Court Trust Fund and trial court allocations approved by the Judicial Council at its July 9, 2021 business meeting.<sup>1</sup>

Title:	Trial Court Trust Fund (TCTF) Funds Held on Behalf Expenditure Reporting
Date:	8/5/2021
Contact:	Catrayel Wood, Senior Analyst, Judicial Council Budget Services 916-643-7008   <u>Catrayel.Wood@jud.ca.gov</u>

#### Issue

Upon completion of TCTF Funds Held on Behalf (FHOB) projects or planned expenditures, courts are required to report to the Trial Court Budget Advisory Committee (TCBAC) within 90 days on the project or planned expenditure and how the funds were expended.

#### **Background**

Government Code section 68502.5(c)(2)(A) requires the Judicial Council, when setting the allocations for trial courts, to set a preliminary allocation in July of each fiscal year. In January of each fiscal year, after review of available trial court reserves as of June 30 of the prior fiscal year, the Judicial Council is required to finalize allocations and each court's final allocation is offset by the amount of reserves that exceed the amount authorized to be carried over pursuant to Government Code section 77203(b). Under this section, a trial court may, beginning June 30, 2014 and concluding June 30, 2019, carryover unexpended funds in an amount not to exceed 1 percent of the court's operating budget from the prior fiscal year. Effective June 30, 2020, the carryover amount increased to 3 percent.

At its business meeting on July 29, 2014, the Judicial Council, approved an annual process beginning in 2015-16 for courts to provide preliminary and final computations of the portion of their ending fund balance that is subject to the 1 percent cap.

At its business meeting on April 15, 2016, the Judicial Council adopted a process, criteria, and procedures for trial courts to request that TCTF-reduced allocations related to the 1 percent fund balance cap be retained in the TCTF as restricted fund balance for the benefit of those courts that make the request. The FHOB process is intended only for expenditures that cannot be funded by a court's annual budget or three-year encumbrance term and that require multiyear savings to implement. The process also requires reporting on the use of the funds.

The Judicial Council adopted revisions to the policy, including streamlining the submission schedule, making a change to the recipient of the request, and providing language corrections to better align with court year-end closing, trial court allocation offsets, and requests to amend previously reviewed requests at its business meeting on January 17, 2020 (see Attachment A).

Judicial Council Budget Services staff submitted its initial expenditure report to the TCBAC at

its July 25, 2019 meeting and established quarterly reporting on the status of FHOB projects or planned expenditures from those courts that indicate completion.

#### **Report of Status**

In July 2021, Budget Services staff requested a status on projects or planned expenditures from those courts that indicated completion through July 22, 2021:

Attachment A:	Summary of Recommended Process, Criteria, and Required Information for Trial Court Trust Fund Fund Balance Held on Behalf of the Courts
Attachment B:	Funds Held on Behalf of the Court Project Completion Reporting

# *Summary of Recommended Process, Criteria, and Required Information for Trial Court Trust Fund Fund Balance Held on Behalf of the Courts*

# Recommended Process for Trial Court Trust Fund Fund Balance Held on Behalf of the Courts

- 1. Trial Court Trust Fund fund balance will be held on behalf of trial courts only for expenditures or projects that cannot be funded by a court's annual budget or three-year encumbrance term and that require multiyear savings to implement.
  - a. Categories or activities include, but are not limited to:
    - i) Projects that extend beyond the original planned three-year term process such as expenses related to the delayed opening of new facilities or delayed deployment of new information systems;
    - ii) Technology improvements or infrastructure such as installing a local data center, data center equipment replacement, case management system deployment, converting to a VoIP telephone system, desktop computer replacement, and replacement of backup emergency power systems;
    - iii) Facilities maintenance and repair allowed under rule 10.810 of the California Rules of Court such as flooring replacement and renovation as well as professional facilities maintenance equipment;
    - iv) Court efficiencies projects such as online and smart forms for court users and RFID systems for tracking case files; and
    - v) Other court infrastructure projects such as vehicle replacement and copymachine replacement.
- 2. The submission, review, and approval process is as follows:
  - a. All requests will be submitted to the Judicial Council for consideration.
  - b. Requests will be submitted to the *director of Budget Services* by the court's presiding judge or court executive officer.
  - c. *Budget Services* staff will review the request, ask the court to provide any missing or incomplete information, draft a preliminary report, share the preliminary report with the court for its comments, revise as necessary, and issue the report to *the Fiscal Planning Subcommittee of* the Trial Court Budget Advisory Committee (TCBAC); the *subcommittee* will meet to review the request, hear any presentation of the court representative, and ask questions of the representative if one participates on behalf of the court; and *Budget Services* office staff will issue a final report on behalf of the *subcommittee* for the council.
  - d. The final report to the *subcommittee* and the Judicial Council will be provided to the requesting court before the report is made publicly available on the California Courts website.
  - e. The court may send a representative to the *subcommittee* and Judicial Council meetings to present its request and respond to questions.

- 3. To be considered at a scheduled Judicial Council business meeting, requests must be submitted to the *director of* Budget Services at least 40 business days (approximately eight weeks) before that business meeting.
- 4. The Judicial Council may consider including appropriate terms and conditions that courts must accept for the council to approve designating TCTF fund balance on the court's behalf.
  - a. Failure to comply with the terms and conditions would result in the immediate change in the designation of the related TCTF fund balance from restricted to unrestricted and no longer held on behalf of the court unless the council specifies an alternative action.
- 5. Approved requests that courts subsequently determine need to be revised to reflect a change (1) in the amounts by year to be distributed to the court for the planned annual expenditures and/or encumbrances, (2) in the total amount of the planned expenditures, or (3) of more than 10 percent of the total request among the categories of expense will need to be amended and resubmitted following the submission, review, and approval process discussed in 1–3 above. a. Denied revised requests will result in the immediate change in the designation of the related TCTF fund balance from restricted to unrestricted and no longer held on behalf of the court unless the council specifies an alternative action.
- 6.
