### **Action Item 7 – Use of Air Scrubbers During Wildfires**

The committee approved the following motion:

Whereas, the Judicial Council has provided air scrubbers to various trial courts in response to wildfires in the last several fiscal years, at a cost of \$4.6 million in FY 2020–21 for the deployment of 754 air scrubbers; and

Whereas, a review of the practices of other California state government agencies demonstrates that air scrubbers are not used by the Department of Corrections, the Department of General Services, or other state agencies for their state-owned buildings; and

Whereas, a similar review of the practices of public and private universities in California has failed to demonstrate any regular use of air scrubbers by these entities in their properties during the occasions of wildfire; and

Whereas, there is no indication of consistent use of such air scrubbers by building owners in the private sector; and

Whereas, the effectiveness of the air scrubbers deployed by the Judicial Council to date is uncertain because the buildings remained open to staff and the public and thus, due to COVID conditions, had to have a rather large amount of contaminated air steadily brought into the buildings, negating the full effectiveness of the air scrubbers, which work best when a building is sealed; and

Whereas, the Judicial Council through the TCFMAC is going to undertake a focused study on the actual effectiveness of air scrubbers in the context of courthouses.

It is therefore, the recommendation of the TCFMAC that going forward effective July 19, 2021, that:

1. The deployment of any such air scrubbers hereafter (until such time the Judicial Council adopts a formal policy) be on a cost-share basis on the following basis:
  - a. If the outside Air Quality Index (AQI) (level) is 400 or less, the air scrubbers be provided exclusively at the expense of the trial court that requests the use of such devices; and
  - b. If the AQI (level) is in excess of 400, the cost of air scrubbers for that trial court locality will be shared 50/50 between the Judicial Council’s budget and the budget of the trial court;
2. A policy be developed on air scrubbers (discussing deployment and costs) for future adoption by the Judicial Council; and
3. The pilot project for data collection (i.e., study) will run from July 19 through September 30, 2021, with an intent to provide a formal submittal (of the study data captured in the policy document) to the Judicial Council on March 3, 2022.

*(Motion: Highberger; Second: Rockwell)*

**Action Item 8 – Judicial Council Membership in Tuolumne Public Power Agency for New Sonora Courthouse**

The committee approved the *Court Facilities: Membership in Tuolumne Public Power Agency for the New Sonora Courthouse* report dated July 6, 2021, for submittal to the Judicial Council as a consent item. (*Motion: Highberger; Second: Haehnle; Opposed: Rockwell*)

**Action Item 9 – Trial Court Facility Modifications Q4 Report and Annual Summary of Facility Modifications for Fiscal Year 2020–21**

The committee approved the Trial Court Facility Modifications Q4 report—noting two edits to the title and description of Spotlight Projects on pages 4 and 5—and the Annual Summary of Facility Modifications Report for Fiscal Year 2020–21 for submission to the Judicial Council. (*Motion: Vallarta; Second: Highberger*)

**Action Item 10 – \$180 Million Allocated to the FY 2021–22 Budget for Trial Court Deferred Maintenance Projects**

The committee approved the proposed list of facility modification projects to be funded from \$180 million allocated to the FY 2021–22 budget for Trial Court deferred maintenance (the DMF-4 Project List). The list includes 212 trial court HVAC, roof, elevator, electrical, and fire protection projects across 24 counties. In addition to the trial court projects, there are 70 appellate court projects not on the list, which received \$8 million in funding, for a total deferred maintenance allocation of \$188 million. Staff noted that due to inflationary cost escalations, not all projects listed will be funded but additional project managers are being hired to ensure that all available funding is utilized. Prioritization of the projects will be based on several factors, including most urgent need, ability of counties to fund their share of the cost, design phase timelines, and potential energy savings from building automation system upgrades. (*Motion: Rockwell; Second: Haehnle*)

\*\*\*\*\*

### **Priority 1 = Immediately or Potentially Critical.**

Condition requires immediate action to return a facility to normal operations, or a condition that will become immediately critical if not corrected expeditiously. Such conditions necessitate the need to stop accelerated deterioration or damage, to correct a safety hazard that imminently threatens loss of life or serious injury to the public or court employees, or to remediate intermittent function and service interruptions as well as potential safety hazards. Such conditions may include, but are not limited to, the following: major flooding; substantial damage to roofs or other structural building components; or hazardous material exposure. Depending on scope and impact, a severe deterioration in life safety protection may also be considered a priority 1 condition requiring a facility modification.

Owing to their critical nature, priority 1 requests will be addressed immediately by JCC staff using internal procedures that ensure timely and effective responses to unplanned emergency or potentially critical conditions, including a method and a process for setting aside funds to address priority 1 conditions.

**Priority 2—Necessary, but Not Yet Critical.** Condition requires correction to preclude deterioration, potential loss of function or service, or associated damage or higher costs if correction is further deferred.

**Priority 3—Needed.** Condition to be addressed will reduce long-term maintenance or repair costs or will improve the functionality, usability, and accessibility of a court. The condition is not hindering the most basic functions of a facility, but its correction will support improved court operations.

#### Summary and Recommended Action

Facilities Services staff is submitting a draft of the *Five-year Master Plan – Deferred Maintenance Report for Fiscal Year 2021–22* for action to submit to the state Department of Finance (DOF). This draft report presents a total of 22,743 deferred maintenance projects at an estimated, rough order of magnitude cost of \$5.01 billion, with the Judicial Council share being \$3.7 billion.

The deferred maintenance estimate is lower than the prior fiscal year because facilities vacated due to the completion of two new capital projects were removed from the list, and projects funded by prior deferred maintenance one-time general fund allocations were removed. The attached exhibits provide the estimated project cost totals and Judicial Council's total as a result of county equity/ownership.

To comply with DOF's request that staff submit this report on an annual basis for its records, staff recommends the advisory committee approve this draft report for submission to the DOF.
