Page 2

This report identifies revenues; expenditures at the program, component, and object levels; and fund balances for fiscal year (FY) 2024–25. Judicial Council staff compiled this information from data reported by the trial courts in FY 2024–25 fourth quarter Quarterly Financial Statements. For FY 2024–25, the trial courts reported revenues totaling \$3.5 billion, expenditures totaling \$3.6 billion, and fund balances totaling \$405 million (see Attachment A).

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, fund balances for government funds must be reported by classifications. Based on GASB Statement No. 54, the total fund balance of \$405 million was classified as follows: \$16.2 million nonspendable, \$151.2 million restricted, \$151.7 million committed, and \$85.9 million assigned.

Detailed program element and component definitions and information on the Judicial Council's fund balance policy are attached to the report (Attachments B and C, respectively).

If you have any questions related to this report, please contact Mr. Jason Lopez, director, Judicial Council Branch Accounting and Procurement, at 916-643-7063.

Sincerely,

Michelle Curran

### **Trial Court Fund Balance Policy**

1. As publicly funded entities, and in accordance with good public policy, trial courts must ensure that the funds allocated and received from the state and other sources are used efficiently and accounted for properly and consistently. The trial courts must account for and report fund balance in accordance with established standards, using approved classifications. Additionally, a fund balance can never be negative.
2. Beginning with the most binding constraints, fund balance amounts must be reported in the following classifications:
  - a. Nonspendable Fund Balance
  - b. Restricted Fund Balance
  - c. Committed Fund Balance
  - d. Assigned Fund Balance
  - e. Unassigned Fund Balance (General Fund only)
3. When allocating fund balance to the classifications and categories, allocations must follow the following prioritization:
  - a. Nonspendable Fund Balance
  - b. Restricted Fund Balance
  - c. Contractual commitments to be paid in the next fiscal year
  - d. The minimum calculated operating and emergency fund balance
  - e. Other Judicial Council mandates to be paid in the next fiscal year
  - f. Contractual commitments to be paid in subsequent fiscal years
  - g. Assigned Fund Balance designations
  - h. Unassigned Fund Balance
4. Nonspendable Fund Balance includes amounts that cannot be spent because they are either (a) not in spendable form (not expected to be converted to cash) or (b) legally or contractually required to be maintained intact. Examples include Inventories, prepaid amounts, Long-Term Loans and Notes Receivable, and Principal of a Permanent (e.g., endowment) Fund.
5. Restricted Fund Balance includes amounts constrained for a specific purpose by external parties, constitutional provision, or enabling legislation.
  - a. Externally imposed—imposed externally by grantors, creditors, contributors, or laws or regulations of other governments (i.e., monies received by a grantor that can only be used for that purpose defined by the grant).
  - b. Imposed by Law (Statutory)—restricted fund balance that consists of unspent, receipted revenues whose use is statutorily restricted (e.g., children’s waiting room and dispute resolution program funding).

6. Committed Fund Balance includes amounts that can only be used for specific purposes under constraints imposed by formal action of the Judicial Council. These committed amounts cannot be used for any other purpose unless the Judicial Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed Fund Balance must also include contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. While the requirement to include contractual commitments is a policy decision of the Judicial Council, the type, number, and execution of contracts is within the express authority of presiding judges or their designee.
7. [NOTE: The minimum operating and emergency fund requirement discussed here is temporarily suspended until the Judicial Council lifts the suspension.] The Judicial Council has authorized a stabilization arrangement (Operating and Emergency fund category) to be set aside for use in emergency situations or when revenue shortages or budgetary imbalances might exist. The amount is subject to controls that dictate the circumstances under which the court would spend any of the minimum operating and emergency fund balance. Each court must maintain a minimum operating and emergency fund balance at all times during a fiscal year as determined by the following calculation based on the prior fiscal year's ending total unrestricted general fund expenditures (excluding special revenue, debt service, permanent proprietary, and fiduciary funds), less any material one-time expenditures (e.g., large one-time contracts).

Annual General Fund Expenditures

5 percent of the first \$10,000,000

4 percent of the next \$40,000,000

3 percent of expenditures over \$50,000,000

If a court determines that it is unable to maintain the minimum operating and emergency fund balance level as identified above, the court must immediately notify the Administrative Director, or designee, in writing and provide a plan with a specific time frame to correct the situation.

8. Assigned Fund Balance is constrained by the presiding judge, or designee, with the intent that it be used for specific purposes or designations that are not unspendable or restricted, nor committed. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed. Assigned amounts are based on estimates, and explanations of the methodology used to compute or determine the designated amount must be provided.

Assigned Fund Balances include:

- a. All remaining amounts that are reported in governmental funds, other than general funds, that are not classified as nonspendable and are neither restricted nor committed;  
  
and
- b. Amounts in the general fund that are intended to be used for a specific purpose in accordance with the provision identified by the presiding judge or designee.

Assigned Fund Balances will be identified according to the following categories:

- a. One-time Facility–Tenant Improvements. Examples include carpet and fixture replacements.
- b. One-time Facility–Other. Examples include amounts paid by the Judicial Council on behalf of the courts.
- c. Statewide Administrative Infrastructure Initiatives. Statewide assessment in support of technology initiatives (e.g., Phoenix) will be identified in this designation.
- d. Local Infrastructure (technology and nontechnology needs). Examples include interim case management systems and nonsecurity equipment.
- e. One-time Employee Compensation (leave obligation, retirement, etc.). Amounts included in this category are exclusive of employee compensation amounts already included in the court’s operating budget and not in a designated fund balance category.
  - i. One-time leave payments at separation from employment. If amounts are not already accounted for in a court’s operating budget, estimated one-time payouts for vacation or annual leave to employees planning to separate from employment within the next fiscal year should be in this designated fund balance subcategory. This amount could be computed as the average amount paid out with separations or other leave payments during the last three years. Any anticipated nonnormal or unusually high payout for an individual or individuals should be added to at the average amount calculated.
  - ii. Unfunded pension obligation. If documented by an actuarial report, the amount of unfunded pension obligation should be included as a designated fund balance. Employer retirement plan contributions for the current fiscal year must be accounted for in the court’s operating budget.

- iii. Unfunded retiree health-care obligation. If documented by an actuarial report, the amount of unfunded retiree health care obligation should be included as a designated fund balance.
    - iv. The current year's unfunded retiree health-care obligation contains (i) the current year Annual Required Contribution (ARC) based on a 30-year amortization of retiree health costs as of last fiscal year-end, and (ii) the prior year retiree health-care obligation less (iii), the retiree health-care employer contributions and any transfers made to an irrevocable trust set up for this purpose. The current year's unfunded retiree health-care obligation is to be added to the prior year's obligation.
    - v. Workers' compensation (if managed locally). The amount estimated to be paid out in the next fiscal year.
    - vi. Use of reserve funds for liquidation of outstanding leave balances for employees in a layoff situation, consistent with the requirements of GASB 45; other examples would include reserving funds for the implementation of "enhanced retirement" or "golden handshake" programs in the interest of eliminating salaries at the high end or top step thereby generating salary savings or rehires at the low end of a pay scale for position(s) but realizing one-time costs in the interest of longer-term savings for the court.
  - f. Professional and Consultant Services. Examples include human resources, information technology, and other consultants.
  - g. Security. Examples include security equipment and pending increases for security service contracts.
  - h. Bridge Funding. A court may choose to identify specific short- or intermediate-term funding amounts needed to address future needs that are otherwise not reportable, or don't fit the criteria, in either restricted or committed classifications, that it believes are necessary to identify through specific designations. These designations must be listed with a description in sufficient detail to determine their purpose and requirements.
  - i. Miscellaneous (required to provide detail). Any other planned commitments that are not appropriately included in one of the above designated fund balance subcategories should be listed here with a description in sufficient detail to determine its purpose and requirements.
9. Unassigned Fund Balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to any other fund balance classification. The general fund is the only fund that can report a positive unassigned fund balance amount.
