

**ADDENDUM 5**  
**Administrative Office of the Courts**  
**Trial Court Local and Wide Area Network Architecture**  
**October 5, 2001**

#	Document	Document Section & Page	Question	Answer
1	RFP, Ver 4 09/18/01	Page 7	At the bottom of page 7 and top of page 8 the RFP discusses implementation and states, "Thus, the selected vendor or vendor team will have a hardware and software component in place." We read this as requiring that the selected vendor will provide the team to procure, install and commission the facilities to be implemented. However, some read this as requiring that the selected vendor (or	We would like a member of your team to be a supplier of hardware and software.
2	RFP, Ver 4 09/18/01	Section VI	Proposal Requirements does not provide a specific table of contents or specific order of topics. Does the State have a preference for the order of presentation of the topics?	There is no specific order to respond. We do appreciate being able to easily find the response to each of the requirements.
3	RFP, Ver 4 09/18/01		May we have a list of attendees for the optional vendor conference?	The list of attendees will be posted on the website Friday, October 5, 2001.
4	RFP, Ver 4 09/18/01	Phase 1 Discovery	Can you please provide an address list of all 11 pilot court locations as well as their corresponding branches	The main addresses of the courts are on the JC website. We cannot supply all of the branch addresses at this time or number of employees by location. The number of locations can be found
5	RFP, Ver 4 09/18/01	Phase 1 Discovery	Please provide estimated number of users at each each of the locations (trial courts + branches)	The total number of employees by court are listed in the Trial Court Requirements for a Telecommunications Architecture, Phase 1 report.
6	RFP, Ver 4 09/18/01	Phase 1 Discovery	What is the level of IT support at each of the locations (local, regional, 3rd party, etc)	We do not have current information on this. During the Phase 1 this will have to be assessed.
7	RFP, Ver 4 09/18/01		In the RFP proposal, which format would you prefer to see as it relates to the technical requirements: Provide a table that lists each requirement along with the corresponding product(s) that will fulfill this requirement.	A generic statement of correspondence to the requirements is fine. Because we don't know exactly what products will be used in the final design, a high level overview of the products will be sufficient.
8	RFP, Ver 4 09/18/01		In the RFP proposal, which format would you prefer to see as it relates to the technical requirements: Generically respond that the "x" product line will fulfill all the requirements.	See answer to question #7.
