JUDICIAL COUNCIL OF CALIFORNIA ADMINISTRATIVE OFFICE OF THE COURTS

1.0 GENERAL INFORMATION

1.1 BACKGROUND

1.1.1 The Judicial Council of California, chaired by the Chief Justice of California, is the chief policy making agency of the California judicial system. The California Constitution directs the Council to improve the administration of justice by surveying judicial business, recommending improvements to the Courts, and making recommendations annually to the Governor and the Legislature. The Council also adopts rules for Court administration, practice, and procedure, and performs other functions prescribed by law. The Administrative Office of the Courts (AOC) is the staff agency for the Council and assists both the Council and its chair in performing their duties.

1.2 INFORMATION SERVICES DIVISION

1.2.1 The Information Services Division (ISD), a division of the AOC, coordinates court technology statewide, and supports coordination throughout the judicial branch; manages centralized statewide technology projects; and optimizes the scope and accessibility of accurate statewide judicial information.

1.3 CCMS V4 data center infrastructure integration

1.3.1 The AOC is establishing the V4 infrastructure integration role to ensure the necessary coordination and integration between the following groups/partners that have key roles in the development and implementation of CCMS V4.

- Business client/SRO
- Developer of business function software/Deloitte
- Data center operations/SAIC
- Data center infrastructure/InfoX
- AOC architecture group
- AOC security group
- AOC shared services group

These groups have created for their own team CCMS V4 development and implementation plans that include technical infrastructure components. An overall integrated plan for the data center technical infrastructure is required to ensure the success of the overall V4 implementation and rollout.
