

## Question and Answer Posting

### RFP # CRS AU 129:

---

**Q:** It appears that the GS maximum # is only 350, but when the breakout room needs are added up, the total comes up to 630 people. Is there any flexibility with the breakout room needs, i.e. the number of rooms needed or the number of people that each room needs to accommodate?

**A:** Yes, there is flexibility on the number of participants in each breakout rooms. We normally ask for larger breakout rooms due to AV and other session needs. Please propose the best you can and we will determine if we can use this space based on our criteria.
