| RFP Title FACILITIES SERVICES' INTEGRATED WORKPLACE MANAGEMENT SYSTEM (IWMS) PROJECT |               |
|--|---------------|
| RFP Number   | FS-2019-04-LB |

| Manuals and  | D  | Description   |
|--|--|---|
|  | Report Name  |   |
|  | Complete Building Report   | Complete Building Report  |
| 2  | Building Cost Report   | Report that displays the maintenance, rent, utility, and other costs rolled up at the building level  |
|  |  | Report that displays Service Work Order by status, Service Provider, work type, request type, open date, closed date,   |
| 3  | Service Work Orders  | etc., fields customizable by role or user   |
|  | Service Work Order Data Export   | Report has all of the fields on the Service Work Order  |
|  | Service Work Order Cost Report   | Report shows all labor, materials, subcontractor, and other invoicing costs. Need to group by accounting codes  |
|  |  |   |
|  | Service Work Orders Created within the Last Ten Days   | Report that displays Service Work Orders created within the last 10 days  |
| 7  | Open Service Work Orders Due within the Next 15 Days   | Report that displays Service Work Orders due within the next 15 days  |
|  |  | Report that compares as a percentage the actual costs to the maximum authorized amount for a Service Work Order to  |
| 8  | Work Order Cost Alert  | show if going over/under cost   |
|  |  | Report that provides the ability to print Preventative Maintenance worksheet with procedure steps and all required JCC  |
| _  |  |   |
|  | Preventative Maintenance SWO Procedure Steps   | information for upload  |
| 10   | Facilities Modifications Project   | Report that displays all of the Service Work Orders for each Facilities Modification project  |
|  |  | Report that displays asset within the building, all fields, all statuses, scheduled planned maintenance dates, and by   |
| 11   | Building Assets  | responsible organization  |
|  | Building System Classification Report  | Report that displays the building system classifications and equipment  |
|  |  |   |
| 13   | Building Closure/Disposition Report  | Report that displays property/building closure/disposition data   |
|  |  |   |
| 14   | Service Provider Performance Metrics (KPI) Reports   | Dashboard report that displays Service Work Order KPI such as past due, over cost, customer survey results, priority, etc.  |
| 15   | Quality Assurance Management Reports   | Report that displays input by various performance write ups and site visit results by Region, by Service Provider   |
|  | ,  | Report(s) that displays on demand customer survey results for Service Work Orders, including surveys by type, action  |
|  | Customer Survey  |   |
|  | Customer Survey  | taken, percentage completed by court, and low survey scores   |
| 17   | User Reports(Active and Retired)   | Report that displays application users by status  |
|  |  | Reports that displays markup, cost codes, fees grouped by service provider and Delegated Court, by priority, by project,  |
| 18   | Invoice Summary Reports  | by region, and by request type  |
|  | Invoice Summary Reports  Invoice Summary Report by Cost Codes  | Report that displays costs by account codes for invoices for an individual service provider   |
| 19   | invoice Summary Report by Cost Codes   |   |
|  | L  | Reports that displays subcontractor costs for a selected date range with the ability to select for specific subcontractors  |
| 20   | Subcontractor Costs Report   | or display for all subcontractors   |
|  |  | Reports that displays materials costs and mark-up for a selected date range, and can be grouped by cost codes, service  |
| 21   | Material Costs   | provider, region, request type, and priority  |
|  |  | Reports that displays labor costs, markup, by funding, by Service Provider, by Region, by request type, by priority for a   |
|  | Labor Costs  |   |
|  | Labor Costs  | selected date range   |
| 23   | Cost Data for Cost Plus Work   | Report that displays costs by for Cost Plus Work  |
|  |  | Report that displays payments issued and revenue received in the monthly rent roll (amount, charge codes, payee,  |
| 24   | Real Estate Rent Roll Report   | vendor ID, remittance address, etc.)  |
|  | Real Estate Rent Roll Preview Report   | Report that displays expected payments for the monthly rent roll before payments are issued   |
|  |  |   |
|  | Rent Roll Variation Report   | Report that compares expected rent roll payments to payments on previous month's rent roll  |
| 27   | Rent Obligations   | Report that displays rent obligations for the entire term of the each lease/license   |
| 28   | Rent Paid  | Report that displays rent paid  |
| 29   | Rent Received  | Report that displays rent received  |
|  |  |   |
|  | Holdover Report  | Report that displays select lease data for leases that are in holdover  |
| 31   | Pending Transfers of Title   | Report that tracks properties with upcoming transfers of title  |
| 32   | Landlord Contact Information   | Report that displays landlord contact information for mailing lists   |
| 33   | Tenant Contact Information   | Report that displays tenant contact information for mailing lists   |
|  | Real Estate Documents  | Report that displays a list of real estate documents uploaded to application  |
| 3-7  | near Estate Documents  |   |
|  | Parking Report   | Report that displays parking details such as number of spaces in secured/unsecured lots and type (structure, open lot,  |
| 35   | · · · · · · · · · · · · · · · · · · ·  | subsurface)   |
|  |  | Report that displays data from Service Work Orders for rooftop access such as status, hours, actual costs incurred, and   |
| 36   | Report for Rooftop Access  | dates   |
| - 50   |  | Report that displays rent roll/cost information and returns it in a format specified by the California State Controller's   |
|  |  |   |
| 37   | Real Estate Rent SCO( State Controller Office)   | Office  |
| 38   | Critical Date Report   | Report that displays critical data for leases/licenses and owned properties/owned property contracts  |
| 39   | Lease Portfolio Report   | Report that displays lease building data  |
|  | Rentable Cost per Sq. Ft. Report   | Report that displays rentable cost per Sq. ft information   |
|  |  |   |
|  | New Courthouse Projects  | Report that displays new courthouse projects  |
|  | Acquisition Report   | Report that displays property acquisition data  |
| 43   | Building List-JCC is Titleholder   | Report that displays the building that is owned by JCC  |
|  | Work Orders with Assigned Assets   | Report that displays Service Work Orders for each asset   |
|  | JCC Building Assets  | Report that displays the list of all active/retired building assets   |
|  |  |   |
| 46   | JCC Building Assets with Permits   | Report that displays permit assigned to an asset  |
|  |  | Report that displays vehicle assignments to JCC personnel and mileage information. A data source may include the fuel   |
| 47   | Fleet Reporting  | card provider system data export  |
| 48   | EPA Management   | Report that displays EPA ID and waste manifest information  |
|  |  | Report that assists in controlling refrigerant leakage from HVAC assets by providing information on recovery, recycling,  |
|  | Refrigerant Leak Management Reporting  |   |
| 49   |  | and the destruction of refrigerants at the end of life.   |
|  |  | Report that displays incidents filed by building such as injuries, illnesses, security issues, property damage, etc.  |
|  | Incident Reporting   |   |
|  | Incident Reporting Project Management Dashboard  | Dashboard reports that displays project status, budget, workload, etc.  |
| 51   |  |   |
| 51<br>52   | Project Management Dashboard<br>Insurance Policy   | Dashboard reports that displays project status, budget, workload, etc. Report that tracks insurance policy issuance and renewal   |
| 51<br>52<br>53   | Project Management Dashboard<br>Insurance Policy<br>Building Permit  | Dashboard reports that displays project status, budget, workload, etc.<br>Report that tracks insurance policy issuance and renewal<br>Report that tracks permit request and status  |
| 51<br>52<br>53<br>54   | Project Management Dashboard<br>Insurance Policy<br>Building Permit<br>Plan Review   | Dashboard reports that displays project status, budget, workload, etc. Report that tracks insurance policy issuance and renewal Report that tracks permit request and status Report that tracks plan review request and status  |
| 51<br>52<br>53<br>54<br>55   | Project Management Dashboard Insurance Policy Building Permit Plan Review Inspection   | Dashboard reports that displays project status, budget, workload, etc.  Report that tracks insurance policy issuance and renewal  Report that tracks permit request and status  Report that tracks plan review request and status  Report that tracks inspection request and status (re-inspections, passed, failed, etc.)  |
| 51<br>52<br>53<br>54<br>55   | Project Management Dashboard<br>Insurance Policy<br>Building Permit<br>Plan Review   | Dashboard reports that displays project status, budget, workload, etc. Report that tracks insurance policy issuance and renewal Report that tracks permit request and status Report that tracks plan review request and status  |
| 51<br>52<br>53<br>54<br>55<br>56   | Project Management Dashboard Insurance Policy Building Permit Plan Review Inspection Permit Expiration   | Dashboard reports that displays project status, budget, workload, etc.  Report that tracks insurance policy issuance and renewal  Report that tracks permit request and status  Report that tracks plan review request and status  Report that tracks inspection request and status (re-inspections, passed, failed, etc.)  Report that displays permit expirations   |
| 51<br>52<br>53<br>54<br>55<br>56   | Project Management Dashboard Insurance Policy Building Permit Plan Review Inspection   | Dashboard reports that displays project status, budget, workload, etc.  Report that tracks insurance policy issuance and renewal  Report that tracks permit request and status  Report that tracks permit request and status  Report that tracks plan review request and status  Report that tracks plan review request and status (re-inspections, passed, failed, etc.)  Report that displays permit expirations  Report that tracks permits for lift equipment (elevators, wheelchair lifts, escalators and dumbwaiters)   |
| 51<br>52<br>53<br>54<br>55<br>56<br>57                                     | Project Management Dashboard Insurance Policy Building Permit Plan Review Inspection Permit Expiration Lift Permits  | Dashboard reports that displays project status, budget, workload, etc.  Report that tracks insurance policy issuance and renewal  Report that tracks permit request and status  Report that tracks plan review request and status  Report that tracks inspection request and status (re-inspections, passed, failed, etc.)  Report that tracks permit expirations  Report that tracks permits for lift equipment (elevators, wheelchair lifts, escalators and dumbwaiters)  Report that tracks permits for selective equipment (including [not exhaustive] boilers, generators, diesel fuel pumps and   |

The report also includes the steps to perform and the documentation required  Report that shows the preventative maintenance for each asset  Report that displays preventative maintenance for each cased  Report that shows beth preventative maintenance by active plan, category, equipment classification, regulatory classification, cost, task steps and documentation logs to complete  Report that displays planned and active maintenance work for forecasting budget, load leveling, schedule. Ability to  |

|      |   | Report that displays all or a select group of procedure steps for preventative maintenance work by name, category,  |
|------|---|---|
| 67   | Preventive Maintenance Procedure Steps Report                                   | equipment classification, regulatory classification, or preventative maintenance plan   |
| 68   | Court Liaison User List   | Report that lists all of the Court Liaison users, and can be grouped by county  |
| 69   | All work for last 7 Days  | Report that displays a graph of the service work order counts by request type for the last 7 days   |
| 70   | All work for last 7 Days by Job Status  | Report that displays a graph of service work order counts by job status for last the 7 days   |
| 71   | Accounting of 810 MOU Costs (Courts)  | Report that displays the costs and count of court funded Service Work Orders by the building(s) associated to the logg in user  |
| 72   | All Requests for Each Building  | Reports that displays all of the Service Work Order requests for each building  |
|      | My Requests   | Report that displays all active Service Work Orders entered by the logged in user   |
|      | My Requests – Closed  | Report that displays all closed Service Work Orders entered by the logged in user   |
|      | My Buildings Report   | Report that displays Service Work Orders for the buildings associated to the logged in user   |
|      |   | Report that displays Service Work Order Update requests for all decision actions (for example approved, returned for  |
|      | SWO Update With Approve & Reject Comments                                       | clarification, rejected). The report needs to include the date of the decision action and decision comments. The report   |
|      |   | needs to be searchable on the type of Service Work Order change requested (e.g. due date, cost increase, work type  |
| 76   |   | change, etc.)   |
| 77   |   | Report that displays Service Work Order due date extension requests   |
|      | SWO Updates Pending Approval  | Report displays Service Work Orders with a pending Service Work Order Update request  |
|      | Report Run Frequency Report   | Report displays the frequency that reports are used   |
| 80   | Deferred Maintenance Funding Report   | Report that lists Facility Modification Projects that are in deferred status in order to secure funding   |
|      |   | Reports that displays utility cost and usage by utility type (e.g. electricity, gas, water, propane, garbage, etc), building,   |
| 81   | Utility Use & Cost  | square footage, etc.  |
|      |   | Report that displays by list or line graph or chart graph utility data by user building, buildings, or the entire portfolio fo  |
| 82   | Utility Year over Year Comparison   | year over year comparison   |
|      |   | Report projection per an individual selected utility or all utility types. Option for weather normalization. Building level   |
| 83   | Utility Year Over Year Percentage Change  | portfolio level record selection  |
|      |   | Report displays utility usage at the facility level on a monthly basis; provides a 12 month comparison with the previous  |
| 84   | Monthly Use and Cost by Facility  | 12 months. Option for 13 month comparison & normalization using external factors such as weather  |
|      |   | Report displays usage at building level and includes the utility cost per square foot. Option for weather normalization   |
| 85   | Utility Use & Cost by Type (Energy, Gas, Water)                                 | facility level prior to roll-up   |
|      |   | Report that displays 12 months comparison with previous 12 months by portfolio level. Also the option to include a 1:   |
| 86   | Monthly Use and Cost by Type (Energy, Gas, Water)                               | months comparison & normalization using external factor such as weather   |
|      | 7 77 1 37   | Report that displays the utility cost information in a format that is accepted by the California State Controller's Office.   |
|      |   | Detailed utility billing export that has capability to incorporate various tariff components, cost codes, and also  |
| 87   | Utilities Reports for SCO ( State Controller Office)                            | apportionment of costs using pre-determined percentages   |
|      | All Utility Invoices  | Report that displays utility data grouped at the building level and the cost codes  |
|      | 7 in Other, invoices  | Reports that displays utility costs and/or usage by type, building, group of buildings, by square footage, etc. Also provi  |
| 89   | Utilities Data Report   | year-over-year, month-over-month, week-over-week, or day-by-day energy  |
| 90   |   | Report that displays energy and water usage and cost by building  |
| 30   | Lifetgy & water consumption tracking by building level utility usage and cost   | Report that displays energy and water usage and cost by building  Report that displays a portfolio roll-up that can include all or specific utilities. Options to normalize for various factors |
| 91   | Energy & water consumption tracking by portfolio level utility usage and cost   | such a weather, occupancy, and square footage   |
| 71   | e   |   |
| 92   | Energy costs tracking   | Report that displays real-time (and historic) energy costs using site-specific time of use (TOU) tariffs  |
|      |   | This report allow the user to create "peer groups" and will rank buildings [and/or submeters, meters, and equipment]  |
|      | Energy performance analysis - Cross-sectional benchmarking                      | a performance index such as kBtu per sf, kBtu/sf/yr, \$ per year, kBTu per building occupant, \$ per year,kW per occupa   |
|      | 0,7,  | Integration capability with the ENERGY STAR Portfolio Manager to automatically produce ENERGY STAR scores for user  |
| 93   |   | selected buildings  |
|      | Energy performance analysis - Longitudinal benchmarking                         | This report provide the ability to compare the energy usage [and/or costs] in a fixed period (day/week/month/year) for  |
| 94   | Energy performance analysis congitudinal benefitharking                         | building against past [and/or predicted] performance of the same period length  |
|      | Energy performance analysis. Heat man visualization                             | The report provides heat maps of energy consumption, color coding the magnitude of the metered energy usage for a   |
| 95   | Energy performance analysis - Heat map visualization                            | user-selected time period of historic data  |
|      |   | Characterization and prediction of the typical or expected energy usage based on key drivers such as weather (degree  |
|      | Energy performance analysis - Baseline energy consumption modeling              | days/outside air temperature), time of day/week, and other variables. The baseline will be used for energy savings  |
| 96   |   | calculations, near-future load predictions, energy use comparisons, and energy anomaly detection  |
|      |   | This report provide the capability for JCC staff to upload utility billing data (i.e., electricity, gas, steam, water) using CS\  |
| 97   | Utility billing management - Billing data input                                 | XLSX format and using a customizable web form.  |
|      | Utility Billing Management - Allocation of utility costs using defined % ratios | The report will display allocation of utility costs and usage using the defined percentage ratios   |
| 50   |   | The report displays allocations and total utility costs for each calendar month (as opposed to billing periods, which ma  |
| 99   | Utility Billing Management - calendar month reporting                           | not fall within a single month)   |
| 99   |   |   |
| 4.5- | Utility Billing Management - bill component details                             | The report displays all relevant utility bill component details including total usage, cost, credits/adjustments, demand  |
| 100  | · · · · · · · · · · · · · · · · · · ·   | charges, time of usage breakdown etc.   |
| 101  | Utility budgeting - reporting   | The report displays charting and reporting of energy costs against budget, indicating surplus/deficit   |
| 101  | T .   | The report displays Greenhouse Gas data and report Scope 1 & 2 GHG emissions associated with facility energy use in   |
|      | Greenhouse gas (GHG) Report   |   |
| 102  | Greenhouse gas (GHG) Report   | accordance with the current GHG Protocol Corporate Standard   |
|      | Greenhouse gas (GHG) Report   |   |
