1	RFP	<p>Should teams be formed to handle all the required disciplines, or is it anticipated that individual firms will only submit in their discipline? The disciplines being:</p> <p style="margin-left: 40px;">2.3 Architectural plans – California Architectural license or ICC Plans Examiner certificate</p> <p style="margin-left: 40px;">2.4 Structural plans – California Structural Engineering license</p> <p style="margin-left: 40px;">2.5 Civil plans – California Civil Engineering license or ICC Plans Examiner certificate</p> <p style="margin-left: 40px;">2.6 Mechanical plans – California Mechanical Engineering license or ICC Plans Examiner certificate</p> <p style="margin-left: 40px;">2.7 Plumbing plans – California Mechanical Engineering license or ICC Plans Examiner certificate</p> <p style="margin-left: 40px;">2.8 Electrical plans –California Electrical Engineering license or ICC Plans Examiner certificate</p> <p>Is there a need to indicate any regional distinction for firms with multiple offices that might perform the work?</p>	<p>Proposers must describe their ability to provide plan review services in all required disciplines including their qualifications, experience, and expertise for the AOC to make their selection.</p> <p>There is no need to make regional distinctions for firms with multiple offices.</p>
2	RFP	<p>Please clarify with regards to the statement contained on page 3 of the RFP for IDIQ Plan Review Services for the AOC that <i>“selected service providers will be prohibited from performing design work on courthouse construction projects while engaged in the IDIQ plan review contract.”</i> If we are on a design team for a given new courthouse, are we precluded from performing Plan Review Services for just that one particular new courthouse or are we excluded from providing qualifications for the IDIQ for Plan Review services?</p>	<p>Firms selected to provide plan review services are excluded from providing any design services on any courthouse project throughout the duration of the IDIQ contract.</p>
