

### **ATTACHMENT 3**

#### **Regional Pricing Workbook / Sheets**

For each of the three respective JCC Regions, the following Excel pricing workbook(s) have been issued. PDF's of these workbooks are provided with this Attachment 3:

- Bay Area / Northern California Region: “BANCRO – Pricing Workbook V1.1 JCC”
- Northern / Central Region: “NCRO – Pricing Workbook V1.1 JCC”
- Southern Region: “SRO – Pricing Workbook V1.1 JCC”

Each workbook is comprised of a series of tabs.

- “BANCRO – Pricing Workbook V1.1 JCC” - Four (4) Summary Sheet plus forty-eight (48) Facility Sheets, total of fifty-two (52) sheets
- “NCRO – Pricing Workbook V1.1 JCC” - Four (4) Summary Sheet plus forty-nine (49) Facility Sheets, total of fifty-three (53) sheets
- “SRO – Pricing Workbook V1.1 JCC” - Four (4) Summary Sheet plus one hundred and one (101) Facility Sheets, total of one hundred and five (105) sheets

The first sheet in each workbook is the “Summary Pricing Sheet”. When you open the file, enable the content, as coming from a trusted source. In field B3 of the Summary Pricing Sheet, replace “*Firm Name TBD*” with your firm’s name. This will populate the Proposer name in all sheets within the workbook. Save the file using the naming convention in the RFP instructions, Section 8.6.

The Summary Pricing Sheet retrieves information that is entered in each of the respective facility sheets. Each sheet is named with the unique JCC ID for the respective facility. The Summary Pricing Sheet populates the information for each facility in rows. The “Total Annual Cost” for each System ID is automatically populated to the Summary Sheet (columns "I" through "AT") from the corresponding Facility Sheets - Total Annual Cost for each System ID. Further detail on the facility tabs is provided below. The Proposer must fill in their lump sum price for Phase-In and Phase-Out services in the bottom left of the Summary Pricing Sheet. The calculated total is the “Year One Firm Fixed Price” which become the basis for the “Total Evaluated Price” calculation in Attachment 10. These calculations are included below the rows of facilities by Region.

The Facility sheets are all structured identically. The only fields that the proposers have to complete are their all-inclusive cost to perform single tasks by equipment. The relevant equipment for each respective facility is identified with white cells. The total number of each “cost” items is multiplied by the relevant “quantity” and these are totaled to calculate the “Annual Cost” for a single asset/item. The Annual Cost is multiplied by the number of asset/items for the facility, to calculate the “Total Annual Cost”.

On each facility sheet, there are a series of pricing elements that must be completed for each facility by the proposer:

S1: Snow Removal – (crew hourly rate) – this is the proposers hourly rate on-site for a snow removal crew, including travel, equipment, deicer, etc. to perform snow removal, if applicable at the facility.

I1: Unclogging Blocked Toilet – In-custody cell (labor only) – this is the proposers flat rate to unclog a blocked toilet in a custody cell, if applicable, in the facility. Any additional repairs and materials will be treated as work-orders.

I2: Unclogging Blocked Toilet – Public/Court Staff (labor only) - this is the proposers flat rate to unclog a blocked toilet in a public restroom or court staff restroom, in the facility. Any additional repairs and materials will be treated as work-orders.

I3: Clean up & Disposal of Biological Waste, Event - this is the proposers flat rate to clean up and dispose of Biological Waste - up to four (4) hours effort.

I4: Clean up & Disposal of Biological Waste, Labor Rate - this is the proposers hourly rate for clean up and disposal of biological waste beyond the four (4) hours included in I3 above.

Hr 1: Hourly Rate (All Labor Categories) – this is the working hourly rate for any category of personnel required to perform a task at the facility, including travel.

M1: Markup on Materials (Percentage) – This is the proposers only markup on the agreed cost of materials.

Sub1: Markup on Subcontractors/Third-Parties (Percentage) - This is the proposers only markup on the agreed cost for subcontractors or other third-parties.

## **BANCRO – PRICING WORKBOOK V1.1 JCC**

Four (4) Summary Sheets plus forty-eight (48) Facility Sheets, total of fifty-two (52) sheets.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.

Number of Facilities in Region		49
1	Year One Firm Fixed Price	\$ -
2	Evaluated Hourly Cost	\$ -
3	Mark-up on Materials Value	\$ -
4	Mark-up on Subcontractor/Third-Parties Value	\$ -
5	Snow Removal	\$ -
6	Unclogging Blocked Toilet – In-custody holding cell	\$ -
7	Unclogging Blocked Toilet – Public / Court Staff	\$ -
8	Clean up & Disposal of Biological Waste Per Event	\$ -
9	Clean up & Disposal of Biological Waste Labor Rate	\$ -
10	Phase-In Costs	\$ -
11	Phase-Out Costs	\$ -
12	Total Evaluated Price	\$ -

1. Sum of Fixed Price - Facility Total Annual Cost Year 1 in Region = Year One Firm Fixed Price value

2. Average Hourly Rate for all facilities in region: Total of Hourly Rates proposed in cost proposal, divided by the Number of Facilities in Region (to establish Average Hourly Rate), multiplied by the Number of Facilities in Region, multiplied by 1,000 hours = Evaluated Hourly Cost evaluation value.

3. Markup on Materials: Evaluated Hourly Cost value for Region, multiplied by 0.3 (to establish the Materials value), multiplied by the average proposed Mark Up on Materials percentage = Markup on Materials evaluation value.

4. Markup on Subcontractor/Third-Parties: Evaluated Hourly Cost value, multiplied by 0.25 (to establish the Materials value), multiplied by the average proposed Mark Up on Subcontractor/Third-Parties percentage = Markup on Subcontractor/Third-Parties evaluation value.

5. Snow Removal (crew hourly rate); Average Snow Removal (crew hourly rate) in Region, multiplied by the Number of Facilities in Region, multiplied by four (4) events per facility = Snow Removal evaluation value.

6. Unclogging Blocked Toilet – In-custody holding cell (labor only); Average Unclogging Blocked Toilet – In-custody holding cell costs in Region, multiplied by the Number of Facilities in Region, multiplied by twenty-six (26) events per facility = Unclogging Blocked Toilet – In-custody holding cell evaluation value.

7. Unclogging Blocked Toilet – Public / Court Staff (labor only); Average Unclogging Blocked Toilet – Public / Court Staff costs in Region, multiplied by the Number of Facilities in Region, multiplied by one hundred and four (104) events per facility = Unclogging Blocked Toilet – Public / Court Staff evaluation value.

8. Cleanup and Disposal of Biological Waste; Average Cleanup and Disposal of Biological Waste cost in region, multiplied by the number of facilities in the region, multiplied by twelve (12) events per facility = Cleanup and Disposal of Biological Waste evaluation value.

9. Clean-up & Disposal of Biological Waste Labor Rate (for hours over four (4) per Clean-up & Disposal of Biological Waste Event) Average costs throughout the Region, multiplied by the Number of Facilities per Region, multiplied by twenty (20) hours per facility = Clean-up & Disposal of Biological Waste Labor Rate evaluation value.

10. Phase-In Costs - Lump Sum Amount

11. Phase-Out Costs - Lump Sum Amount at end of Contract Term

12. Each of the values for items 1 through 10 above will be calculated and added together to establish the Total Evaluated Price value.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.

\* Landscape Maintenance varies by location on the number of weeks per year it can be performed. For the purpose of the RFP, all facilities are pre-established at 40 weeks of service. The actual amount paid by facility will be based upon the actual weeks that service has been performed, validated and invoiced.
