1. GENERAL INSTRUCTIONS AND INFORMATION

A. GENERAL INFORMATION

A description of the Project is found at Attachment B, Building Information.

In order to submit a pre-qualification proposal the general contractor must have a current California contractor's license, which is a **"B" license**

This Prequalification for general contractors to the AOC, is required.

Prequalification by the AOC, shall remain valid until the contract for construction is awarded or until responding firms are notified in writing by the AOC in the unexpected event that no construction contract is awarded. It is mandatory that all general contractors who intend to submit fully complete the pre-qualification questionnaire, provide all materials requested, and be approved by the AOC to be on the final qualified general contractors list. No bid will be accepted from a general contractor that has failed to comply with these requirements. If two or more business entities submit a bid as part of a Joint Venture, or expect to submit a bid as part of a joint venture, each entity within the joint venture must be separately qualified to bid.

NOTES:

1. Each partner of joint venture proposals must individually meet the conditions of General Contractor's Evaluation Form, and each general contractor's license must not have been suspended, or put on a probationary status or revoked at any time within the last five (5) years.
2. Limited Liability Corporations (LLC) will be required to comply with a Guaranty of Obligations.
3. The project will be insured under the terms and conditions of an Owner Controlled Insurance Program (OCIP) the summary of which is included in Attachment E, OCIP Manual.

Answers to questions contained in the attached questionnaire, information about current bonding capacity, notarized statement from surety and any accompanying notes and supplemental information are required. The AOC will use these documents as the basis of rating general contractors in respect to their ability to perform the Project. The AOC reserves the right to check other sources available. The AOC's decision will be based on objective evaluation criteria.

While it is the intent of the pre-qualification questionnaire and required documents to assist the AOC in determining a select list of qualified general contractors; neither the fact of pre-qualification, nor any pre-qualification rating, will preclude the AOC from considering and/or determining whether a general contractor has the quality, fitness, capacity and experience to satisfactorily perform the Project, and has demonstrated the requisite trustworthiness to be awarded a contract.

B. Data Required

All portions of Application for Prequalification Parts I through VI should be completed, with additional information attached if the space provided does not suffice. Failure to include the information called for may result in disqualification. It is essential that construction experience of the general contractor be demonstrated, as such experience is considered in establishing prequalification.

Each questionnaire must be signed under penalty of perjury in the manner designated at the end of the form, by an individual who has the legal authority to bind the general contractor on whose behalf that person is signing. If any information provided by a general contractor becomes inaccurate, the general contractor must immediately notify the AOC and provide updated accurate information in writing, under penalty of perjury.

The AOC reserves the right to waive minor irregularities and omissions in the information contained in the pre-qualification application submitted, to make all final determinations, and to determine at any time that the pre-qualification procedures will not be applied to a specific future public works project.
