- 1. To properly assess this opportunity, please provide the total number of vehicles in the JCC fleet that could utilize the lease and fleet services in the RFP.**

There are currently 35 vehicles in the JCC fleet that could utilize the lease and fleet services in this RFP. Although the JCC currently has 35 vehicles, the agreement does not guarantee the Contractor a specific volume of orders. Also stated in the RFP, the Master Agreement resulting from this RFP may be used by all JBE's, which we do not have an estimated quantity of possible leases at this time.
